At least once every minute this season, some hunter will be using chain lightning to connect with his bird. And the double action bars on a Remington Model 870 pump shotgun will have paid off again. Double action bars give the 870 its lightning speed and effortless action. Over a million 870 shooters can so testify. And they can tell you some other solid facts: A receiver machined from solid steel. A breech block that locks into the barrel extension. A finish that looks like a million.

Three Members Added To C.M.A. Military Staff

An officer recently returned from combat in Vietnam has been appointed Senior Army instructor at Culver Military Academy.

Major William A. Roosma, who returned from Vietnam in August, is one of three new members of the military staff at Culver, an honor military school. The other two are Major George A. Runkle, who will serve as assistant senior Army instructor, and Capt. McCord Sollenberger, who will be an instructor in the department of horsemanship.

Major Roosma was a battalion and brigade operations officer with infantry units that operated in Vietnam at Tay Ninh, near the Cambodian border, and at Chu Lai. He served with Ranger units and is a paratrooper. Major Roosma, a 1958 graduate of the U.S. Military Academy, heads a unit of officers and enlisted men comprising the military science department at Culver. The department includes both regular and retired U.S. Army personnel.

Major Runkle retired from the U.S. Army in 1961 after 20 years service with infantry and armored groups mostly in Europe. He also was stationed in Vietnam in 1958. He was graduated with distinction and received a bachelor of arts degree in political science from Arizona State University in 1964 and has done considerable additional graduate work toward a master's degree. Major Runkle taught government and economics at Scottsdale (Ariz.) High School before his appointment to the military staff at Culver.

Capt. Sollenberger is a former U.S. Cavalry officer who also worked with the OSS during World War II. He attended the University of Virginia and the University of Maryland Law School. Capt. Sollenberger has wide experience in the training of horses and will work in the three-man department of horsemanship, responsible for the training of the Academy's famed Black Horse Troop.

Academy Sports

Culver's football Eagles combined a stubborn defense with two shocking touchdown plays to upset favored Lafayette Central Catholic Saturday, 21-6.

Central Catholic's Hal Knowles picked off a Chip Linnemeier pass in the second quarter and ran 59 yards for the game's first score.

The Eagles gained and kept the lead later in the same period when a John Schumacher to Bill Adair pass netted 47 yards and a touchdown. Paul Gift kicked the conversion.

The turning point in the Eagles' first win of the season came midway through the third quarter when Tim Moore and Roger Bird teamed up to block a Central Catholic punt deep in Culver territory. Bird recovered the ball and ran 20 yards for Culver's second touchdown. Gift added his second point after.

Bird set up Culver's final score as he intercepted a Catholic pass at midfield in the fourth quarter. After his interception, the Eagles drove 49 yards for their third touchdown, culminating in a one-yard plunge by Gift.

Culver's leading rushers were fullback Gift with 23 yards and quarterback Linnemeier with 40. Bill Adair was the leading receiver with two receptions for 60 yards. Culver gained a 1-1 record from the win and gave Central Catholic a 2-2 season.

Culver's next game is at home Saturday at 2 p.m. against Terre Haute Honey Creek.

Score by Quarters: Culver 0, 7, 7, 7 - 21. Central Catholic 0, 6, 0, 0 - 6.

During half-time of the football game, Culver's cross country team beat Central Catholic 25-35. Although Lafayette's runners took the first two places, Culver's Doug Scholz, trailing the remains of an elastic knee bandage, ran third followed by five other Culver runners for the lowest net score.

The Academy's runners met Millersburg Tuesday; travel to DeKalb at Auburn for a Saturday meet at 11 a.m.; and host Winamac Tuesday at 4:30. Culver entered the Millersburg meet with a 2-1 record.

The Academy soccer team beat LaLumiere last Wednesday for a 1-1 record, giving LaLumiere its third defeat in as many outings. Culver's senior Ken Macek scored goals in the second and fourth. Coach John W. Chadwick said, "Culver attacked most of the games and should have scored more often but LaLumiere put up good resistance."

