New Community School Ready To Use New High School Building

A new community high school in a newly constructed building, unifying the former Aubbeenaubee, Monterey, and Culver High Schools, will be carried out on schedule with plans announced here this week for the organization of the new school.

The new high school will occupy, at the start, completed portions of the new 125,000 square foot buildings, beginning September 3, 1968. It was determined this week that 60% of the building will be ready for occupancy August 26, 1968. The area to be occupied includes Section C or the south wing, the Music, Mechanical, Art and Graphic Arts rooms, and Administrative offices.

The Agriculture Shop, Industrial Art Shops, and Gym Locker Rooms will be available September 19th. The Gym and Auditorium will be completed, according to present plans, in late October.

The building features 23 modernly equipped classrooms, including ten laboratories for science, language, home economics, developmental reading, and business, 2700-seat gymnasium, an 800-seat auditorium, and facilities for agriculture, industrial arts, drafting, music, art and ceramics, and cafeteria. The Library provides for a 950-square foot reading room with 7,000 volumes in perimeter shelving. The administrative center includes guidance, health clinic, and bookstore facilities.

The school district, which includes four townships in four counties, will open all schools, K-8, September 3, 1968. Enrollment at the Aubbeenaubee School is expected to be 180 pupils; Monterey School, 120; Culver Elementary, K-6, 590; Culver Junior High School, grades 7-8 190; and High School, 500. The Culver Junior High will occupy the former Culver High School building.

Parents whose children will be enrolling for the first time in the elementary schools at Culver, Aubbeenaubee, and Monterey may contact principals after August 26th for information.

All students, K-8, will report to their respective Schools, September 3, 1968. Busses will pick up students in order to have them at their schools by 1:15 p.m. Schools will be in a half-day session also for Grades K-8, on Wednesday afternoon, September 4, starting at 1:15 p.m. The school session on the first two days of school will be dismissed at approximately 3:15 p.m.

John Hayes, principal of the new unified high school, has submitted plans for the opening of the new high school which have been approved as follows:

1. Twelfth Grade (Class of 1969) students will join at the new high school building one-half day only during the first week. They are scheduled to report to the new school on September 3rd at 1:15 p.m. for a two-hour session.

2. The Eleventh Grade (Class of 1970) will join at the new school on Wednesday afternoon, September 4th for a two-hour session.

3. The Tenth Grade will meet Thursday morning, September 5th between 8:30 a.m. and 11:00 a.m., and the Ninth Grade, September 6th, 8:30 a.m. to 11:00 a.m.

It is important that students note that each of the four grades have been assigned to one-half day, each grade, during the opening week. The half-day high school class will be concerned with orientation, tour of the building, explanation of hand book, and explanation of cur-

ricular programming. Locker assignments will be made, books will be distributed, and necessary schedule adjustments will be made for each class. Regular classes or full day sessions for the high school will begin Monday, September 9th.

On September 5th and 6th, at the close of the morning session for Tenth Grade and Ninth grade, busses will transport the students to their home in the district, departing from the new high school at 11:00 a.m.

A letter to High School students and patrons, calling attention to schedules and schedule adjustments will be mailed next week, Mr. Hay stated.

For their convenience, students new to the area may call 842-3257 on August 26th or after pre-register or to secure information. Guidance Counselors will be on duty at that time.

In general, the transportation system will remain approximately the same for North Ben Township and Union Township students. In Tippecanoe Township and in Aubbeenaubee Township, all students, K 12, will be bussed to their respective schools at Monterey and Aubbeenaubee by 8:05 to 8:10 each morning. Four busses will serve each district.

Two shuttle routes from each respective school for high school students will convey students to the new school located on State Road 10 just north of Culver. In the afternoon, the Aubbeenaubee and Tippecanoe high school students will be loaded promptly at the close of the school day and conveyed by shuttle busses back to respective district schools where elementary pupils will be picked up to be taken to their homes.

good wind, and this ingredient was lacking Sunday afternoon when a large fleet of over 20 boats was assembled for the race. The almost non-existent breeze caused the judges to abandon the race before it was started. There would have been no possibility of sailing the prescribed course within the time limit of 2 hours and 30 minutes. The judges' predictions and good reasoning saved skippers and crews these hours of discomfort.

