## Babson Explodes The Population and Negro Explosions

### Education May Be The Answer

Babson Park, Mass. — I am not arguing with the census bureau as to how our population has increased. This is covered carefully in several pages — beginning with page 251 — of the "1963 World Almanac," which book I have already referred to in a previous release (Feb. 21, 1963). These figures show that there has never been a real population "explosion" in the United States.

#### What The Birth Rate Shows

There is a little decline in the birth rate during a war. This applies to our country and to every other country. But immediately following the war, nine months or more after the soldiers get home, there is a heavy increase in births. These show up clearly in about sixteen years, when the babies have grown up enough to be seeking jobs. Sixteen-to-seventeen years after the end of World War II brings us up pretty close to the present — at least to 1961-1962.

I once asked Thomas A. Edison who was the world's greatest inventor, and he replied: "The inventor of compound interest." This applies to births of babies as well as to money. This should also apply to jobs, but in reverse. This question of jobs is especially interesting — and very upsetting — to graduates from schools and colleges at present, for a number of reasons. Let me explain:

**Women At Work**  
The last war forced industry to accept women as employees. Not only did industry find women capable workers but the women enjoyed for the first time having their own money and being able to do such things as taking trips and buying autos, refrigerators, radios, etc., which their husbands used to tell them they could not afford.

Up to the time of the war, advertising was directed to the men; it was soon learned that better results came from directing advertising to the women. This started in the magazines that women read, then spread to the daily and weekly newspapers and finally to radio and television. My own feeling is that this trend is well under way and will continue to grow for some years to come. I have great faith in the power of advertising, especially newspaper advertising.

**The Negro Explosion**  
Now we can discuss a real explosion — as witness today what the Negroes are doing in certain large cities. Comparatively speaking, there are no more Negroes today in proportion to the entire population than there ever have been. The explosion which we are hearing so much about today is due to the following facts:

Men are no longer needed for digging in roadbuilding work, or even in building construction. Picks and shovels have practically gone out of business. The machine age in general, rather than automation, is responsible for most of the unemployment amongst the Negroes and unskilled and poorly educated Whites. Work on roads, water and sewage systems, and other municipal improvements — as well as farm work — that was formerly done by common labor is now done by machinery.

**What Is The Answer?**  
The negro problem will not be solved by mob demonstrations. No community can give the Negroes the jobs for which so many of them are presently fitted. It will take time to train them to

## Moonlight Cruise Enjoyed Under Ideal Weather

Beautiful Lake Maxinkuckee lay like a shimmering jewel Saturday and Sunday nights with its shoreline festively lighted with myriad colored lights while overhead a brilliant full moon bathed the waters in silver and formed a very romantic and ideal setting for the 21st annual Moonlight Serenade.

Fifty-five selected members of the Culver Summer Naval School Band, which totals 100 musicians, boarded the Academy's three-masted sailing vessel, "The O. W. Fowler," at The Culver Inn pier each weekend evening about 8:30 o'clock and, under the baton of Colonel Edward T. Payson, director of the Band and originator of Serenade, set sail for the west side rendition Saturday evening and the east side performance Sunday evening.

Those who have seen this fairyland spectacle and enjoyed the wonderful music offered by these young musicians during the past year it is an unforgettable experience. One of the highlights of the Lake Maxinkuckee summer calendar of events, this pleasing musical cruise continues to grow in popularity and fame.

## Sheriff Greenlee Will Address Culver Lions

**SHERIFF JERRY GREENLEE**  
Jerry Greenlee, Marshall County Sheriff, will be the guest speaker at the Culver Lions Club picnic, which will be held Wednesday evening, Aug. 14, at 6:30 p.m. at the west pavilion in the Culver Town Park.

Sheriff Greenlee will discuss delinquency problems and some of the new traffic laws, which were passed by the last General Assembly. Culver Chief of Police Don Mikesell is program chairman for the evening. Lions are urged to attend.

fill jobs that are now held mainly by Whites.