The soccer squad travels to Argos Wednesday for a 4 p.m. game; hosts Bethany Christian Saturday at 2 p.m.; and meets LaLumiere at home Wednesday at 4 p.m.

AUBBEE STUDENT NAMED SEMIFINALIST IN MERIT SCHOLARSHIP PROGRAM

Principal J. Arthur Howard has announced that one student at Aubbeenaubbee Has School has been named Semifinalist in the 1967-68 National Merit Scholarship Program.

The student is Donna Marie Langenbahn, daughter of Mr. and Mrs. Henry Langenbahn, R. R., Monterey.

The 14,000 Semifinalists appointed throughout the nation have advanced to the second step in the competition for about 2,900 Merit Scholarships, valued at more than \$8 million, to be awarded in 1968.

The Culver Citizen — Culver, Indiana — Oct. 5, 1967 — Page 5

Every Semifinalist who becomes a Finalist will be considered for one of about 2,400 four-year Merit Scholarships financed by some 400 corporations, foundations, colleges, unions, trusts, professional associations, other organizations, and individuals, and by NMSC itself. In addition, about 500 one-time National Merit \$1,000 Scholarships will be awarded for the first time in 1968.

Winners of four-year Merit Scholarships may receive up to \$1,500 a year for four college years, depending on their individual need. Winners of the National Merit \$1,000 Scholarships will receive one-time grants of \$1,000 upon enrollment in college.

High school grades, accomplishments, leadership qualities, extracurricular activities, and school citizenship of the Finalists are evaluated, along with test scores, in selecting Merit Scholarship winners.

Names of the Merit Scholars in the 1967-68 Merit Program will be announced by early May 1968. More than 15,900 students have received Merit Scholarships in the twelve annual programs to date. Over \$52 million in financial assistance to Merit Scholars and their colleges has been expended or committed through the Merit Program to date.

THERE ARE NO PLUMS IN PLUM PUDDING

Plum puddings are made of suet, raisins, currants, flour and various spices. There are no plums. Almost any steamed pudding or dark fruit cake may be called plum pudding. Especially rich ones are traditional at Thanksgiving and Christmas, when they are served with a sauce. They are usually steamed before being served. Plum puddings were a favorite dessert among the early American Colonists, and are still served occasionally in most American homes.

THE SCHOOLBELL

As the smoke from Ye Ole Teepee's council fire clears, I am beginning to see the light. And man, is it ever shining! Let's see what's going on.

Many underclassmen are wondering why the seniors are all clutching their arms and crying, don't worry. They've only had their T. B. tests. Cheer up kids! Just think, Friday you may receive the terrific news that you are stricken with T. B.

Attention, first period teachers! If you're wondering why your students' grades have dropped for the last few days, blame it on the band. Who can study when our great band is marching around the school building playing 18th century classics like "The Stripper"??

Hey! There's going to be a love-in sometime next week. For fore info, contact Mr. Waltz or anybody who's taking C.P. Math 3rd period.

Speaking of math, I hear senior math has been converted to kindergarten. Really, sanding little wooden blocks and pasting them together! Tch! Tch! Tch! Shame, shame.

Congrats to the Cross-Country Team. They skunked Mentone's Bulldogs last Wednesday. Keep up the good work boys.

Would you believe homemade ice cream at 9:45 in the morning? For additional enlightenment on this fascinating subject, ask Mr. Iron-Stomach Lawson. He eats anything anytime.

It seems that little pink poka-dots fell out of the sky and distributed themselves on Debbie T.'s Corvair . . . or could it have been three junior boys.

Really, Linda F., how could all those apples have gotten in your front yard when you don't even have an apple tree. Have you been visiting your friendly neighborhood orchard?

They say that co-ordination strikes every three seconds, but poor Sheep. It seemed to miss him. He fell from the combine. But luckily he broke just one thing — a chair!

Susie D. is offering a course in nature study. Her locker has a cocoon in it plus many numerous things. (There will be a small charge to look at the contents of the locker.)

