J. J. Cronley, Burr Oak's famous druggist, has been laid up the past 10 days with a sprained ankle.

Cook Brothers have been giving our citizens a free lunch this week by the way of biscuits and coffee. The biscuits were baked in their celebrated mahogany "cranks," in just three minutes by the watch. Everybody was satisfied that the ruses are just as represented.

Our old friend, Amos Friend of Burr Oak, is still confined to his home with rheumatism.

M. Hatten of Burr Oak is very ill.

D. B. Kirkpatrick of Oxford, Ind., has purchased the John Geith farm near Burr Oak.

Miss Clyde Vanderweele of Burr Oak, who has been very ill in a hospital at South Bend, arrived home Tuesday and is slowly improving.

Burr Oak, who has a new doctor.

A merchant in a nearby town who had persistently refused to advertise in his home paper, lost his life in a unique manner the other day. A customer entered his store through mistake, and in his haste to make a sale, he stepped from his step-ladder and fell into a mass of cobwebs that had accumulated in the corner of his store room and was strangled to death before assistance could reach him. Moral, always advertise.

One of our contemporaries, in making up the forms to a hurry the other day, got a marriage notice and a grocer's advertisement mixed up so that it read as follows: John Brown and Ida Gray were united in the holy sacrament by the quart or barrel. Mr. Brown is a well known young cod fish at 10 cents per pound, while the bride, Miss Gray, has nice pig's feet which will be sold cheaper than any in town.

The old world goes on, not caring whether we live or die, laugh or cry, shout or sigh, not caring a farthing why, till we turn up our heels and die, and then maybe we free from fry.

One of Kewanee's good looking young ladies is said to be terribly upset in consequence of a mistake she made the other day. Going in a hurry to a store after flour, she took up what she supposed was a clean pillow slip from the bureau drawer. She slipped into the store smiling like a basket of chips and handed the supposed slip to the grocer, who proposed to fill it. The first scamp went plump through it to the floor. When he raised it up to see what was the matter, and displayed two outlets at the bottom heavily fringed, the lady lit out without saying a word. The grocer laid the article away to await her return, but up to date she has not appeared in the vicinity.

## TRAGEDY AVERTED.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. Phosphorus had played and bayed with him and a terrible cough set in. Besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well. Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by T. E. Slattery, druggist. Price 50c and \$1. Trial bottles free.

## MAXINKUCKEE ITEMS.

Guy Stevens entered upon his duties as clerk for C. J. Landon Monday morning.

Mrs. Barthol's new cottage is completed and she moved into her new home Saturday.

John Landon departs Friday for the prairie of Illinois to work on a farm the coming summer.

Thomas Medbourne, of Culver, was in our village last Saturday having been tripped by the Macomber as Nanny in the adjustment of the sick and fun and clam of the late A. P. Edwards. Mr. Medbourne did the Notary work in the Case. Dillon case, also, for Maxinkuckee Tank.

Willie Hunt will commence this week to put up an addition to his residence near the Rector Hotel.

The S. O. T. M. held a reception and supper at their hall Saturday evening in honor of their past officer, Mrs. Lillian Smythe, who departs Tuesday for her new home in London, Canada.

Barford Merle who is sick with Typhoid fever is thought to be some better at the present time.

The coal syndicate will soon have a chance to keep their last winters supply for ought we care. As your correspondent has seen her shadow, has heard a froggy and seen the summer birds fly from tree to tree. Spring is here.

## SURE AND QUICK WORK.

On Feb. 10th, 1903, Charles Dillon a member of Maxinkuckee Tank, K. O. T. M., 170, died leaving an endowment application for \$2,000 made payable to his wife, Eda Dillon. The check for the endowment was delivered by Fred Thompson and David Thomas, record keeper and commander of the above named tank, on March 9th, 1903, completing the entire process of adjustment within 30 days from the date of death. The total cost to the deceased, Mr. Dillon, in ten years being \$181 interest and return of \$2,000. The members of Maxinkuckee should realize the best value of the entire community that they may go forward to still more noble work. Yours Respectfully, FRED THOMPSON, Record Keeper, 170.

The editor of this paper was in Whiting and Hammond Monday. At Whiting he found his old friend, Brook Bowman, the general editor of the Whiting Sun in a flourishing condition. He has an excellent plant and is making money fast. The citizens appreciate his efforts, and his advertising and job work patronage is tremendous. He is contented and happy. At Hammond the editor saw A. C. Edinger, a gentleman who became the husband of Dr. Stevens' charming daughter, of Maxinkuckee. Mr. Edinger is a motorman on the street car line at Hammond and is doing immense. The editor had the pleasure of riding over the line and was shown the business interests of the city by the man who controlled the car by the simple twist of the wrist. The most interesting being the great printing plant of Conroy & Co., who employ about 2,000 printers. He said he and his wife were enjoying the best of health.

