Culver Boat Company Erects Large Display Building

Front view of the Culver Boat Company's large display room.
Front of building faces company's inner-drive.

The Culver Boat Company, 636 South Shore Drive, has just finished the construction of their large display room and office building. The new building, added to their complex of buildings, is an Armeo Steel Building measuring 40 by 120 feet. Erected on a heavy concrete slab, the building is located on the lakeside of the company's operations and adjacent to one of their large storage buildings.

The roof and sides are of sheeting steel, painted green. The front is of brick in which large plate glass windows have been set. The structural part of the building is of steel I-Beam construction.

The large display room, which is in the front of the building, facing the drive, measures 40 by 80 feet. There is room enough to display approximately 20 boats. The walls are of mahogany paneling. Display lighting with four continuous strings of fluorescent lights are attached to the white Starfoam ceiling.

At the back of the display room, the offices for the company are located, also storage closets and rest rooms. A large door opens from the display room into a large rigging room, which lies directly behind the office complex. The large door allows room for large boats to be moved in and out of the display room with ease. The rigging room can be entered from either the outside or from the large storage building adjacent to it.

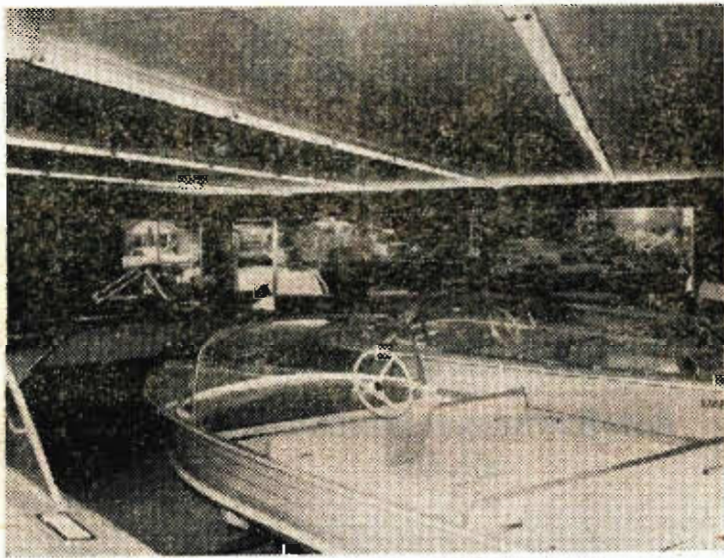

The Culver Boat Company is owned and operated by O. D. Campbell and his son, Jack Campbell. The Campbells came here in 1953 from Rome City, Ind. The new display building is the third major addition the firm has made since the Campbells acquired the property.

The Culver Boat Company are dealers for Chris-Craft, Century and Turbojet boats, Johnson Seahorse motors and all types of marine supplies. Service and storage are also included in their operations. Watch The Citizen for their opening announcement.

Culver Firemen Make Run Saturday Night

The Culver Fire Department was called to the home of John Bryan last Saturday night, July 25, about 9:45 p.m. A short in the electric stove resulted in damage to the stove and built-in cabinets. The fire did approximately \$250 worth of damage, which was covered by insurance.

1,260 Hamburgers Consumed At Lions Corn Roast

It was an ideal evening for the Culver Lions Club's 15th annual corn roast and hamburger fry, which was held last Saturday evening, July 25, in the Culver Town Park. Serving started at 5:15 and continued well past the 8 o'clock hour.

It was estimated by the corn roast chairman, Don Davis, that approximately 700 persons were served during the 2½ hour serving time. The guests consumed 1,260 hamburgers, 205 dozen roasting ears, and over 50 gallons of fried tea. Approximately 700 cups of ice cream were also served. Fifty Lions took part in the event, with each Lion having a certain part in the smooth running affair.

The proceeds from the corn roast will be used for the Little League baseball program and other civic programs that are a part of the Lions' year-round civic activities.

The Lions wish to express their appreciation to the public for the fine support of the corn roast. It is deeply appreciated. Don Davis, chairman of the project, extends his thanks to the Lions who helped with the project and all others who had any part in the success of the annual activity.