Well, Jack L., are you ready for Oct. 6? We sure hope so. Something could really develop from this, but only the ouija board knows for sure!

The Senior class isn't the only class with acting ability. Three mighty Juniors have landed parts in a C.M.A. play. Way to go, Linda S. (she got the female lead!), Norma, and Kathy.

Well, it's colder outside and with more wood on the fire the smoke's making everything kind of hazy, so we'll leave you with this final thought: Happiness is being in the Yellow Club!! (Be Happy).

Interview

By Kathy Tasch and Linda Shirrell

Mr. Hayes, the new principal of Culver High School, proved to be very informative and interesting in stating his impressions and plans for C.H.S. this year. He has been principal of Frontier, a high school much the same size of Culver, and is favorably impressed with our student body, but, of course, there is room for improvement.

The principal also stated that Culver's academic curriculum is very good and C.H.S. has an excellent faculty to teach it. The only disappointment he has found with Culver is the lack of total student involvement in extra school activities and the stress on money-making projects.

When asked about his attitude concerning the new school, Mr. Hayes stated that the class of '69 will be the first class to graduate from the new building. The new school and the challenge of reorganizing it was a factor in bringing our new principal to Culver.

Mr. Hayes believes that Culver High School, with the co-operation of its faculty, the student body, and the Culver community, will have an especially successful year.

The Shadow

By Ana Barrabes

The person whose shadow I am goes from day to day in more or less the same routine . . . with the exception of some exciting events that happen every once in a while to break the monotony of going to school.

Here is a sample of what Miss G does each day:

During first period studyhall she studied shorthand and psychology. WOW!!! In second period shorthand she recited along with everyone else in class.

During third period psychology, the unusual event of the day happened. Miss X decorated a quiz paper with daisies and scroll work which Mr. Waxman showed to the class for inspection and comments. (I'm happy to announce that we have our own "FLOWER CHILD" in the senior class.)

In fourth period studyhall she crammed for civics' (just like the rest of the seniors do everyday. During lunchtime she went

home to eat, came back, and then walked to town with me. We went to the drugstore and then stood outside and talked to "Go-Go" until it was time to go inside.

In fifth period English, as usual everyone listened to Mrs. Kline. During sixth period advanced chemistry, Mike Wynn and Miss X held hands across the aisle while Mr. Wolfe was out of the room.

She almost fell asleep during the film strip in seventh period civics, and just kind of drifted through class.

After school, Miss X was off to play practice where she has the lead in the senior class play.

If there is any doubt as to whom this mighty senior is, it's none other than our own "FLOWER CHILD OF '68", Suzi Riester.

Joe: "Can I have a cigaret?"

Moe: "I thought you'd quit smoking."

Joe: "I'm still in the first phase. I've quit buying."

By Laurel Prosser
Jean Gross

Susie Donnelly then explained the candles and what they stood for. The candle of love was lit by Carol Kline and Mary Beth Ives lit the candle of unselfishness. Carin Manchester lit the candle of charity and Connie Morrison lit the candle of helpfulness. The candle of kindness was lit by Susie Donnelly and Carol Kline lit the final candle, the candle of service.

Each new member was given a candle of her own which she lit from the largest candle.

There were 66 new members initiated this year. For the first time freshman girls were able to join the society.

Susie Donnelly congratulated the new members and Carol Kline read a poem entitled "Windows of Gold". Miss Shanks then talked about the windows of gold

and what they meant to her.

Pam Welsh then sang "My Task" and the meeting was closed with a prayer led by Carin Manchester. Refreshments were then served.

The chairmen of the various committees were as follows: Karen Ruhnow, food and clean-up; LaDonna Darosci, decoration; and Mary Beth Ives, candles.

Next, Linda Fisher talked about some of the plans for the coming year and about the week the varsity cheerleaders spent at camp.

