The new Culver - Union Twp., Ambulance will probably be delivered this week.

ambulance garage on the side of the Town Hall is being built by volunteers.

City Clerk, Marizetta Kenney, is viewing the ground breaking.

Town Board Hears Complaints On Hydrant

Culver - The Board of Trustees of the Town of Culver, met in regular session with the following members present, Dan Adams, Jean Williams, David Baker. Also present were the Clerk Treasurer, other Town Employees and interested citizens.

Tom Brettaway from the Indiana Association of Cities and Towns was present to explain what membership in that association provided and how it could be useful for cities and towns. He said the organization was non-profit, created for the purpose of disseminating information and for representation of towns and cities; that the board of Directors consisted of elected officials, and that these persons determined the association's budget and dues.

He said the services were: to lobby on the state level on behalf of cities and towns, and to bring about changes in legislation where needed; the association published several bulletins and information booklets, such as the legislative bulletin, the newsletter of what is happening in towns in Indiana, budget bulletin, municipal liability, sample jobs and salaries in Indiana, powers and duties of elected officials and so on.

The Association also provides, upon request, free of charge, technical assistance on any municipal related question. The association sponsors training sessions and meetings, a convention and workshop. The Board wanted to look over the material he provided and consider whether or not dues should be put in the 1980 budget.

The Clerk gave the second reading of the rezoning ordinance. Tom Sell showed plans for the apartment buildings and Jim Locker explained the site plan. Adams opened the meeting to public hearing. There were a couple of questions on who might be in the apartments and how these persons would be chosen, and as there were no further questions and no remonstrances, Adams moved the ordinance be passed on second reading. The motion was seconded by Mrs. Williams and passed 3 - 0. Adams moved the rules be suspended and the third reading be given by title only; motion was seconded by Mrs. Williams and passed 3 - 0. The Clerk gave the third reading by title only. Adams

moved the ordinance be passed on third reading, seconded by Mrs. Williams and passed 3 - 0.

Mrs. Donovan asked if more no-parking signs could be put on Davis Street as they only go as far as Neuva Gorda, and she was told this would be done.

Part of the merchants from the business district on Lake Shore Drive were present to object to the placement of the new streamer hydrant across from their places of business, claiming that the placement of the hydrant took away six parking spaces and was ruining their businesses.

The gist of the discussion, which degenerated rapidly into a verbal free-for-all seemed to be that the merchants wanted the hydrant moved, removed, or equivalent parking space provided; that they would prefer to take their chances with possible fires than to lose business by the loss of the alleged six spaces; and that no other parking space was available unless railroad land was utilized. There seemed to be an impression that the city could grant them the permission to park their vehicles on the railroad land, but it was pointed out that this was not the case.

Adams explained that the original idea of the placement of the hydrant had been for the extra protection of the merchants in that end of town; Donovan Overmyer and Bob Napier explained that the placement had been chosen because it was close to halfway between the hydrant on the corner of Lake Shore Drive and Liberty, and the one by the fire station; and that this hydrant would assist greatly should there be a fire at the Camelot station. The cost of moving the hydrant would be approximately \$800. It was finally moved by Adams that the meeting take a ten minute break and that as many as possible should go to the site to view the present placement of the hydrant and possible relocation. Mrs. Williams seconded the motion which passed 3 - 0. Nearly everyone left immediately to view the hydrant, and returned in approximately 15 minutes. The various alternatives were then summarized: leave the hydrant where it is; move the hydrant across the driveway eastward; cap it off for now and locate it elsewhere later; remove it entirely. Mrs. Robert May

seemed to be the only merchant in favor of relocating it. The Board members pointed out earnestly and in vain that removal of the hydrant, even for a short time, was leaving the area less well protected than it should be. After considerably more discussion, Adams moved to remove the hydrant and cap it off, then later perhaps relocate it elsewhere. Mrs. Williams seconded the motion. Motion passed 3 - 0.

The Clerk reported that approval for the ambulance garage had been received from the Administrative Building Council.

The Clerk said an offer had been received to buy the old street garage property and the buyer would take down the tower and the building. However, state law mandated that the property be put up for bid. David Baker moved the property be advertised for bids, seconded by Mrs. Williams and passed 3 - 0.