The problem will not be solved either by speeches such as that which Walter W. Heller, Chairman of the President's economic advisers, gave in Kansas City recently. He told his audience that he believes every family having a cash income of less than \$3,000 a year should be classified in the "poverty" group. This would amount to around 30 per cent of the country's families. It seems to me that it should be frankly recognized that the "pick and shovel era" is long since over and that we are in a new era of super machines... which these young people could be taught to operate, but this means increased taxation for municipal and state improvements. For a while, the government may be compelled to supplement the family income of these people to get them out of the "poverty class" which Mr. Heller is talking about. But I believe education and training may be the real answer. Perhaps inflation may help to solve the matter, but it is possible that those of us who now have jobs may need to be taxed to help those who cannot find jobs.

## Loss Of State Aid Raises Tax Levies

With the budget work completed by the Board of School Trustees, the Culver Community Schools Corporation will have a total levy payable in 1964 of \$2.77 on each \$100 of assessed valuation. The levies for individual funds will be: Tuition Fund, \$1.79; Special School Fund, 96¢; and Bond Fund, 2¢.

Work on preparation of the budget was complicated by the fact that the State Support Program for schools will be much lower than the appropriations provided for State Support by the 1963 legislature. Local school officials have been informed that drastic reductions in the State's share of the costs will have to be made because of the loss of revenues by the elimination of the sales tax. To illustrate the effect of these reductions in State Support to the local schools, school officials have been informed that a deduction of \$94 per pupil in Average Daily Attendance will be made from the State's legal share of local school costs for Tuition purposes. This means that this reduction of the State's share for Tuition Aid for approximately 1,200 pupils of Culver Community Schools in 1964 will total more than \$112,000. For Transportation Aid the added reduction of State Support by \$19 per pupil transported will deduct from this type of help from the State an additional \$15,500. These added amounts for which the local schools would have been eligible under the program established by the 1963 legislature will now be deducted by the State because of inadequate revenue to meet the State's share of local school costs.

The losses of State Aid as set forth above will have to be made up by increase of local levies. To cover the State's anticipated de-

**DUPLICATE CLUB WINNERS AT THE CULVER INN**

The Culver Inn Duplicate Club announces the following July 31 winners:

North-South: 1st - Col. W. G. Johnston, Culver, and Mrs. Don O'Neill, Logansport. 2nd - W. R. Shideler and Elizabeth Shideler, Hammond.

East-West: 1st - Mary Loser and Gladys Buchanan, Logansport. 2nd - Mrs. Ruth Gollnick, Culver, and Mrs. Ed Flocken, New Albany.

**Tax Levies**

(Continued from Page 1)  
 faults in payments, the local Tuition levy had to be raised 74¢ and Special School levy by 10¢. If the State had been able to pay its full share of aid for these two funds, as provided by law, the proposed levy of \$1.79 in Tuition Fund would have been cut to \$1.05 and the levy for Special School would have been 86¢. This would have made a total school levy of \$1.93 with the addition of the 2¢ for Bond Fund. Thus the local tax levies for school purposes have had to be raised 84¢ to offset loss of revenue from the State Support Program.

If the program of State Support to local schools were to be paid in 1964 as provided by the legislature, the local school corporation would be eligible for a total in State Aid of \$176,000. With the penalties now to be made by the State, the total State Support to the Culver Community Schools for 1964 will be slightly over \$48,000, an amount of more than \$128,000 below that for which the corporation is eligible by the 1963 State School Support laws. This amount must be raised by increased local levies.

In addition to providing this analysis of the critical problem of loss of State Aid, Superintendent Frank McLane announced that because of recent resignations, three teachers still are to be found for local schools. Within the past ten days, Adam Waggoner, sixth grade teacher, has submitted his resignation in order to accept a teaching position in his home county. Late last week Richard Hambrick, Band and Vocal director, also asked to be excused from his contract for 1963-1964. An additional vacancy exists in the fifth grade at Culver at this time. It seems probable that the sixth grade departmental opening may be filled by employing a person qualified to handle this assignment as well

as that of assistant coach or junior high coach.