See Dr. Wood, eyesight specialist, at Morris house next Monday afternoon.

## ADVERTISED LETTERS.

Mrs. J. LaOrange.  
Mr. James Felix.

Has Put in Old Type His Last Take and Locked up His Last Form.

"Billy" Melross, one of the brightest printers that ever went down the pike—is dead. He died in a Chicago hospital sometime since. He died alone without a relative to console him in his last hours. He would never reveal his past history, nor state where his relatives were. He was a writer of ability and once wrote a beautiful poem on the beauties of Lake Maxinkuckee. He was a gentleman of education and culture. He was a well known character in Culver, and but for the too frequent use of intoxication liquors, could have reached the highest plane in his profession. As we pause and reflect on his mispent life, we cannot help but say, young men, if you wish to succeed in life, cut out strong drink. It downed "Billy" Melross, and it will down you if you keep up the pace. Peace to his ashes.

## A CARD.

Having completed my official duties at Indianapolis, I shall be glad to meet my many friends at my law office on any matters of business that may be entrusted to me.

JOHN W. PARKS, Plymouth, Ind.

## MORE RIOTS.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by other collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Bile as Electric Bitters. It's a wonderful tonic, and effective medicine and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuritis and expels Malaria germs. Only 50c, and satisfaction guaranteed by T. E. Slattery, Druggist.

## THOSE SMALLPOX CASES.

By urgent request of interested parties, I desire to say to the public that I have this day visited the homes of George Zechiel and Samuel Frye and find the smallpox cases there, practically recovered. Their personal rooms and effects have been thoroughly disinfected and are placed beyond the power of conveying contagion. The sequel has shown these cases to have been veritable smallpox and very contagious. Members of both families, who were obliged to stay in the same home and had never been vaccinated, invariably were taken with the disease, while those who were vaccinated had no symptoms of it at all. The same thing existed in the Heminger families of West Township. What a proof of the value of vaccination as an immunity against the disease. I am glad to say that the danger which threatened the community through infection from these cases, has passed by, and in account of the faithful adherence of all exposed persons to quarantine regulations, and through the ceaseless activity of Mr. Melbourne, the town health officer of Culver, who might have been a public calamity, has been happily averted.

## SUNDAY SCHOOL CONVENTION.

The Union Township Sunday School Association met in convention in the M. E. Church, Culver, Saturday, March 7. Owing to the inclement weather there were but a few present for the forenoon session. The president, Henry Zechiel, called the convention to order at 11 o'clock. After a short song service led by the president, Rev. G. Streeter, pastor of the M. E. church then led in prayer followed with song.

Mr. Samuel Easterday, Miss Minnie Zechiel and Miss Clara Blanchard were elected to nominate officers for the ensuing year. It was then moved that the convention be adjourned until 1:30 o'clock.

The afternoon session was opened with a song service, scripture reading and prayer by Rev. Brown pastor of the Evangelical church.

Mr. Henry Zechiel, Mr. Otto Stahl, Miss Minnie Zechiel and Mrs. S. Buewell sang a selection entitled, "Make the World Brighter," this was a soul thrilling selection and in perfect keeping with the convention work. The secretary being absent E. C. Baker was elected to fill that place. The first subject for consideration for the afternoon was very ably handled by Samuel Easterday superintendent of the Evangelical S. S. giving some excellent reasons "Why am I in the S. S.," followed by a paper read by Miss Laura Macey representing the S. S. of the church of God of Burr Oak. Both papers were very practical in every detail and highly commendable. Others participated in the discussion. Miss Ethel Streeter favored the convention with a recitation of high order in a very eloquent manner. Rev. Clapham took up the second subject, giving some excellent pointers as to "What Impression Should a S. S. Make in its Community," first, that it should be expansionist, going out into the highways and byways, constraining the indifferent to join its ranks and that "God is no respecter of Persons." Prof. I. S. Hahn said it should impress everybody "for a greater knowledge of the bible." Rev. Brown gave as one of the important factors along this line the character of the school should be of the purest and highest order, and that the S. S. does not exist alone for the instruction of children and old ladies, but for everybody. Other subjects were called for and discussed by a number of S. S. workers who were present to lend a voice in the deliberations.