John Elliott and Alvin Triplet were present, having just met with John Middleton, and explained to the Board minor changes in the plans for the ambulance garage; these changes would strengthen the structure and make it easier to erect. Triplet asked about insurance coverage for volunteer workers, and the Clerk said she would check with the insurance company. It was determined to have the bills sent to the Clerk's Office for approval before sending them to the bank for payment, and that Triplet or Elliott would approve the bills so the Clerk knew the materials had been received.

A request from Mrs. Norman Kelly had been received, asking permission to close off Main Street between Jefferson and Washington, on July 28, 1979, from 1 p.m. until approximately 4:30 p.m. The weekend would feature sidewalk days and Mrs. Kelly wanted a program to be put on in the area. The Marshal had no objection and the Board approved.

Everyone in the area is reminded to get their card punched each week to be eligible to win the bankroll.

Local Couple Builds Sailboat

Culver - The Dales picked up a 21 Foot Luger South Wind made by Luger Industries in Minneapolis Minn. about August 1st of last year and trailed it home where Harry built it in the front yard.

It was a molded fiberglass hull and super structure, aluminum and stainless steel fittings and Dacron lines and sails.

It will sleep 4 snugly. Construction time was approximately 240 man hours. Construction required

cutting and installing windows and hatches, bonding super-structure to hull, installing all deck hardware, fabricating mast and boom from extruded aluminum stock, fabricating rudder and tiller from oak, installing running and mast head lights, installing V berth and bunks from plywood and installing a 400 pound swing keel and wench assembly.

The upholstery portion of the interior is not completed at this time. Harry's reason for building it was to con-

serve energy (no gas required) plus money (cost approx. 1/2 the cost of a factory built finished boat). More than that it was the challenge and the feeling of accomplishment of building your own boat. When it is completed it will be christened the Rose Bud.

Anyone interested in seeing the Rose Bud or any one that has any questions about it contact Harry, if he's not out on the water sailing you can reach him at 303 State Street.

RIVER REVERIE

I watched the river bear away my thoughts,
On a soft-moccasined summer eve.

Dreams of past remembered times,
Went floating down the stream.

Sounds came to me.
A game of horseshoes ringing in the air,
And fish flip-flopping,
Adding to the memories of long ago.

How many thoughts - how many dreams of others
Have been caught in the undertow
And carried to oblivion?
Will the river remember?
Or will it drown the dreams of young and old.
Will it reveal to future

dreamers its remembrances.
Or will they be absorbed in a fire's glow?
Embers of a dying campfire on its shore,
May hold captive these memories forever
And like the fire beside the river,
The memories and ghosts remain no more.
On this serene soft-moccasined summer eve,
I hope the river will remember.

CULVER PUBLIC LIBRARY NEWS

by Mary Ann Broeker

The reading club members grades 1 through 8 and their parents are invited by the Culver Military Academy to go on the CSNA Admiral Harry E. Yarnell or the O. W. Fowler-Square Rigger, Thursday, July 19 at 3:30 p.m. This excursion will last around an hour and a half. We are to meet at the Academy's Chapel parking area. Pre-registration is required. Call the Library or register in person. If your parents can come they are welcome to join in on the fun.

Here is some background information on the two ships. The CSNA Admiral Harry E. Yarnell is a scaled down navy destroyer. The flagship of the Culver Summer Naval School Fleet was designed by Radm J. W. Bays, who was Director of Summer Schools. She was constructed in the Culver Military Academy Boat Shops under the direction of Lt. W.C. Craft. Construction was begun 1 November 1957 and completed in June of 1958. She was launched and commissioned on the Fourth of July 1958.

The square rigged ship O. W. Fowler is a reminder of those years when American Clipper ships dominated world trade. This ship is the largest square rigged ship now sailing in inland waters in the world. She was designed by Wilfred (Bud) Craft and Col. George L. Miller. She was built in the Culver Military Academy Boat Shops under the direction of Mr. Craft in the winter of 1940-41. She was launched in May of 1941.

Story hour will be in full swing this month. On Tuesdays, Mrs. Melissa Miller and Mrs. Phyllis Helber will be working with the 6 - 9 year olds from 11 to noon. PUBLISHER'S 'PINION

by Dave Tranter

For the past several years, your hometown newspaper has been encouraging everyone to patronize the local stores by shopping at home. We have mentioned the fact that your money circulating in the local community creates jobs, supports local projects, keeps goods and services at your fingertips, as well as insuring the future of the community in almost every form.