New Lemmon Film To Be Shown At El Rancho Theater

"Good Neighbor Sam," starring Jack Lemmon, Romy Schneider and Dorothy Provine, will be shown at the El Rancho Theater from Friday, July 31, through Tuesday, Aug. 4.

This new movie received the following review by Mae Tinee in last week's Chicago Tribune: "This movie is far-fetched, ridiculous and absolutely hilarious. It's Jack Lemmon at his best, and superior to any of his recent films. I found it funny from the very opening scenes to the wild and woolly ending."

"The story has been so well and brightly written, and has so many deft directorial touches that the results are one of the most consistently amusing films I've seen in ages. No one can look as completely silly as Mr. Lemmon when he wishes and he gives a top-notch performance with an excellent supporting cast."

"They all romp around in the hills and suburbs of San Francisco, which adds to the film's general attractiveness. I'll bet this guy and giddy offering will run all summer."

"Christmas In August" Bazaar To Be August 7

Tri Kappa Benefit At The Culver Inn

It's coming! CHRISTMAS IN AUGUST — down Santa Claus lane to The Culver Inn on Friday, August 7, from 10 a.m. to 4 p.m.

Two years ago, there was standing room only at 10 o'clock in the morning as Culver Tri Kappas greeted friends from near and far. These friends requested a repeat performance — Aug. 7, 1964.

Eye-catching posters all over Culver and adjacent communities have been attracting and herking citizens and visitors these long, hot July days. They have shivered in anticipation of seeing St. Nick in swim trunks. Foresighted shoppers have been Christmas-listing and prudently thinking of the short 129 shopping days until Christmas.

Early-bird customers will find artistic items for their friends that have everything. There will be beautiful and clever gifts for babies and children, including handmade nighties, dresses, aprons, sweaters, hats, and toys.

"International Fair" atmosphere will prevail as friendly customers greet charming salesladies in the air-conditioned lobby of the lovely old Inn. There'll be both gasping and grabbing when the sale opens at the Christmas tree ornament booth. Skillful Tri Kappa hands have fashioned works of art, lavishly trimmed in pearls, braid, velvet, and sequins. Christmas stockings, tree skirts, candies, wreaths, pins, and earrings will tempt the original and fastidious buyer.

Moving on, the shop-see-er will pause at what looks like an art show. Beautifully decorated note paper, tallies, and place cards will be for sale — many of these will make unique hostess and birthday gifts.

ELGIE G. GOOD

Elgie G. Good, laundry manager at Culver Military Academy, has been voted "Laundry Manager of the Year" by the Indiana Institutional Laundry Managers Association.

Good, the second man to receive the annual award from the Indiana group, is now in contention to win a similar award from the National Association of Institutional Laundry Managers at its 24th annual conference in New York starting August 27. He will attend the three-day meeting of the organization of which he has been a member since 1951.

He was selected for his award from among 35 institutional laundry managers in Indiana by a vote of the organization members. Good, an Academy employee for 19 years, was a charter member of the Indiana laundry managers in 1950.

Starting as a washman in 1935, he worked seven years in various capacities and then was appointed manager. During the last 15 years he has supervised the laundry while it has grown 50 per cent in the summer program and 35 per cent in the winter with a corresponding growth in efficiency and facilities.

His employees presently number 63 during the summer when the operation is 24 hours a day, six days a week and 28 persons during the academic year.

Good has attended the School of Laundry Management at the American Institute of Laundry, Joliet, Ill., various conferences and has visited several laundries to keep abreast of developments in the field.

He and his wife Margaret live on South Thorn Road. They have two daughters, Rochelle, who is in nurses training in Gary, and Bonnie who is a student at Purdue University.

Hiking is not only a reliable way to travel, it's an economical way to have fun; also, according to the Institute for Safer Living of the American Mutual Liability Insurance Company it's also a good way to get lost if you happen to be hiking off the beaten path. If lost in the woods, it's wise to remain where you are if there is a prospect of being discovered. Otherwise try to find a stream and follow it downward. It will usually lead you to other people who know where they are.