**ANNE OSBORN NAMED TO STANFORD HONORS LIST**

Anne Osborn, daughter of Mr. and Mrs. Ralph A. Osborn Jr. of Culver, was one of 458 students at Stanford University, Stanford, Calif., who were recently accorded "Undergraduate Honors" for high scholastic standings in their 1962-63 academic records.

The honors list includes those students who have maintained a grade-point ration of 3.5 or higher for the fall, winter, and spring quarters of the academic year. A ratio of 4.0 is equivalent to the grade of A, and 3.0 is a B.

**MARY STAPAN NAMED TO HONOR LIST**

Miss Mary A. Stapan of Culver, was named to the Honor List for the second semester of the 1962-63 school year at Indiana Central College.

Miss Stapan, daughter of Mr. and Mrs. Ella Stapan, Route 2, Culver, was graduated from West Township High School in 1961.

A student had to complete at least 12 semester hours of work with a grade average of B or better to qualify for the Honor List.

**MONTEREY GIRLS WIN HONORS AT COUNTY FAIR**

Miss Barbara Ann Brucker, daughter of Mr. and Mrs. Charles H. ## 4-H TRACTOR DRIVING CONTEST

Dates and places for 1963 district 4-H farm tractor driving contests have been selected, according to Charles A. Gosney, assistant in 4-H club work at Purdue University.

District contests will be preceded by county contests; two junior and two senior contestants from each of the 4-H districts in Indiana will be eligible to compete in the state finals at the Indiana State Fair, Thursday, Aug. 29.

Safe and skilled operation of tractors will be emphasized. Each contestant will be required to take a test on tractor maintenance practices learned at 4-H club meetings. Only 4-H tractor project members are eligible to enter the contest.

Since the program began in 1945, more than 46,000 Hoosier boys have participated in it. The program is designed to promote safety and the proper care of tractors and other farm machinery. In addition to the 4-H members, more than 1,200 men have been trained at the annual leaders' clinic at Purdue.

District contests have already been conducted in the Terre Haute and Lafayette districts.

By PEG CLYNE

A very busy weekend started off with a new name added to the list of Junior Fleet race winners. Howard Ray was first, Steve Speer was second and Tac Welsh came in third. It was a good race, with every Sailfish skipper putting up a fight for first place.

There was a make-up race Saturday afternoon and nine C's lined up for the first race at 1 p.m. Jerome Zechiel got the victor's gun salute at 2:05 p.m. just 15 seconds before Tom Heckel crossed the line, and Pete Trone was third. The skippers had only a few minutes to relax before sailing to home buoy for the start of the second race at 3 p.m. There was a nice 10 mile North-west wind and two more boats joined the contest. Tom Heckel made this the fastest race so far this year by skimming over the finish line at 3:49 p.m. Jerome Zechiel was second, and Rupert Esser was third.

The Judges, Commodore Norman Bateson and Joseph Clyne kindly invited their wives to accompany them on the Judge's pontoon for the Moonlight Regatta. It was not a sentimental journey as far as the racing was concerned but it proved to be a surprisingly delightful experience. The moon was never brighter and each boat had it's own glittering path as it sailed on the South and East side so as not to conflict with the Moonlight Serenade. The lake wore a necklace of vari-colored lights, lavallered with the lovely decorations on the West shore. As the Judge's boat anchored at the buoys, the westerly breeze carried the music across the water from the fairytale scene centered by the Fowler. There were eighteen silvery sails gliding around the race course and the lead changed several times between the two first boats. Ken Bateson (T-25) managed to lead Tad Lauderback by less than a boat's length at the finish. We think the ethereal atmosphere got to some of the skippers because they never did finish the race! There were seven Academy boats in the race and T-3 won the "E" race.