"Are Sin, Disease, and Death Real?" is the subject of the Lesson Sermon to be read in all Christian Science churches this Sunday.
The Responsive Reading includes a verse from Romans:

—And where we'll stop, who can know?

We do have the best educational system in the world. But what will your child think and want and demand once we've educated him?

For in our system—unlike the Russian—we impart truth rather than ideas. We give our children the tools of thought, not the party line.

Does your child know that the center of all truth is God? Does he measure his aims by Christian standards of faith and morality? Has he learned where unbridled human passions of greed and power and selfishness can lead? Does he respect the religious faith and spiritual opportunities which motivated American Liberty?

Nobody can brainwash an American family. But it's up to each American family to choose every Sunday between the "around and around," and the center of truth—GOD.

HIGH COST OF LIVING

THE cost of treating a serious illness or accidental injury most often is unanticipated and always is unwanted. Often it is not included in the family financial budget and often it presents an extra expense on top of an already tight budget.

Like all other living expenses, the price of medical treatment has risen in the last 20 years. But there are still a number of ways in which you can stretch your medical dollar and at the same time get better protection for yourself and your family.

(1) Have a family doctor. He will keep a permanent record of your medical history which may save duplicating many expensive and time-consuming tests; (2) Don't wait too long. Many persons try to save money on medical bills by not seeing the doctor until they are seriously ill; (3) Have regular checkups. Early detection obviously offers a better chance to control and cure disease.

(4) Go to the doctor's office. Few patients understand that house calls are not only more expensive but less efficient; (5) Use the telephone. This not only saves money but also often makes good medical sense. A family doctor who has examined you regularly can sometimes advise you over the phone about minor health problems; (6) Follow your doctor's orders; (7) Buy health insurance. Health insurance is a bargain considering the shattering effects on the family finances that prolonged illness can have; (8) Take allowable tax deductions. Doctor bills, hospital bills and drug costs beyond a certain percentage of your income may be claimed as deductions for tax purposes.

The greasemonkey with the beer breath fumbled a folded transfer from his pocket to the bus driver's hand. The driver straightened it out and took a quick look.

"This transfer's no good, Mac," he said.

"Oh, yeah? Why's it no good?" demanded the greasemonkey.

"It's a Saturday transfer; today's Monday."

"So whash about it?" the tipsy greasemonkey insisted. "Ish it my falsh if you're two daysh late?"

LOWER CALIFORNIA IS NOT IN THE UNITED STATES

Many people erroneously speak of going to "Lower California" to spend the Winter in sunshine. However, Lower California is something quite different. It is a part of the Republic of Mexico, and not a part of the U. S. A. at all. What people really mean in speaking of the California where they go to Winter is "Southern California"—which is a part of the great area originally known as "Upper California," to distinguish it from Lower California which is Mexican.

A Bible Quiz was given by Hallie Cowen of Poplar Grove and "Scene In A Doctor's Office," was given by Burr Oak. "Bless Be The Tie That Binds," was sung

At least once every minute this season, some hunter will be using chain lightning to connect with his bird. And the double action bars on a Remington Model 870 pump shotgun will have paid off again. Double action bars give the 870 its lightning speed and effortless action. Over a million 870 shooters can so testify. And they can tell you some other solid facts: A receiver machined from solid steel. A breech block that locks into the barrel extension. A finish that looks like a million.

Social Security

"The South Bend, Indiana Social Security Office is always ready to help answer questions and assist anyone who has a social security problem," said Charles E. Burke, District Manager.

This is especially true when it involves medicare. Mr. Burke stated. The first medicare claim should be brought into the social security office so that the office staff can help with the filing of the claim. There is a special "Request for Payment" form that needs to be completed. The employees at the social security office are experts in handling these forms. They welcome the opportunity to assist people in completing these claims. Incorrect and incomplete forms have caused delays in medicare payments.

When you need to file a medicare claim, take your receipted bills for the services you received to your social security office at 125 S. Lafayette Blvd. in South Bend, Indiana. The office is open Monday through Friday from 8:45 a.m. to 4:45 p.m. and on Thursday evenings until 8 p.m. For further information phone 234-4001.