CERTAIN EVENTS CAN EFFECT SOCIAL SECURITY PAYMENTS

Mr. Charles E. Burke, district manager of the social security in South Bend, today reminded people receiving social security benefits that certain events may affect the payment of those benefits. When these events occur, they should be reported to the Social Security Administration.

The death of a beneficiary

should be reported promptly. Mr. Burke stated. He also mentioned that the marriage of a beneficiary, unless the beneficiary is receiving benefits as a retired worker, will usually stop payments. Divorce may affect the right to get benefits.

People who are receiving benefits on behalf of a child or an incapable older person, may have those rights altered if there has been a change in custody of the beneficiary.

The most common event that effects the right to receive payment is earnings from any type of work. If the beneficiary is under the age of 72 and expects to earn over \$1200 during the calendar year, some of his benefits for the year will be held back.

Mr. Burke stated that any of these events should be reported to the Social Security Administration promptly. He also urged all who have any questions regarding social security to get in touch with the local office at 335 N. Lafayette Blvd., telephone 233-7147.

How Much Do You Know About Fertilizing?

QUESTION: What are the best conditions under which to apply fertilizer in the fall?

ANSWER: The fertilizer should be applied only to areas which have little or no winter rainfall. It's best if soil is fairly heavy and the temperature of the soil has dropped to 50° or less. Under these conditions, none of the nitrogen and potash will get away.

QUESTION: Is it true that in certain cases there were increases in crop productivity due to fall fertilization?

ANSWER: Yes. In Iowa, experimental tests have shown that fertilizer spread and plowed-down in October actually yielded a few more bushels of corn per acre than the same amount of plant food disked-in in the spring.

QUESTION: Which fertilizer is best to use?

ANSWER: There are many types of fertilizers on the market, each designed to meet the particular needs of your crop,

soil, and farming area. One product, Ammo-Phos, has recently revolutionized the fertilizer industry, according to scientists at Olin Mathieson laboratories. Ammo-Phos is a high analysis, water soluble fertilizer in pellet form. It stores well, distributes easily and uniformly, and functions as both a superior starter and a source of plant foods all season long.

QUESTION: What's the main advantage in using a high analysis fertilizer such as Ammo-Phos?

ANSWER: Its chief advantage is that it contains more plant nutrients than ordinary fertilizer, thereby giving farmers higher yields with less work and lower transportation costs.

COMMODITY CREDIT CORP. HAS GRAIN BINS FOR SALE

The Commodity Credit Corporation, an Agency of the U. S. Department of Agriculture, is offering 20 surplus grain bins for sale by auction at West Point, Indiana, according to Lenard C. Pound, Chairman of the Indiana State ASC Committee. He indicated the sale would begin at 10:00 a.m. (EST) on Friday, July 31, 1964. It will be held at the U. S. Government grain storage site located at West Point on Indiana SR 25 in Tippecanoe County.

Mr. Pound stated that the structures have a 2,150 bushel capacity rating, are made of steel and have walk-in doors which should adapt them well for farm use. They were purchased by CCC in 1949. Fourteen of them have been dismantled and the remaining six will be sold erected. Anyone desiring to inspect the bins being offered should contact the Tippecanoe ASCS County Office, 2111 Teal Road, Lafayette, Indiana (telephone SH2-4491).

It was suggested that persons who desire additional information on this sale or future sales of surplus CCC bins should keep in touch with their local ASCS county office.

PRODUCTION RECORD

Brattleboro, Vt. — Lifetime milk and butterfat production achievements for 20 Registered Holstein cows in Indiana have been reported from official records of The Holstein-Friesian Association of America. This current information brings their lifetime output totals to more than 100,000 pounds of milk, since they reached two years of age.

Included in the Holstein report is Fobes Broadview Dictator Hazel 397702 (VG), 108,214 pounds milk and 4,532 pounds butterfat in 2,991 days on official test. She is owned by John A. Newman & Sons, Culver.

More than 18,500 Registered Holsteins have exceeded this food production milestone while enrolled in the official test breed

improvement programs of the Holstein Association. Still more have achieved similar goals in unofficial testing programs.

Production levels of this magnitude can be attributed to scientific advances in feeding and management practices coupled with the generation-to-generation genetic improvement and longevity of Registered Holsteins.