Rev. Streeter read a resolution in commendation of the work of the retiring officers. Resolved—that we extend our high appreciation to the retiring officers of the association for their able and excellent services, and that we extend our sympathy and aid to the incoming officers. Wm. Norris was elected president, A. A. Keen, vice-president and Mrs. E. L. Davis secretary and treasurer.

The date of the county S. S. convention was announced by the president for March 12 to 14 at Bourbon, Ind. The congregation then joined in singing "God be with you till we meet again." Rev. Brown pronounced the convention closed.

F. C. BARNES, Sec.

Herman Alton Seylor and Albertine Louise Zank were married Sunday March 8, at 2 p. m., in the German Lutheran church, Winona, Starke county, Indiana. Guests besides the bride's parents were Mr. Seylor's parents of Oak Wood, Wisconsin.

What Was Required.  
"How are you getting on in your new position as stenographer? Are you accurate?"

"Accurate! I should say not. If I was I'd be discharged to-morrow. I simply get at the sense of what the boss wants to say and then express it grammatically."

The drinking of kerosene is such a growing evil in France that measures are being proposed to combat it. This vice has long prevailed among the Indians of the South Pacific and to such an extent that the importation of kerosene for drinking is an important trade in Peru and Bolivia.

## WHAT CONGRESS DID.

### WORK OF THE FIFTY-SEVENTH BODY OF LAWMAKERS.

What Has Been Accomplished in the Way of Legislation—Opinions Differ as to Most Important Acts—Some Consider Body Too Conservative.

Washington correspondence:

NOW that the Fifty-seventh American Congress is a thing of the past, it takes but little more than a glance in retrospect to show that it was a hard-working body which accomplished much in the way of legislation regarded by the majority of people as being in the main unsensational and salutary.

Opinions differ as to the most important work of the Fifty-seventh Congress, the anti-trust legislation being thought by many to hold the first place. As far as anti-trust measures are concerned, the advance has been marked. First came the beef trust excitement. Then the railroad merger forced sharp public criticism, and then, to increase the public's hostile feeling against the trusts, came the coal strike, which, perhaps, more than anything else called attention to the vast power of the big corporations.

Congress heard and acted. The Department of Commerce and Labor was established, and Senator Nelson's amendment providing for a bureau of public utility was adopted. This bureau has authority to insist on the making public of the operations of all great corporations.

Legal authorities have held that the Sherman anti-trust law did not go far enough. It was this feeling that made the Fifty-seventh Congress pass a special act making more rapid the progress of suits against the trusts under the statute as it exists. Attorney General Knox, acting under the power newly given, has put force into action to expedite the suits against the railroad merger in the Northwest.

Touching this matter of railroad combinations, the Elkins bill, which has become a law, is of interest. It provides heavy fines for the giving or receiving of rebates. It has been charged that discriminating rebates were the means of building up monopolies like the coal trust and the Standard Oil Company.

Congress, as one of the first acts of the session, passed a bill suspending the tariff on coal of all kinds coming from foreign countries.

The matter of the immigration alien measure is considered to be the value. The bill as passed by the House contained educational features by which it would have been possible to bar from the country undesirable foreigners. The Senate killed the educational clause. The law as it stands is merely an improvement on the old statute in that it strengthens the administrative power of the former law.

Measures of importance to our eastern possessions have become laws as the result of the work of the last session. A currency system was provided for the Philippines. Another act promoted the efficiency of the islands' constabulary, and still another law for its object the extradition of criminals from one island to another. An appropriation of \$3,000,000 was made to relieve the distress caused by the inhabitants of the Philippines caused by ravages of disease among the water buffaloes, upon which the inhabitants depend for agricultural work. Hawaii is interested in the passage of an act for the redemption by the United States of Hawaiian silver money, and in the appropriation to pay judgments growing out of the destruction of property in the suppressing of the bubonic plague.

The bankruptcy law has been amended and a large number of bills of interest to different localities have been passed, together with several private pension bills. A new building to cost \$1,500,000 was authorized for the Department of Agriculture.

The omnibus public building measure was the cause of differences between the House and the Senate, but the conference finally reached an agreement and \$750,000 was added to the new Chicago postoffice appropriation, an amount believed to be sufficient to finish the structure.

#### Killed Ship Subsidy Bill.

While the Fifty-seventh Congress did much in an affirmative way, it negatived several measures that were strongly urged. The ship subsidy bill, which had powerful influence back of it, was killed. The statehood bill, after a long fight, was shelved. Mr. Quay, one of its chief sponsors, deserting its cause. The tariff was left alone.