Twenty-one "C's" and 3 "E's" battled the 13 m.p.h. Nor'wester Sunday afternoon. Tom Heckel (T-17) skillfully led the rest all the way and crossed the line six minutes ahead of Tom Sams (T-40) who was second and only a few feet ahead of Joyce Speer (T-2).

Next week will also be a busy weekend with the Invitational Regatta holding races Saturday at 10 a.m. and 2 p.m. followed by a cocktail party on Hollowell's lawn. Mr. and Mrs. Don Speer, Mr. and Mrs. Tad Lauderback, and Mr. and Mrs. Tom Heckel will be hosts and hostesses for this event.

The final race of the Regatta will be held at 10 a.m. Sunday morning, with a box lunch Trophy Award meeting afterwards.

Laura Gunder, MYC secretary teresting trophy, the winner of has informed us about a very in-which will be decided this week-end. About 22 or 23 years ago, before the Second World War, Cedar Lake skippers attended an Invitational Regatta on Lake Maxinkuckee and won the very beautiful trophy. Now Cedar Lake has decided to put the trophy in circulation again, by pitting the top skippers of the two Yacht Clubs against each other in points won during the season. Good luck, MYC.

## LOCAL STUDENTS PARTICIPATE IN "DAY ON CAMPUS"

More than 2,800 students who will enter Purdue University for the first time in September participated in the annual "Day on Campus" program June 24 through July 19.

Culver students who participated in the "Day on Campus" program were Cheryl Kay Dillon, Route 2; Carolee Easterday, 306 North Ohio St.; Bonnie Kathleen Good, Route 2; Betty Jean Lawrence, 515 Academy Road; George Robinson Ogden, Route 1; and Linda Kay Behmer, Route 4, Plymouth.

Under this program, the new student comes to the campus for one day and the preliminary enrollment steps are completed. These include working out a class schedule, conferences with advisors, getting required health clearance, having a passport picture taken, and, if they have not been completed earlier, taking placement tests. Many parents of new students accompany the students to the campus and attend special meetings.

The remainder of the enrollment process is completed by the registrar's office. Fees are paid by mail and class schedules are sent to the student.

Students who do not take advantage of the advanced enrollment are required to report to campus for delayed enrollment which begins Wednesday, Sept. 4, and continues through Sept. 6.

All new students return to campus for orientation, which begins at 4 p.m. Sunday, Sept. 8, in the Edward C. Elliott Hall of Music. Parents of new students are invited to a special program at 2 p.m. the same day. Classes for all University students begin on Sept. 11.

### MRS. ANNA LARKIN LEAVES TO MAKE HOME IN OHIO

Mrs. Anna Larkin, well-known Culver resident who lived at 303 South Main Street, left Saturday evening, following the recent sale of her home and the Saturday sale of her household furnishings, to make her home with her son, Norris Zechiel, and Mrs. Zechiel at 1135 Fairview Place, Alliance, Ohio.

Mrs. Larkin was born 91 years ago in the home on the east side of Lake Maxinkuckee where her nephew, Dr. E. B. Norris now resides. The Larkins have lived in Culver for many years where Mr. Larkin died July 6, 1960.

Mrs. Mildred Ditmire entertained in her home Wednesday evening honoring Mrs. Larkin. Guests enjoying the evening with them were Mrs. Fannie Biddle, and the Misses Clara, Edna, and Osie Stahl.

## Hospital Notes

Christine Hand, daughter of Mr. and Mrs. Don Hand, entered Parkview Hospital in Plymouth Tuesday afternoon where she underwent minor surgery.

Warren Bair, son of Mr. and Mrs. Clarence Bair, underwent a tonsillectomy Thursday at Parkview Hospital in Plymouth. He is getting along very satisfactorily.