SAVINGS BONDS REPORT

Harold E. Rose, chairman of the Marshall County U.S. Savings Bonds Committee, has received a report revealing that the County's Savings Bonds Sales for June were \$44,439 compared with \$74,938 for the corresponding period of last year. The State's sales for June were \$10,015,582 which is a loss of 6.1 per cent compared with last June.

Twenty-five of the State's 92 counties reported sales gains for the month when compared with sales of June 1964.

IF OVER 65 YOU MAY BE ELIGIBLE FOR SOCIAL SECURITY BENEFITS

Many people in the United States who are over age 65 may not realize that they have monthly social security benefits coming to them, according to Charles E. Burke, social security district manager in South Bend.

Payments of these benefits is not automatic. An application must be filed in order to receive any social security benefits.

Mr. Burke stated that the amount of work necessary to get benefits has been changed in recent years and some people who were previously told they were ineligible may now qualify. Persons who some years ago were denied benefits on the basis of insufficient work, should again get in touch with the social security office and see if they are now eligible.

Many persons over age 65, who are working full time or part time, may now be eligible to get some monthly social security benefits. For example, if a person's monthly benefit is \$100 and

he has earnings of \$2000 per year, he would still be eligible for \$650 in benefits for the year.

He would be entitled to partial benefits because for each \$2 he earns between \$1200 and \$1700, he loses only one dollar in benefits. For each dollar he earns above \$1700, he loses one dollar in benefits.

Mr. Burke emphasized that two particular groups — those over age 65 (even those still working), and those previously denied benefits because of having not worked enough — should get in touch with the nearest social security office.

functional beauty — especially emphasized at the table where the lovelier-than-imported sweaters will be sold.

For chancy visitors there will be a towering stack of colorfully wrapped Christmas gifts. There you may pay one dollar and choose a treasure which will probably be worth several dollars — all for fun and surprise.

Christmas wouldn't be Christmas without goodies. Generous husbands will gladly help carry in the purchases when they get a whiff of spicy cookies, blueberry pie, or nut bread from the big brown bag which will not have a "Do Not Open Until Christmas" tag attached. What a welcome for the thrifty little woman who does her Christmas shopping early!

Irresistibly drawn to the booth displaying bathroom accessories, front door pulls, decorated step stools (of all things!), sewing baskets, glamorous fireside match boxes, quaint peasant braid "around the neck" sewing equipment, and aprons to adorn and serve — you'll find just the gift for the one you thought was hard to buy for — until you came to the "Christmas in August" bazaar.

There are more than 300 Tri Kappa chapters but Epsilon Nu is the only one which sponsors a

pre-season sale. It is a delightful social occasion; a rare opportunity to shop in cool and beautiful surroundings; a privilege to buy lovely gifts priced from 25 cents and up — and to know, at the same time, that you are contributing to Tri Kappa's community and charity projects.

In the lobby there will be a piece of sculpture, a fountain, a place to drop some coins and make a wish — a wish, perhaps, that Tri Kappa can do more in 1964 for the mentally ill.

The Inn management has graciously and hospitably agreed to serve salad luncheons for \$1.25. Reservations to Mrs. Richard Middleton at Viking 2-2494 or to Mrs. Lester Snyder at Viking 2-2322 are requested.

Mrs. Melvyn Estey, president of the local chapter of Tri Kappa, and Mrs. Robert Bolton, chairman of "Christmas in August," are joined by all the members who invite you to star August 7 on your calendar and come early to The Culver Inn for a pleasant and profitable day. Babson Discusses True Purpose Of The Sabbath

Babson Park, Mass. — Nothing demonstrates more clearly the materialistic world which America is becoming than our misuse of the Sabbath. Instead of using this day for spiritual regeneration, we all too often try to cram into the hours between sun-up and bedtime all the worldly activities normally followed on a holiday or a day of vacation.

Sunday Commerce Riding High

In a great many areas of the country, supermarkets and department stores, realty offices and nurseries, nearly all types of retail outlets, are open and doing a big business on Sunday. This is especially true in the Mountain and Pacific Coast states, where the almighty dollar is pursued even more avidly than it is in my own New England. Here, Blue Laws still put some curbs on Sunday selling.