Saturday afternoon there was a good breeze, too good for one skipper, and eight boats participated in a good race. As was the case last week, Bruce Moore jumped off to an early lead and was never challenged for his first place position during the entire race. The other seven spots were highly contested, but it was Steve Speer who was second at the finish line. Pete Trone, taking some pointers from his winning crew, was third followed by David Moore, Fritz Muehlhausen was fifth, followed by the Washburn Twins — Dave in 6th spot and Cutler in 7th. Bill Stofer suffered a mishap and did not finish.

There were only four boats on hand for Saturday evening's Moonlight Race, but all that participated had an enjoyable evening with sailing and partying. At the starting signal, a nice breeze began to blow and Bill Stofer's "Windjagerin" hunted the best breeze and was first at the finish line. Dave Washburn in "Charlie" was second followed by David Moore's "Cricket". Steve Speer and his "Windjammer" was fourth. An enjoyable evening and tasty food was had by skippers, crews, and yacht club members at Charlie Roth's after the race.

There was the largest turn-out of Junior Skippers so far this year for Saturday morning race. Last year we looked into our crystal ball and advised "ON THE RIGHT TACK" readers that they should keep their eyes on a certain Junior girl skipper. Diane Thomas has lived up to our predictions and this week was first in a fleet of 12 sailfish. This only girl skipper in the Sailfish fleet has done a fine job all season and richly deserved this win. Diane was followed

across the finish line by Mark Suverlerup who finished a close second. Tim Roth was third this week while fourth place was taken by Alan Moore. Joe Schaub sailed to fifth place but finished ahead of Woodcrafter Vadia. Scott Spær was 7th followed by CMA Skippers Page 8th, and Arsham, 9th. Phil Schmoll had to be content with 10th place this week and was followed by Woodcrafters Jamieson and Felt in 11th and 12th places respectively.

A large contingent of Skylark skippers were also anxious for the starting gun and it was Steve Muehlhausen who lead the nine boat fleet across the finish line. Jeff Michaels was second followed by Dave Smitson, 3rd. In 4th place was Cub Shaver who beat Susie Spær who finished 5th. She finished ahead of another girl skipper, Janis Moore, who was 6th. Charlie Roth had to be content with 7th this week as did Mark Baker who finished 8th. Ninth place was awarded to Carol Wilkinson who will be trying to do better in her next fleet.

There will be no Junior Fleet race next Saturday as Junior

Skippers will be hosting Cedar Lake Manitou Skippers along with the rest of the fleet. These youngsters will furnish taxi rides so that the visiting Skippers can get out to their anchored boats.

Food For Thought

The middle of August is here and many signs are pointing back to school for the students even though it seems that just weeks ago we were in the midst of last year's school activities. Vacations are basically over, some students are getting ready to meet their schoolmates and friends again, the schools are making announcements of their plans, mothers are getting just a little weary of the kids getting in the way around the home and football practice starts today for the high school teams in Indiana.

These are all good signs that the start of school is just around the corner.

This brings to mind, two subjects that go hand in hand with each other.

In Indiana in the past 10 years, a tremendous reorganization has been going on in the rural areas. The desired attempt in this entire program was to get schools with a minimum of Average Daily Attendance of 1000 pupils or more. This has many advantages. The greatest being the fact that larger high schools can offer better curriculum for the students.

Coming with the reorganized school districts all over the state has been a tremendous building program. With this millions and millions of dollars are being spent on bigger and better schools all over the state. It is a rare day that construction can begin on a new school without involving a couple of million dollars. Many feel this is justified while others feel this might be a little rich for the need that be.