Senator Aldrich's treasury plan bill was killed during the last hours of Congress. Certain clauses of the measure had aroused the hostility of bankers, and this, coupled with the long fight over statehood in the Senate and the Democratic filibuster, killed the bill.

The Lodge Philippine tariff measure also went down to defeat at the last moment. The tobacco and sugar interests fought the bill from the start. Liliuokalani, once Queen of Hawaii, but now a resident of Washington, will not get the \$200,000 voted to her by the Senate to compensate for property taken by this government. The House refused to give the dusky queen a cent. It was stated in the lower branch that the lands for which she demands payment never belonged to the crown, but to the state.

### ADIEU OF HENDERSON.

Tribute to the Retiring Speaker Closes the House Session.

A touching tribute to the retiring Speaker and a valedictory address by Mr. Henderson, who was greeted with an enthusiastic demonstration, closed the session of the House of the Fifty-seventh Congress.

As usual, the scenes in connection with the closing attracted vast crowds. They besieged the portals of the House even before the doors were open and when the seats in the galleries were filled they stood in long lines outside waiting patiently for admittance. The veteran chairman of the appropriations committee, Mr. Cannon, with a red carnation in

DAVID E. HENDERSON.

in Congress was seen to nod, ascend the rostrum. The Speaker was smiling and serene as he faced the House, gave his final address.

As the roll call was concluded a remarkable scene occurred. Speaker Henderson yielded the gavel to Mr. Cannon, the incoming Speaker. As the latter took the chair the members broke into a burst of applause in which the galleries joined. It was quite as much a compliment to the retiring Speaker as to Mr. Cannon. The Speaker retired to his room in the rear of the hall.

Amid intense silence Mr. Payne, the majority leader, then arose and offered the following resolution of thanks to the retiring Speaker:

"Resolved, That the thanks of this House are presented to Honorable David E. Henderson, Speaker of the House of Representatives, for the able, impartial and dignified manner in which he has presided over its deliberations and performed the arduous and important duties of the chair during the present term of Congress."

### WRIT FORBIDS STRIKE.

Wabash Railroad Injunction Is Most Sweeping Ever Issued.

The injunction issued at St. Louis by Judge Adams of the Federal District Court against the employees of the Wabash Railroad absolutely forbids the men from going on strike. It is the most sweeping court order ever issued in a strike in the United States and its effect leaves the men in a quandary as they cannot strike without being in contempt. Officials of the Brotherhood of Railroad Trainmen and the Brotherhood of Locomotive Firemen say the men will obey the order and make a legal fight to have it rescinded.

The demands of the employees on all divisions of the road are for an increase in wages of from 12 to 15 per cent, and, according to the ultimatum sent President Ramsey, 2,500 men are directly involved, although engineers, brakemen, conductors and telegraphers, numbering approximately 50,000 more, may be drawn into the struggle.

The injunction forbids the men—  
1.—To order, coerce, persuade, induce or otherwise cause, directly or indirectly, the men to quit the service of the company.  
2.—To molest or interfere in any way with the business of the company.  
3.—To order, advise or otherwise influence men on connecting lines to refuse to interchange traffic.

## PRESIDENT FULLER OF THE JEWELERS' ASSOCIATION

### Threatened With Loss of Hearing, Smell and Sight From the Ravages of Catarrh.

Pe-ru-na Cured Him.

"I Feel Like a Young Man Again."

Mr. J. W. Fuller.

A GREAT many remedies to temporarily relieve catarrh have been devised from time to time, such as sprays, snuffs, creams and other local applications, but, as a rule, the medical profession has little or no enthusiasm in the treatment of catarrh, although that herald demand a cure them to pound which would cure catarrh permanently.

The remedy was named Peruna and in a short time became known to thousands of catarrh sufferers north, south, east and west.

Letters testifying to the fact that Peruna is a radical cure for catarrh began to pour in from all directions.

Thousands of such letters are on file in the office of The Peruna Medicine Co., Rev. E. S. Starnes, Toledo, Wis., who writes: "I feel obliged to extend you my personal thanks for my complete restoration. All through the winter I suffered from throat and lung trouble, but recovered my entire health by the use of your excellent remedy, Peruna."

The following letter from a prominent gentleman of Los Angeles is a case in point:

Mr. J. W. Fuller, President of the Jewelers' Association of Los Angeles, Cal., has been in business in that city for seventeen years out of the forty-five that he has been engaged in business. Concerning his experience with Peruna he says:

#### Rain in Manila.

"What is rain in Manila," says a man who has been there, "you think the first time you see the spectacle that the end of the world has come. Why, one day in September that I was there it rained thirteen inches. You would think that would weary the elements for some time, but it did not. The next day it rained a foot, the day after that seven inches. 'Where does the water go to?' asked a listener. 'Right back where it comes from,' was the prompt reply. 'After a down-

fall the sun will come out hotter than ever and you can fairly see everything steam, and yet there are a great many people who wouldn't live anywhere else except in Manila."