I have talked with many merchants and service workers in various sections of the country who support the idea of Sunday business. For the most part, they speak of today's intense competition and claim that staying open on Sunday means the difference between profit and loss. They say that selling on the Sabbath has resulted from changing times and attitudes. In essence,

the consensus among such operators is that Sunday selling is a matter of survival.

How It Came About

Many readers can probably remember the days during the war when the old 5-to-9 business pattern began to change. Defense workers on "round-the-clock" schedules flocked to stores that first started to stay open evenings. Next came the exodus out of the cities and into Suburbia, bringing with it a postwar transformation in consumer buying habits. People preferred to stay at home and shop in the suburbs, especially where retailers kept open evenings.

The rat-race for the consumer dollar then developed such rivalry, both in cities and in rural communities, that the next move from evening openings to Sunday openings seemed almost natural to buyers still following with the emergency conditions that prevailed during the war. Even Sunday Blue Laws, where they existed, were woefully weak or got only token enforcement. To me this mistreatment of the Lord's Day seems deplorable, and I will try to explain why I feel this way.

Why I Think It Should Be Stopped

If any proof is needed to reveal how worldly our culture has become, it is the very fact that so many of our good citizens favor Sunday business. Just recall how many cultures throughout history were destroyed because spiritual development was neglected, — then ignored. Some people were shocked a few years ago when I expressed my feeling against the matter of Sabbath

selling, but if shocking them will make them think about it some more, I am willing — and proud — to repeat what I said: The place for us and for our families on the Sabbath is in the Lord's House, not in a Discount House.

Our labor leaders and many progressive employers have helped us shorten our working hours radically in recent years; so our time for leisure is greater than ever. Should we not then be able to find time on the Biblical Day of Rest to reflect upon matters of the spirit, upon morality, upon simple right and wrong? I say we should. Parents, educators, and law enforcement authorities — all of whom work with young people — are concerned with maladjustment symptoms like juvenile delinquency, divorce, dishonesty, even disregard for human life. I say that many of these problems would be prevented if Sunday were used by the family for renewing spiritual standards and deepening basic values.

Let The Church Orient Your Home

We all need a philosophy of life that brings a sharper focus on the needs of others, and less on our own wants. Your church will help you and your family develop working standards of right and wrong. It may be cruel to say, but I'm afraid that most

of our youth are what their homes have made them. Right here is where the church must come in strong. In the church of your choice and in the church-inspired home are the places where the average young man or woman is going to build sound moral and spiritual fiber. In conclusion, let me say that I fear Sunday businessmen may be creating more spiritual losses than material gains.

VANISHING AMERICAN

There are few "village smithys" flexing their muscles in Indiana these days, but Evelyn Buffo of The Batesville Herald Tribune has found one blacksmith who is still active. He is George Hillman, 71, who maintains a blacksmith on his farm southeast of Negan-gard's Corner. Hillman has been practicing his trade 51 years. During World War I the U.S. Army made use of his services. He shod horses for the artillery and cavalry in France and later with the U.S. Army of Occupation in Germany. After the war Hillman set up a blacksmith shop at Moores Hill and after 18 years there moved his shop to Sunman, where he remained seven years before moving to his present location. His principal job now is providing shoes for 15 racing thoroughbreds on the farm of Leo Wagner near Osgood.

Outdoor cooking has been an American way of life since Columbus first discovered our first citizens busily cooking over camp fires. The Institute for Safer Living of the American Mutual Liability Insurance Company states that while our early settlers were professionals at outdoor cooking, present day Americans are mostly amateurs. Lack of knowledge of outdoor cooking procedures is apt to produce many a serious burn or other injury. Take time to learn safe practices and procedures if you aspire to be a good outdoor chef.

ENTERTAINERS THE BEST EVER AT INDIANA STATE FAIR

Entertainers from all over the world like to come to Indiana, so they congregate at the Indiana State Fair to see that Hoosier fairgoers have some extra fun!

"This year's array of entertainers is the best the Indiana State Fair has ever offered to the people of Indiana," said Robert H. Weedon, Director of Entertainment.