But coming along with this land in hand is a much talked about, but little acted upon subject to date. With the tremendous investment in building and the material part of schools, why not utilize these building 12 months a year and get more for the money.

This thought carries with it some good ideas, and also some that would meet with great

disapproval with many people. Education today is a different thing than it was not too many years ago. Today, the more education a child can get, the better their chances are when they leave this phase of their lives and move into adulthood. There are many who would gladly accept the chance to gain extra learning by attending classes in the summer months of vacation time. The schedules for the students and facilities alike could be arranged where a 12 month program would be handily worked out.

This is the time that many teachers continue their education as they strive to get additional degrees. It could also work for many students who would like additional study. The year could be split into periods that would still leave vacation time and still give the student plenty of time to gain some extra courses or even make-up work if the need be.

It would seem hard to take the vacation period away from children, especially the younger ones. However, many of the teenagers would accept a plan like this and they could cut some time from their overall education time or at least add more to their pursued paths of learning in the regular time.

Operating a school today is a big business . . . a very big business. If you doubt this, simply study the budgets and reports of these schools published periodically for the public's benefit. What one really derives from a school is the added experience and learning the students themselves receive. Any plan that would add to this has to have some merit.

We are not necessarily advocating a rapid switch to a 12 month school year, but instead, desire to pass the thought along. Somebody, some kind of action will be taken to make better use of the material and physical aspects of school to give to the children that real opportunity for "bigger and better" education.

ships, a horse show, Indian rituals, and a weapons display.

CULVER COMMENTS

Rumors, rumors, rumors, — latest to circulate is that the Auxiliary Police are being paid. This is not true! Stop and think a moment — just who would pay them?

Everyone appreciates town officials who try to hold the spending down. However, prices are up and so is the sewage. The people bailing this health hazard out of their basements need help. Verl McFeely has spent too many nights nursing these old pumps along. How about a new pump or two being provided for in the town budget? I imagine they are frightfully expensive but when you have raw sewage backing up into homes — expense should not be the main factor. I may kid the town employees but as far as I can see they are doing their darndest with what they have to work with. Hairpins and scotch tape hold much longer.

Will someone explain to me why it is that when someone in Culver does come up with a possible solution to a problem, it is accepted with the same enthusiasm as a cop in a pool hall?

HOWCUM DEPT. Why is Culver left out when the poll takers are running rampant throughout the land? Don't they care what we think? Have we elected such

bad officials over the years that they don't want our opinion? Open any newspaper and you will find the results of the latest poll about which man the American people want for president. Some one should remind them that we too are part of America even if our streets do look like Lower Slobovia. Maybe when the new State Road 10 is completed it will be more accessible to the people.

Just let the "city slickers" make remarks about our town. Take them into the Ben Franklin Store and show them what a \$10 store should look like. Wilbur Taylor has gone all out for his customer's comfort including carpeting throughout the store. Just about all our stores are attractive — Marilyn Kelly has done wonders with the Kelly Shop at the Clothiers is about the best looking men's store I have ever seen. The Culver Citizen office has curtains.

The town has triumphed again. What perfect timing! Lake Shore Drive blocked off over the weekend.

Feelings are running high over the Park Little League Tournament. Just exactly what happened isn't too clear because it is not safe to ask the adults about it.

Have you noticed that we have some difference of opinion over the appearance of the new school? "No windows," shrieked some; "I don't like the color of the bricks" groans another. Well it seems the kids like it and that's what's important. All you grown-ups have to do is pay for it.

Mrs. E. W. Carter Returns From European Tour

Mrs. E. W. Carter returned Friday evening from a five week tour of nine European countries sponsored by the National Education Association. Countries visited were Belgium, Holland, German, Austria, Switzerland, Italy, France, England and the principalities of Liechtenstein and Monaco. The tours of these

countries varied from one day to a week depending upon the nature and size of each.

Escorted city tours were taken visiting the high points interest in each city. Boat rides were taken on the Rhine, the Seine and on the canals of Holland and Venice.