The recent rise in gasoline prices adds another good reason to shop at home. If you travel approx. 30 miles to the nearest large metropolitan area - you should keep in mind the cost of gasoline and misc. car expense will be about \$6.00 per round trip. This would be in comparison with the 50¢ you would spend on gasoline by purchasing the same products locally.

Thus, the many benefits of shopping at home are increasing.

The cool mornings and warm afternoons are creating clothing problems to many local citizens. If a jacket is worn in the morning, it will not be used in the afternoon. Because it is so warm late in the day, many local residents

forget their jackets when they leave their employment. When the next morning arrives - the jacket is not available since it was left behind the night before. A helpful suggestion is to move the jacket when you park your car.

The various local community Chambers of Commerce are busy organizing Sidewalk Days promotions with the local retailers. These are perfect opportunities for you to obtain big savings at local businesses. Watch this newspaper for the dates of Sidewalk Days. Plan now to attend.

U.M.W. PLAN AUGUST RUMMAGE SALE

by Louisa Davis

Argos - The Argos United Methodist Women met at the home of Mary Drapalik for breakfast at 9:30 a.m. on July 5. The hostess, aided by Elizabeth Stephenson, served fruit compote from melon halves along with fancy breads and coffee. It was delicious and most attractive.

Virginia Redinger, vice president, was in charge of the meeting which followed. Bernice Masterman gave devotions. Ruth Gordon reported on an article from the June, 1979, "Response" on the Open Door Community House in Columbus, Ga. They have a family service program to treat child abuse and neglect and to help the parents understand their own problems and thus

become better parents. Open Door also provides other services. The next rummage sale will be August 25. The program on "So Many Hungry People" was given by Helen Hess. She used as scripture John 6:48 "I am the bread of life." Matt. 25:35-40 and James 2:14-17. She quoted Ghandi who said, "There are so many hungry people that God cannot appear to them except in the

form of bread." She told of some problems. In Brazil, in spite of a boom for many, there are 16,000,000 very poor hungry children. Lester Brown was quoted as saying that population growth could cause acute hunger. Space needed for food production is being taken for other things, deserts are expanding and increases in land productivity are leveling off. She gave a number of examples of the way American agriculture

and agribusiness is supplying increasing amounts of food.

CHURCH HOMECOMING TO BE HELD

Culver - The Union Church of the Brethren will hold its Homecoming Day on Sunday, July 15. There will be a carry in dinner at noon and the afternoon speaker will be Emery Kintner.

CONTESTS ENJOYED BY ARGOS SENIOR CITIZENS

by Barbara Hann

Argos - Sharon Mevis is always trying some things different to keep the Argos seniors on their toes or keep their minds alert. So Monday, July 2 was one of those days. After saying, "Hi" to everyone and asking for local news, a trip for Marshall County seniors was announced. This is a trip to Dunkirk Glass Company, where there will be a tour through the plant. Some other side trips are being planned. July 27 the trip will be made in chartered buses. Betty Copeland of Plymouth has charge of that trip, anyone interested in going should call her for reservations.

Then Sharon produced several jars of "white stuff" in a contest furnished by Judy Siple. The jars were passed around and each one was allowed to inspect them and write what the jar contained. One was a clear liquid, and after no one could guess that one, it was told it contained snow, of course the heat melted it.

The second contest was T.V. shows. Sharon gave the clue and the show was to be identified by it. Some were easy, some quite old were hard to guess. Prizes were given for the most correct answers and even one prize for a booby prize.

Sharon had the noontime prayer and then on to the dining room for the meal. The Walnut Ruralettes, Kathryn Thompson and Elenor Justus, set the tables. Evelyn Funk helped serve the meal. The door prizes were also furnished by Elenor Justus.

The Blood Pressure Clinic was well attended, as it is each month. Thanks to the nurses who keep it going.

July 9 menu will be served by the Whip-poor-wills, and will be V8 juice, sauerkraut and sausage, mashed potatoes, plums, rye bread, milk, tea or coffee.

The program is unknown at the present time.

Collins And Friends Coming To Argos

Argos - These dummies are smart! "Except for the big one," quips one of the smaller ones. At any rate they all talk. Gary Collins operates and speaks for all three even through the wooden ones. Redd Wood and Sydd Sycamore, don't want to admit it.