#### Shifting the Blame.

"Do you stand high in the opinion of the Gossams?"  
"I'm afraid not. When Mr. Gossam introduces me he says I'm an old friend of his daughter, and when Miss Gossam introduces me she says I'm an old friend of her father."—Indianapolis Sun.

## THE TEST OF GOLD.

A Vast Number of Kidney Suffering People, Cured by Doan's Kidney Pills, say but for the Free Trial they would still be in Agony. This means Golden Merit at your Command to Test.

COLUMBUS CITY, Ia., Feb. 10, 1908. — I received the sample package of Doan's Kidney Pills and took them according to directions. They did me so much good, I procured a 50-cent box at the drug store and have been greatly benefited. I had the backache so bad I could hardly walk; also had urinary troubles, that caused me to get up two and three times of a night. I am all right now. Long may Doan's Pills prosper. Yours truly, A. C. SERN.

Severe and long standing cases should take advantage of free Medical Advice.

GRAND RAPIDS, MICH., Feb. 17, 1908. — I received the trial package of Doan's Kidney Pills promptly and can truly say they are all and even more than recommended. I suffered continually with a severe pain in the back, which the pills entirely overcame, and I am able to work, which would not have been possible but for Doan's Kidney Pills. Mrs. J. A. SCHLAMP, 955 Buchanan St., Grand Rapids, Mich.

Aching backs are eased. Hip, back, and loin pains overcome. Swelling of the limbs and dropsy signs vanish. They correct urine with brick dust sediment, high colored, pain in passing, dribbling, frequency, bed wetting. Doan's Kidney Pills remove calcium and gravel. Relieve heart palpitation, sleeplessness, headache, nervousness, dizziness.

## LOOK in YOUR MIRROR

What would you give to be rid of those pimples and blackheads, that sallow complexion, those lustreless eyes? No doubt you would give 50 cents to be cured of constipation, liver troubles, indigestion and dyspepsia. Get rid of these troubles and your complexion will clear up like an April day after a shower. Take

### Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Hahn, No. 1223 Michigan Ave., Chicago, Ill., writes: "For two years I have been troubled with biliousness caused by inactivity of the liver. I had dizzy spells at times, pains across my back and a tired, heavy feeling with loss of appetite and nervousness. My family physician prescribed some liver tablets which certainly did me little good. In the last I took Apollinaris and other mineral waters, but my complexion became more yellow and my general health worse. Reading one of your little booklets, I decided to give Dr. Caldwell's Syrup Pepsin a trial and am so glad I did. One bottle did more for me than ten bottles of other remedies. I began to feel a little better, and after a few days I was completely cured. My skin is white and smooth as a baby's and I feel in excellent health and spirits. Thanks to your remedy."

## COMMERCIAL AND FINANCIAL

New York.

Milder weather not only accelerated the demand for many lines of merchandise, but relieved the pressure for fuel, which threatened to become a serious matter, and incidentally facilitated efforts to reduce the freight congestion. With no other retarding feature than the holiday, business fully maintains its gratifying position. Returns of both domestic and foreign trade are fully equal to those of the same month last year, and in many cases there are marked gains. The people are consuming on a scale never before equaled, as evidenced by the enormous distribution and continual inquiries for prompt shipment. Firmly held quotations also bear testimony to the fact that demand is often greater than supply. The foregoing is from the Weekly Trade Review of R. G. Dun & Co. It continues:

Increased interest has been displayed by purchasers of all products of iron and steel, giving a decidedly firmer tone to the market and in many instances quotations have advanced. One of the definite changes was a rise of \$2 a ton in wire products, which was not a surprise, and a new ore schedule averaging over 25 cents a ton higher. This makes every step of the process more expensive to the independent producer, ore, pig iron, coils, wages and freights having reached a higher position. To the leading producer, however, the situation is less disturbing, as most of these factors are under one control, and it will be possible to hold prices of finished steel at a fairly conservative position. A very heavy tonnage of pipe has been moved on old orders and considerable new business is reported.

Few additional advances have occurred in quotations of cotton goods, the developments of the week being chiefly in the direction of establishing the market on the higher basis that was suggested by earlier spasmodic advances. There is more conservatism on the part of buyers. Business in woollens has fallen off unexpectedly, some early buyers reducing the size of their initial orders, while in a few exceptional cases there have been complete cancellations. This change of front is attributed to the fact that manufacturers have not held to opening prices.