Don Hand, well-known Culver resident living at 426 State Street, is progressing satisfactorily in Room 208 at Plymouth's Parkview Hospital following his admittance there on Tuesday, July 30. Mr. Hand's illness, diagnosed as a heart attack, culmin-

ated over a period of several days. Mr. Hand is able to enjoy limited visiting from his friends and neighbors.

### WATER SAFETY

Before you respond to the "call of the sea," be sure you know the basic rules of water safety, advises Dick Willsey, safety specialist at Purdue University.

Boating attracts more people each year, and crowded waters, neophyte skippers and overly adventurous souls all contribute to a growing accident problem.

Mastering the water is the first safety step. Be able to swim and take care of yourself in the water. Laws require life preservers for each person aboard a boat — whether they can swim or not. See that the ones you use are a Coast Guard approved type, preferably orange for better visibility. Small children should keep life vests or jackets on at all times.

Learn the rules of good seamanship, Willsey advises. This means knowing the right-of-way rules and when to keep clear; knowing the waters you use and the meanings of all buoys, running lights and markers.

Keep your boat seaworthy. Repair all leaks and minor damages before they become serious. Find out what equipment the law requires you to carry for your class of boat. Make sure it is properly located and working.

A good pilot knows how to handle his boat. He never lets fun interfere with his skill, courtesy or common sense. Basic piloting techniques and rules of courtesy involve watching your wake, avoiding sharp turns at high speed, and reducing the speed of power driven boats when passing bathing beaches, canoes or other small boats.

You can place a Card of Thanks in The Citizen for only \$1.25.

Editor, CITIZEN:

In a recent issue of your paper, I noticed an article indicating that visitors to Culver judge it largely by people they meet, and wondering what Culver citizens can do to make the community more attractive to visitors and newcomers.

We have been coming to Culver for a number of summers, and we feel that the atmosphere that is created by Culver people is magnificent.

Churches, various merchants, our neighbors, the Academy, and Lions Club, all have made us feel very welcome.

We certainly appreciate the wonderful work that Norm Baker, and the other men who help with baseball, do in encouraging and helping boys with this fine sport.

We appreciate very much the atmosphere of welcome and enjoyment from all Culver people and institutions.

THE CHURCH FOR ALL...  
 ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

**FROM FARM TO OVEN**—Last year marketing of livestock and livestock products brought Hoosier farmers revenue totaling \$715,373,000. Virtually 100 per cent of Indiana-grown livestock moved to the state's three major markets — Evansville, Indianapolis and Muncie by truck. And, it's a 3-to-1 bet the same cargoes left these markets to cities throughout the country by truck.

The U. S. Census Bureau reports there were 2.4 million telephone sets manufactured during the first quarter of 1963.

**HOME GROWN** — When a certain Randolph County woman wants an orchid to wear to a social event, she doesn't have to go to a florist and shell out from \$5 to \$12 for one of the luxurious flowers. She can pick one right in her own home. She is Mrs. Mildred Johnston, wife of Harold Johnston, Route 2, Winchester. Growing orchids at home is a hobby of her husband who is traffic manager at a glass manufacturing plant. At latest count Johnston had 12 orchid plants which he tends with loving care. Johnston says one of the biggest chores is giving the plants a weekly bath. Once a week the plants must be soaked repeatedly with water he told a reporter for The Lynn Herald who interviewed him on his hobby.

Farmers and other self-employed persons can participate in a retirement plan authorized by a 1962 Federal tax law, points out R. N. Weigle, Purdue University agricultural economist. This law is effective for taxable years beginning after 1962, but final regulations have not yet been announced by the Internal Revenue Service.

Weigle explains that self-employed persons, including farmers, will be permitted to set aside part of their earned income — up to 10 per cent of net earnings, or \$2,500, whichever is smaller — into a retirement plan. Farmers are further limited to 30 per cent or less of their income in computing earnings.