From the foggy docks of Liverpool come four young men with rag-top mops, to see what America is really like. Hoosiers were just as excited to see the the Beatles on September 3 because they "bought out the house" soon after the tickets were released.

Straight from the Tennessee hills comes Indiana's favorite pea-picker, Ernie Ford, who has packed the Coliseum at four other Indiana State Fairs. Ole Ern will bring comedian Jerry Van Dyke, The Amin Brothers and lovely vocalist Shirley Harmer with him for four big shows, August 29 and 30.

Andy Williams comes to Hoosierland from the California entertainment capital, Hollywood, with boy vocalists The Osmond Brothers, for six Coliseum shows September 5 through 7. Magician, Mark Wilson, an instrumental-vocal group, The Brooks Sisters, comedian Candy Candido, and acrobats, The Amandis, will join Andy.

Horses and riders from all over the country will compete in two Coliseum horse shows, the "honor rated" Flat Saddle Show, August 31 through September 4, and the Western Show, September 8 and 9.

The "wild and wooly West" sends its best and meanest rodeo stock and the nation's top cowboys to fight 'em! Tommy Steiner's World Championship Rodeo will feature: Grand Entry, Saddle Bronc Riding, Brahman Bull Riding, Calf Roping, and Steer Wrestling for ten Grandstand performances, August 29 through September 2.

Jack Kochman's dare-devil auto thrill drivers are currently performing at the New York World's Fair, but they wouldn't miss an Indiana State Fair! Back again to thrill Indiana audiences with their ramp-to-ramp flights and two-wheel spins, the Hell Drivers will appear at the Grandstand September 6 and 7.

A new attraction at the Grandstand will be a father-son team of spine-chilling stunt driving, the Joie Chitwood thrill show, direct from Florida for seven shows, September 3 through 5. Chitwood features a '64 sedan being shot through a 25-foot space-like rocket. During the engagement, Chitwood will award a miniature Corvette to a youngster in the audience.

The Indiana State Fair is known for its "big league" harness racing, scheduled this year

for September 4 through 8. The one-mile clay track will host Grand Circuit races plus the Indiana Fox and Horseman Stakes and the Horseman Futurities. This year, trotters and pacers will also compete in some night racing under a new permanent lighting system.

Indianapolis is the auto racing capital of the world, so stock car drivers from all around will be entering the USAC 100-mile "Century" Stock Car Race, September 9. Two-time 500 winner, A. J. Foyt, will be defending his 1963 "Century" victory.

Indiana State Fair entertainment not only attracts performers from far and wide, but Hoosiers of every interest.

PAUL DRESSER,
BORN, 1857,
TERRE HAUTE, INDIANA

The day the
Wabash River flowed
through New York City!

IT WAS HOT in New York that morning in 1899. Sun-baked air billowed in through an open window—swirling about a 300-lb. hulk of a man who dwarfed the piano at which he sat. It was Paul Dresser, the songwriter.

He spoke to his younger brother, Theodore Dreiser (later to become a world-famous novelist).

"How about an idea for a song?" Paul asked.

"Why don't you write about a state or a river?" Theodore answered. "Try Indiana or the Wabash River."

Paul Dresser did try. And the result was *On The Banks of The Wabash Far Away*... his greatest song. Soon it was being sung all over the country. Later, it became Indiana's official song.

Dresser wrote many hits, including the famous *My Gal Sal*. But, *On The Banks of The Wabash Far Away* remains the enduring monument to his talent.

Paul was born on the banks of the Wabash, far away. Indeed it was far away! In those days cities were isolated. Communications were slow and uncertain at best. It often took weeks to get a letter to New York, for example.

But then, in 1877, the telephone began to link Indiana to the rest of the country. And today, you can call New York (or almost any place else in the world) in a matter of seconds.

Best of all, Long Distance telephone rates have gone down over the years. In 1927 a daytime, 3-minute, station-to-station call from Indianapolis to New York City cost \$3.05. Today, it is only \$1.40, plus tax. And service is faster and more dependable than ever, thanks to revolutionary, technical developments from the Bell Telephone Laboratories. And the best is yet to come.