New England shoe shops have secured moderate advances in several grades of footwear, chiefly of fall styles in demand by western buyers. Other divisions are very firm and the entire market exhibits an upward tendency. Quotations of leather are fully maintained, although trade is quiet in sole. Foreign dry hides are strong but inactive owing to light stock and restricted arrivals.

Failures this week numbered 211 in the United States, against 215 last year, and 28 in Canada, compared with 35 a year.

**Bradstreet's Grain Figures.**  
Wheat, including flour, exports for the week ending Feb. 26 aggregate 2,656,879 bushels, against 2,713,702 last week, 3,234,740 in the week a year ago and 5,283,818 in 1901. Wheat exports since July 1 aggregate 100,702,648 bushels, against 189,104,095 last season and 104,295,952 in 1900.

Corn exports aggregate 2,805,969 bushels, against 3,730,457 last week and 4,185,440 in 1901. For the fiscal year exports are 30,730,582 bushels, against 23,118,900 last season and 151,730,324 in 1901.

### Teeth Are Venerated.

Teeth of all kinds have been worshipped and are, in fact, venerated as relics in some religious shrines. Buddha's tooth is preserved in an Indian temple, the Chinese worship the tooth of a monkey, while the elephant's and shark's tooth serve a similar purpose among the Malabar and Tonga Islanders respectively. The Siamese were formerly possessors of the tooth of a sacred monkey, which they valued very highly, but in a war with the Portuguese they lost the holy relic and had to pay \$5,000,000 to get it back again. It is now kept in a small gold box inclosed in six other boxes in one of the many temples of the Siamese capital.

### He Went West and Prospered.

Freeland, Kan., March 9.—One of the most prosperous farmers in Harper County is Mr. N. H. Mead. Some thirty-four years ago he left his home near Clarence, N. Y., and came to Kansas. Here he has thrived splendidly and last year harvested over one hundred and forty acres of wheat alone.

But everything has not gone well with Mr. Mead, for his health has not been good for the last few years. He has suffered a great deal with kidney and bladder trouble and could get nothing to stop it. Lately, however, he has improved a great deal and he says that he has none of the old symptoms left and is feeling splendid again. He used Dodd's Kidney Pills and this remedy seemed to work wonders in his case. He says himself:

"Dodd's Kidney Pills have made me well. They are all right and a reliable remedy for kidney trouble. They helped me right from the start, giving me great relief, and finally cured me."

### Breaking It Gently.

"My boy," said the managing editor to the space writer, "I don't want to say anything unkind, but you certainly make me think of a burlesque actress."

"How so?" inquired the young man, realizing that he was expected to ask the question.

"You have the art of padding down very fine."—Chicago Post.

### THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What Is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain permanently to universal acceptance. However loudly heralded, they may not hope for world-wide prominence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting, enjoying and learning the real worth of the choicest products. Their commendation, consequently, becomes important to others, since to meet the requirements of the well informed of all countries the method of manufacture must be of the most perfect order and the combination the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician who is well informed and he will answer at once that it is an excellent laxative. If at all eminent in his profession and has made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually, when a laxative is needed, without any unpleasant after-effects. Every well-informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it, at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only; the name of the remedy—Syrup of Figs; and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.

## AN ARCTIC MEAL.

**Getting Supper for Men and Dogs  
on the Polar Ice Sheet.**  
Dogs were exhibited and fastened, as  
usual, and then each of the Eskimos  
climbed over the ice foot with his snow  
knife and disappeared behind the por-  
tals, where the other two were already  
waiting snow blocks. I fastened my  
dogs, got out their ration of pemmican,  
put it up and fed them, standing by  
with whip in hand to see that there  
was no bullying, and that each dog got  
his share. Then I unpacked the cooker,  
put in an and kitchen box, passing them  
up the ice foot as high as I could reach.  
I did not wait for the completion of the  
light to commence my preparations for  
supper, but with a few strokes of the  
spade excavated a shelf to the stove-  
bank, put the cooker in out of the wind,  
filled the lamp with oil and the boiler  
with tea, placed a few snow blocks  
around it for still better shelter and  
lighted up. By the time the light was  
completed I had enough water melted  
for our tea, and supper was entirely  
ready by the time my men had fed the  
dogs, and they sat on time in feeding  
their clothing of snow and joining me  
in the light. Still less time was con-  
sumed in putting away the tea and bio-  
cut and pemmican, and less again in  
falling off to dreamless slumber.—Com-  
mander Robert E. Peary in Outing.