Half of what the farmer contributes to a retirement program by the IRS will be deductible on taxes paid in 1963 and subsequent years. However, this is likely to amount to only \$125 to \$150 unless net farm income exceeds \$10,000, says Weigle.

Except for that part represented by non-deductible contributions to the plan, most payments from the retirement fund are taxed to the individual when received. This could work to the recipient's advantage since some of his income tax payments are deferred until he retires. Generally, after retirement the individual will be in a lower tax bracket than when he earned the income he put into the fund.

Farmers who elect to participate in the plan and who have one or more full-time employees with three or more years of service must also include these employees in the retirement program. In some cases employer contributions for employees would be sub-

stantial, while only minor benefits would accrue to the employer, says Weigle.

Funds contributed for retirement can be invested using a trust, a custodial account with a bank, or by direct investment in certain types of non-transferable annuities, face-amount certificates or a new series of Government bonds.

Weigle suggests that interested farmers consult with their lawyer, tax accountant, banker or insurance agent relative to participation in the retirement plan.

## Nylon Rifles Help Alaskan Fishermen Net Big Catches

There's a mist-shrouded fishing spot off Alaska where a very important piece of equipment is a sure-fire 22 rifle.

Keeping what you've caught is a tough problem for commercial fishermen off southeastern Alaska's rain-drenched shores. Before a net full of fish can be boated "you have to drive off anywhere from two to a dozen hunger-crazed sea lions and other marauders who find the netted fish ideal prey."

News of the unusual hazard to Alaskan fishing operations came recently to Dr. Joseph Linduska, wildlife management administrator for Remington Arms Co., Inc. The company makes neither the boats nor the nets used by Alaska's hardy fishermen, but they do manufacture a line of unusually rugged 22 caliber rim fire rifles fishermen find ideal for defense of their catches. The sea-going rifles, which are made of tough, durable "gun-maker's nylon", are so strong they're guaranteed never to warp, crack, chip, fade or peel, and are the same guns used by land-based sportsmen, shooters, hunters and plinkers... all of whom would be puzzled to hear their rifles being called "boat

guns."

An Alaskan trading post where fishermen buy these remarkable Remington 22 rifles describes their use as follows:

Commercial fishing crews operating off southeastern Alaska are constantly bothered by sea lions and other predators getting into their nets. Striking at the school of fish as the seines are worked, they feed voraciously on the fish, thrash about wildly, tearing the nets and causing much of the valuable catch to be lost.

They can't be driven off by any means but shooting... and when the crew first spots a sea lion near the net, that's when the rifles come into play. Grabbing their guns, the fishermen shoot rapidly hoping to save both the net and the catch.

Then, with the catch still to be boated, there's real work ahead. Empty rifles are tossed into the bottom of the boat while all hands heave to the job of hauling the net and getting the fish safely boated.

Rifles that 'go down to the sea in ships' get rough treatment. Salt water, fish slime, 'bilgewater, cold and mud' are normal conditions on a fishing vessel. It's not uncommon for ordinary rifles to become broken up and completely inoperative in 1-2 weeks of this abusiveness. But not Nylon rifles: they are completely unaffected by the torturous treatment.

Linduska, speaking for the manufacturer of the unusually rugged rifles, says:

"We're happy to learn that Remington Nylon rifles are helping so many Alaskan fishermen 'bring home the salmon.' To our knowledge, it's the first time 22 rifles have ever been used to catch fish.

The one-piece Nylon stock of the "fishing firearms" was developed by Remington engineers to improve the accuracy and overall reliability of the popular 22 rifle, and is made of Du Pont "ZYTEL" nylon. This man-made material is so tough and strong that Remington guarantees it will never warp, crack, chip, fade or peel for the life of the rifle, or they will replace the stock free."

To date, after years of use and abuse in the frozen salt-spray atmosphere of Alaskan fishing boats, no gun-functioning troubles or warped stocks have been reported... and fishermen are still using their "boat guns" to make sure they haul in every fish in the net, now that they're "seal proofed" by guns that don't mind getting wet.