Holy Communion observed the first Sunday of each month during the morning worship service.
A cordial welcome is extended to all to worship with us.

DON'T send the kids to church — TAKE 'em!

Portable escalators may someday replace step ladders for reaching those high places around the home. Until they are available, however, the Institute for Safer Living recommends continued use of the family ladder, but with due regard for your safety while above ground. Improper climbing or descending, insecure fastening, and defective ladders produce thousands of serious and fatal injuries around the home each year.

Forty-three acres! How long we labored, hoping someday to add it to our modest farm.

Good bottom land . . . with a grove for the children to play in, a stream with an ol' swimmin' hole, and rich soil just begging for the plow.

Now it's ours! A great moment . . . full of promise . . . fraught with challenge.

Sort of like that moment a few years ago when Peg and I became members of the congregation. Before that the church had been simply a

familiar scene along the border of our lives. Suddenly it became our church.

And there was that deep sense of partnership with God . . . full of promise . . . fraught with challenge.

There is such an abundant harvest of blessing and happiness to be reaped in life . . . if a man yearns for the best, and claims it for his own, and is ready to put his hand to the plow.

Jesus said, "I am the resurrection and the life; he that believeth in me, though he were dead yet shall he live." John 11:25.

We wish to express our deep gratitude to Drs. Howard, France, Rimel and Reno, to the nurses and all personnel at Parkview Hospital, to our friends, neighbors, Pastor Tittle, and all who in any way have shown us such wonderful kindness during the illness and passing of our beloved husband and father, William H. Crossgrove.

My Neighbors

"It pains me to call your attention to it, Mom, but you dragged somebody else's kid outta that mud!"

Where do all the children go when school is out? The Institute for Safer Living of the American Mutual Liability Insurance Company warns that children may suddenly appear in unexpected places along the street or highway. Their habit patterns change as they scatter to the four winds after school is out.

You can place a Card of Thanks in The Citizen for \$1.50.

LaPaz Ends Culver Tourney Hopes, 9-4

Ten Errors Spell Defeat

By EARL MISHLER

The Culver Indians were very generous Monday night; unfortunately, in baseball, generosity does not go hand in hand with success. Aided by 10, yes 10, CHS errors, LaPaz' Vikings defeated the Tribe, 9-4, at Bourbon, in the semi-finals of the Marshall County Tourney. Culver had scored a 2-1 first round victory Thursday night over Tyner at Argos.

Last Thursday, Paul Liette hurled a three-hitter to stop the Redmen. Culver scored early with runs in the first and second innings, then held on for the win. Ironically, the Indians were perfect in the field, making no errors.

But things were different on Monday. After the Tribe finished throwing the ball all over Bourbon, no one could be sure Coach Gene Crosley had fielded the same team. Nine of the 10 boots came in the infield, and seven LaPaz runs were scored as a result. Both teams managed seven hits, but the Vikes were steadier, behind Dan Harbaugh, than was the Tribe behind Liette.

LaPaz now goes on to Thursday night's final game at Argos against Bremen who defeated Triton at Argos Monday.

Culver is now 12-7 on the summer season. Other games, including one County League rained-out game, may be played, and will be announced in next week's Citizen.

BOAT REGISTRATIONS ARE ON THE INCREASE

The boom in boats and boating seemingly continues this summer as the Enforcement Division of the Indiana Department of Conservation reports having registered 117,500 boats as of July 1, 1964. Just four months ago they had registered 101,000, approximately 10% of which are located in Marlon County, the county with the greatest number of boating enthusiasts.

Twenty-four Indiana counties have over 1,000 boats registered and seven have over 3,000. Union County has the least with just 32. Overall, approximately 80% of all registrations are north of route 40.

With the increased number of boats and activity on Indiana waters, Enforcement officers across the state are spending more and more time supervising safety regulations and teaching good boating habits to youth groups. The Enforcement Division has been supplemented with additional equipment this year including five 16-foot boats with 75 H. P. motors and six 9.8 mo-

tors for smaller craft. With the increased boating activity, an increase in boat regulation violations is seen. Last year there were approximately 1,000 violations recorded. Thus far this year there have been 1,184.