A trip by cog-railroad to the top of Mt. Pilatus in the Italian Alps proved an exciting ex-

perience.

Also included in important events were the visits to the Ski-jump at Innsbruck, Austria where the 1964 Olympics took place, famous statues in Florence, the Roman Dame Cathedral in Paris, the Leaning Tower of Pisa, the Eiffel Tower and Monte Carlo.

While in London, members of the tour enjoyed the privilege of

seeing the "Changing of the Guard Ceremony" at Buckingham Palace and touring Westminster Abbey.

Transportation was by jet overseas, then by bus from country to country with the exception of a jet flight from Paris to London.

The group noted cool temperatures in Austria, Germany, Switzerland, Paris and London

but moderately warm weather in Monaco and Italy.

All member were well pleased with the compact nature of the tour which afforded them abundant sightseeing.

Handicaps Are Not Drawbacks

Mr. and Mrs. Berrigan of Syracuse, N.Y., have children who are shining examples of what can be accomplished in spite of handicaps. Mrs. Berrigan is the former Pauline Poland who was born and raised in this area. She is the sister of Mrs. Jake Siple and Mrs. Joe Heiser of Culver.

Mr and Mrs. Berigan, themselves deaf, have three children who are also afflicted with this handicap. Their accomplishments are astonishing and they are to be admired.

Dennis Berrigan, 18, was vice president of his class at St. Mary's School for the Deaf in Buffalo, N.Y. He is the recipient of the Buffalo Courier-Express Billy Award which is an award named in memory of the late sports editor of the Courier-EX-

press Newspaper in Buffalo and presented annually to the number one student athlete in a Western New York schoolboy league or division. He also received the American Legion Gold Medal and was elected to Who's Who among American High School Students. In addition he was named Player of the Year by the Junior National Association of the Deaf Basketball League. A sports enthusiast, he enjoys basketball, baseball and golfing. He plans to attend Gallaudet College for the Deaf in Washington, D. C., where he will major in liberal arts.

Patrick Berrigan, 17, is achieving recognition also. He recently acquired second place in the try-outs held at Berkeley, Calif., for the 1969 World Olympics for the Deaf which will be held in Yugoslavia. He holds his school broad jump record of 21 feet 11½ inches.

Mr. and Mrs. Berrigan can truly be proud of themselves and

their family as they have proven that handicaps are not drawbacks.

Hands Back Porch

Do many of you know that the Hand's Back Porch is not only a room but the name of a charming business enterprise? It is also the only place in the entire state that has a complete line of seconds of the Hadley Pottery Co.

Mrs. Don Hand was a close friend of the late M. A. (Mary Alice) Hadley and it was through this friendship that little shop was created. Mrs. Hadley was a summer resident of Culver for many years and well known for her artistic ability. In 1940 she began making pottery for a cruise that the Hadley's had on the Ohio River. Friends saw and admired

her pieces so much that it wasn't long before this hobby had grown into a nationally known line of pottery sold all over the United States.

After her recent death, Mr. Hadley carried on the business with the help of the artists who were trained by his wife. Each piece from dinner plate to coffee urn is painted completely fresh and has the attraction of being durable enough for everyday use.

Mr. and Mrs. Hand made about five trips a year to Louisville, Ky. to restock their supply. Mrs. Hand explained that by going there, they can pick the "seconds" that they want. We were hard put to see why the beautiful

pieces were considered seconds. A tiny dot of paint or almost invisible fingerprints only add to the individuality of the dinnerware and ornamental items.

Although this is Mrs. Hand's project, we noticed that Mr. Hand talked with as much enthusiasm as did his wife. Since this is a very informal venture, he steps in when his wife is not at home if a customer should drop in. They have sent many pieces on order to California, New York and even to Rome, Italy.

When you are searching for an unusual and beautiful wedding or anniversary gift don't overlook Hand's Back Porch.