### CULVER STUDENTS PASS BAND TESTS

Ten students passed the Culver High School Senior Band test recently. It consisted of two parts: Playing and a 50-word quiz on musical terms. Those students passing the test are Patty Overmyer, Joyce Odie, Robert Shirrell, Cathy Welsh, Cheryl Zink, Brenda McAllister, Linda McAllister, Sherry Lake, Tom Babcock, and Dave Kelly. One student is still working on the test.

We welcome these fine students and wish them all the musical success they can obtain from their experiences in the Senior Band.

Senior Band officers have been meeting with Mr. Hambrook this past Summer getting details organized with the fall opening of school. Sue Cole is president of the band; Kay Thomas is vice-president; and Sharon Norris is secretary-treasurer. The representative council consists of four students — one representing each high school grade. They are 12 - Ned Davis; 11 - Dick Mackey; 10 - Ron Babcock; and 9 - Tom Babcock.

**AID TO LAWYERS** — A newspaper delivery truck operator, Millard Scudder of Dillsboro, who makes early morning deliveries in Dearborn and Ripley Counties for The Cincinnati Enquirer, has proved a valuable ally to law enforcement officers. Scudder makes his deliveries in the early morning hours when burglars are often plying their trade. He recently alerted officers to two burglaries, both in the same morning, at Sunman and Milan.

## Indians Lose Only One Game During Season

By EARL MISHLER

The LaPaz Vikings ruined Culver's undefeated season last Thursday evening in Plymouth, defeating the Indians, 6-3, for the County Playoff title. Culver finished the summer season with a 17-1 mark, plus four forfeit victories, and are officially recognized as County champions for the second straight summer.

Although his fielding support was nothing to brag about, righthander Sam Lowry was hit relatively hard for the first time this season. Three of the six LaPaz runs were earned, and the winners rapped nine hits off the senior star, who winds up with a 9-1 mark.

Singles by Sam and Andy Lowry and Jim Lewis plus a long double by Paul Liette, all before the first out of the first inning, gave the Tribe a 3-0 lead. But Junior righthander Dan Harbaugh allowed only three more singles the rest of the game.

Hits by Ed Clifton and Dennis Redman tallied the first run for LaPaz in the second, Jim Holland and Jim Manning duplicated this feat in the third, and the Vikes tied it in the fourth on a hit by Clifton, an error, and a double steal.

Lowry's only walk, and his seventh free pass of the year, set up the winning rally in the sixth. Clifton's third hit, Redman's two-run single, and a squeeze bunt tallied three runs for the winners.

Culver tried desperately to pull the game out in the seventh, as Bob Carter and Liette singled. But a tired Sam Lowry forced Carter at third to end the dreams of a perfect season.

Despite this heart-breaking defeat, Coach Gene Crosley and his boys can be very proud of a great

season. Local fans have been treated to better and more exciting baseball this summer than perhaps ever before.

Statistically, Crosley's bombers hit .335 as a team, blasted an amazing six home runs, averaging almost nine runs and over ten hits per game. Their pitching staff compiled a 1.87 earned run average, with 17 complete games in 18 starts. Defensively, they committed only 32 errors in 18 games, an amazingly low total for high school.

Individually, Sam Lowry hit .462 to lead his mates at the plate. Brother Andy had a fine .403 mark in his sophomore year. Other averages: Paul Liette .379, Dave Lemar .344, Bob Carter .327, Paul White .308, Al Hyland .300, Jim Boswell .296, Jim Lewis .266, Bruce Lindvall .214 and Jim Weirick .150. Paul Saff and Dick Knoerzer were hitless.

Lowry's ERA was a fabulous 1.16 for 67 innings of pitching. He allowed only 46 hits and seven walks, while striking out 75 batters. Paul Liette compiled a 2.65 ERA, winning five, and Jim Lewis was 3-0 with 2.87.