## Plants That Wear Overcoats.

Plants have developed since a man  
designs for perpetuating their existence  
as animals, only we don't so easily re-  
cognize them. And it ever again you  
that every seed, bulb or tuber is not  
merely a reservoir of material for the  
plant (let it be to grow out of it, but also  
a mass of fuel for supplying heat nec-  
essary to the sprouting seedling). More  
than this. If you look at the early  
spring birds and flowers, you will notice  
that those which are likely to be ex-  
posed to frost, such as crocuses or wil-  
low and hazel, are well protected by a  
thick covering of soft material, a reg-  
ular plant overcoat.

## So Still.

Major Paine, the lecture lecturer,  
was negotiating with John Ketcher  
Barnes for the lecture on "The Psy-  
chology of the Human Mind." The lec-  
ture was made by him in the hall of  
the lecture, and Barnes replied that he  
knew of Adam and Eve and came  
down to the present day.  
"Can't you give me something more  
than that?" the manager asked J. K.  
The Paine man reflected for a mo-  
ment and then said, "I shall write to  
some of your folks if you think the au-  
dience will stand it."

Appointed to Kill Slavery and Polygamy and to Mitigate Unsanitary Conditions—Duluth Murderer Shows Unshaken Nerve on the Scaffold.

Slavery and polygamy, annexed with a lot of other things when we retired from Spain from her Pacific colonies in 1898, are now to be wiped out in the Asiatic United States as they have been in the United States of North America. That is the real purpose of the assignment of Gen. Leonard Wood to duty in the Philippines. In all the official references to his new duties the impression has been conveyed that he was to go into the Moro country to "clean it up" and put things into a more wholesome civic and hygienic condition, as he did in Santiago after the close of the Cuban war, and it is further known that his ultimate destiny is the supreme command in the Philippines, which his friends hope he will be able to make the stepping stone to the head of the army at home. But Gen. Wood will not go to the Philippines by the most direct route. He will pass slowly through Europe and make one or two stops by the way, even after he reaches Asiatic waters. This is with a view to picking up some information and suggestions from European governors of experience in such matters as to the management of polygamists and slaveholding native people.

#### HEAVY FIRE LOSS AT LA CROSSE.

##### Three Men Narrowly Escape Death—Loss Exceeds \$50,000.

Three thousand people, most of whom were returning from church, witnessed a fire in the heart of the business section of La Crosse, Wis., in which three men nearly lost their lives and which entails damage amounting to \$50,000. For a time the entire business portion of La Crosse was threatened with destruction. The fire originated in the upper portion of the Radford Building, and the big plant of the La Crosse Engraving Company, containing thousands of dollars' worth of machinery, and the stock of Stevens & Hubert, clothiers, was totally destroyed. The Loeffler Tailoring Company, adjoining, also sustained a loss of 50 per cent on stock. The building is a total loss.

#### MURDERER DIES WITHOUT FEAR.

##### Slayer of Chicago Negroes at Duluth Shows Remarkable Nerve.

Charles E. L. Henderson, colored, was hanged at Duluth for the murder June 21 last of Ida McChesney, colored, who came from Chicago. Henderson's nerve was remarkable. He did not show a trace of fear at death, presented a testament to the sheriff, gave rises in the deputation and made a half-hour speech in which he expressed no sorrow. The McChesney woman said in Henderson's hearing that she no longer loved him, and he sprang from a hiding place and stabbed her seventeen times with a long knife.

#### Find Chicago Woman Dead.

The body of a woman who apparently had been dead for several days was found in a furnished rooming house in West Thirty-seventh street, New York. She came to the house a few days ago, accompanied by a man, who said that they had come from Chicago and desired to remain in the house for a few days. The woman's name is believed to have been Nellie Fletcher.

#### Cook Burns \$5,000 in Stove.

A pearl necklace reported lost or stolen by Mrs. R. R. Campbell of Chicago, and for which detectives were searching for several days, was found in a heap of ashes at her home, burned in a stove. The necklace, which was valued at \$5,000, was thrown into the stove by the cook while preparing dinner.