Academy Sports

Coach David L. Burke is counting on five seniors to set the pace for Culver Military Academy's 12-meet varsity cross country season.
 With two meets already in the record book, his five seniors have presented him with a win and a loss.

Two-year team captain Doug Scholz, Vandalia, Ohio, paced all runners in both meets, breaking the Culver course record with a time of 10:13 in the 28-29 loss to Wheeler. He also came in first in the 19-40 victory over Hebron.
 Scholz has two cross country letters to his credit, and he is starting to compile track records. Although the mile is his principal track event, he is the Culver record holder in the two-mile run outdoors with a 10:03. His cross country record is 10 seconds slower because of the hilly Culver course.

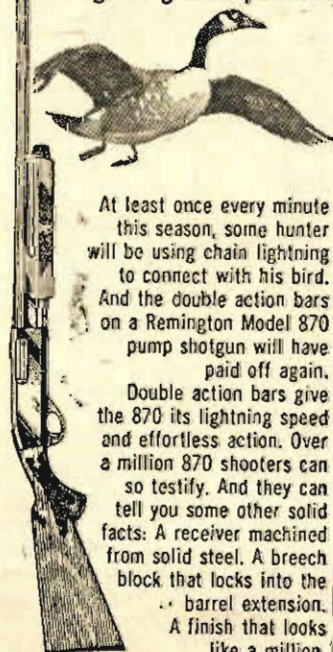

His twin, Mike Scholz, is running for the second year. He ran the two-mile last spring in track and has been Culver's number two man in the first two meets — each race about 30 seconds behind his brother.

Charlie McNagy, Fort Wayne, is a two-year letter winner and has come in third and sixth so far this season. He runs the 880 in track.

Joe Cummings, Sabina, Ohio, has also won a letter for two years and was Culver's second man most of last season. Another track two-miler, he holds the Culver indoor record at 10:32 and lost his outdoor record of 10:22 to Doug Scholz.

Stasz Gorski, another of last year's letter winners, is in his second season with the team, but

 its lightning-fast operation.

At least once every minute this season, some hunter will be using chain lightning to connect with his bird. And the double action bars on a Remington Model 870 pump shotgun will have paid off again.
 Double action bars give the 870 its lightning speed and effortless action. Over a million 870 shooters can so testify. And they can tell you some other solid facts: A receiver machined from solid steel. A breech block that locks into the barrel extension. A finish that looks like a million.

an early-season injury has so far kept him out of contention.
 Coach Burke gets double duty from him in the spring on the quarter mile.

Burke says, "I'm reasonably certain that my five seniors will be steady contributors to the success of the team."

"Others who are now untested may eventually make significant contributions to the team. We have a squad of 31 runners, many of whom are sophomores and freshmen of promising ability."

GUIDANCE SERVICES

TO BE DISCUSSED AT SOUTH BEND MEETING

A panel discussion entitled "Guidance Services - 1968 Model" will be given at a meeting of the Northern Indiana Chapter of the Indiana Personnel and Guidance Association at Jackson High School, 5001 S. Miami Road, South Bend, on Thursday, Oct. 12. Building tours of the new school will be conducted starting at 5:30 p.m. This will be followed by a chicken dinner in the school cafeteria at 6:30. The panel discussion will begin immediately following the dinner and a business meeting.

Principals, counselors, and interested staff members of all schools in the northern section of Indiana have been invited to attend the meeting.

The doctor on the Army base had a young corporal as his office assistant to keep track of the paper work in connection with the office, and the young GI was extremely curious about the doctor's affairs. He was continually firing questions at the doctor, and one morning he said: "In civilian life were most of your cases accidents Captain?"

"I don't know," replied the doctor.

"How come you don't know?" the corporal asked.

"Soldier," said the officer as he walked out of the door, "I was an obstetrician."

"If all the women were taken out of circulation, what kind of a nation would this be?"
 "Stag-nation."