Since that day Gary Collins has not only become a ventriloquist but has won the Paul Statler trophy for Excellent in ventriloquism, during the five night series of meetings at First Baptist Church, located on St. Rd. 10 west of Argos, on July 22 to 26 at 7:30 p.m. You will not only see Redd and Sydd but also Patrick Pine who is brought to life by Gary's wife, Wendy.

"This program," Pastor Oviatt says, "has magic and ventriloquism and appeals to the whole family. Grandparents as well as children enjoy Collins with the Great Gospel Message."

FISHIN' TIPS

from ...Tom Mann

It occurs to me that a heap of fishermen are passing up a heap of good fishing by going only for the glaucous sport fish, and not paying more attention to the lesser lights. I'm speaking about bluegills, catfish, and carp.

Now you take that sporty little bluegill, or brim as it is called in my country. There just is no finer flavored fish around. My favorite way to catch a hatch is to bury a longshank No. 8 Aberdeen hook in the seat of a cricket, and let it sink naturally. Boy, do they go for it!

And catching catfish is as easy as finding a deep hole, preferably where water is moving, and baiting with a No. 1/0 Eagle Claw hook with a hunk of fresh chicken liver. The bloodier the better.

NOTICE TO BIDDERS

Sealed bids for a New Electrical Service for Culver Community High School will be received by the Board of School Trustees of the Culver Community Schools Corporation at 222 North Ohio Street, Culver, Indiana 46511, on or before 4:00 P.M., E.S.T., August 6, 1979. All bids will be opened and read aloud at the regular board meeting, August 6, 1979, at 8:00 P.M. at the Monterey School, Monterey, Indiana. Any bid received after the designated time will be returned unopened.

All work shall be constructed in full accordance with this Notice and Drawings and Specifications, including Addenda as prepared by Richard P. Miller, Architects, 51585 Winding Waters Lane North, Elkhart, IN 46514.

All bids shall be properly and completely executed on Form 96, General Bid for Public Buildings, as prescribed by the State Board of Accounts of Indiana. The Non-collusion Affidavit shall be properly executed.

All bids shall be accompanied by Form 96-A, Standard Questionnaire and Financial Statement for Bidders, prescribed by the State Board of Accounts of Indiana, completely filled out.

Each bid shall also be accompanied by an acceptable bid bond, certified or bank officer's check, made payable to the Culver Community Schools Corporation for an amount of not less than five percent (5 percent) of the bid amount for which said bid security shall be forfeited for liquidated damages in case of failure of the successful bidder to enter into a contract and furnish a satisfactory Performance Bond and Labor and Material Payment Bond in an amount equal to the contract price within ten (10) days after notification of the acceptance of his proposal.

No Bidder may withdraw his bid for a period of thirty (30) days after the date set for the opening thereof.

Each Contractor shall pay not less than the scale of wages as approved pursuant to Chapter 319 of the Acts of the General Assembly of Indiana of 1935.

Each successful bidder shall furnish the Culver Community Schools Corporation a contract Performance Bond and Labor and Material Payment Bond for one hundred percent (100 percent) of the contract amount, satisfactory to the Culver Community Schools Corporation, conditioned upon the final completion of the time provided in the contract thereof.

The cost of the said bonds shall be paid by the Contractor, and they shall be delivered to the Culver Community Schools Corporation before entering upon the performance of the contract.

Bidders may obtain construction documents for the office of the Architects.

The Board of School Trustees of Culver Community Schools Corporation, Culver, Indiana, reserves the right to reject any and/or all bids and to waive any irregularities or irregularities in the bidding.

Phillip Mallory
School Board Secretary

Just keep casting this out until you see your line go tight, then just set the hook and hang on.

Now while carp aren't regarded as the best flavored fish by most people, no one can dispute their ability to put up a stiff battle. Make a doughball out of a hunk of fresh bread, flavor it with vanilla, mold a kidney-bean-size chunk of this around a No. 2 Eagle Claw hook, add a sinker, and let it sink on the bottom. A burly carp will find it.

BREX TOM'S CLOSING TIP: Watch bad weather signs, like black clouds building on the horizon. Head for shore when a wind starts to build. If caught miles from shore, throw out a low anchor, and ride it out. Don't dare a storm, it can do you in.