#### Steamer Sinks Ferry-Boat.

#### ACCUSED OF BIG SWINDLE.

##### Margolius Arrested in Chicago on Charge of Fraud.

George Margolius, a Montreal merchant, is locked up at Central station in Chicago. He is charged with swindling Montreal and New York houses out of merchandise valued at \$30,000. He would get goods on credit, it is alleged, and sell them for less than cost. A description of him was sent out by Silas Carpenter, chief of detectives of Montreal. Detectives Hugg and Larkin of Central station saw him at Forty-fourth and Grand avenues. He answered the description of the criminal. When asked his name by the detectives he gave a fictitious one. They told him he was wanted at Central. When searched he had clippings from newspapers telling how he had swindled the people. Letters addressed to him were also found on his person. He then admitted his identity. An officer from Canada will be sent for Margolius.

##### Death of Rockefeller's Grandson Results in Dr. Flexner's Discovery.

The death of his grandson turned the attention of John D. Rockefeller to the question of the discovery of an antitoxin which will destroy the germs of cholera infantum, and now it is announced by Dr. Simon Flexner, a director of the Rockefeller Institute of Medical Research in Baltimore, that a serum has been obtained that will destroy the bacilli. As a result of investigations in Johns Hopkins hospital the qualities of the serum have been determined, and the perfecting of the process, it is said, will require but a few months longer. Dr. Flexner says the result will be given to the world before the end of the year.

#### GIRLS CAUGHT WITH JEWELS.

##### Young Women from Chicago Arrested at Oakland, Cal.

Helen Miller, 16 years old, and Grace Seigler, 17 years old, were arrested in Oakland, Cal., with \$1,000 worth of jewelry in their possession. The jewels were stolen from the home of Ernest R. Folger, where the Miller girl was employed as maid. The girls say they ran away from Chicago with Autone Montana and Frank Calhoun, young Italians, who induced them to go West. Both young men also were arrested. They were armed with revolvers and had money and books showing modest bank deposits.

## CONGRESS

How Congressional Budgets Grow.  
The following table shows the appropriations of Congress since the Reed billion-dollar session:

51st Congress	\$1,055,080,100 94
52d Congress	1,027,104,547 92
53d Congress	990,588,021 04
54th Congress	1,044,588,273 87
55th Congress	1,508,212,037 84
56th Congress	1,840,032,545 35
57th Congress	1,554,305,519 00

At 11 a. m. Tuesday the Senate entered upon the last legislative day of the Fifty-seventh Congress. A resolution was adopted continuing until the next regular session the standing and select committees. The conference report on the sundry civil bill was agreed to. The conference report on the bill to protect the President was presented, but not acted upon. A motion to take up the pure food bill was defeated, 28 to 32. Mr. Quay asked unanimous consent for a vote on the omnibus amended bill, the pure food bill and the conference report on the bill to protect the President, but objection was made. After debate by Messrs. Foraker, Lodge, Teller and Elihu on the responsibility for the filibuster and the need of closure in the Senate it was agreed that the Philippine tariff bill be taken up, displacing the Adolph bill. Mr. Patterson opposed the bill and Messrs. Bacon, Lodge and Foraker supported it. The conference report on the omnibus public building bill was agreed to after Mr. Warren had criticized the Senate conferees for yielding on certain items. A joint resolution was agreed to transferring all the authority and jurisdiction conferred on the Secretary of the Treasury by the immigration bill to the Secretary of the Department of Commerce and Labor. Messrs. Carmack and McEnery spoke in opposition to the Philippine bill. The amendment increasing the duty on sugar and tobacco from 25 to 50 per cent of the Dingley rate was agreed to on a yeas and nays vote, 29 to 19. The conference reports on the naval and general deficiency bills were presented and agreed to. When the House convened at 11 a. m. Mr. Richardson sought to make the point of no quorum, but the Speaker overruled him and recognized Mr. Payne to demand the yeas and nays on the pending question coming over from Monday night—the adoption of the conference report on the immigration bill. The Speaker declined to entertain an appeal. The report was adopted 197 to 17. The conference report on the omnibus bill was adopted, 202 to 11, without debate. The conference report on the bill to reduce the population requirements for "reserve" cities for bank deposits from 50,000 to 25,000 was presented, and after a recess from 7 o'clock until 10 o'clock, was adopted. A bill intended to give former soldiers and sailors preference for appointments and retention in the civil service was passed, 148 to 57.

The Fifty-seventh Congress adjourned at noon Wednesday, its term having expired by limitation. With decks clear of all supply bills, the appropriation measures for the several branches of the general service for the coming fiscal year having been disposed of, the House at 4:10 Thursday morning took a recess until 10 o'clock. Bills granting 40 Mexican war soldiers a pension of \$12 a month, and allowing country banks to secure currency on bond deposits were passed. The conference report on the naval bill, agreed to by the Senate, was adopted. The House won a victory over the Senate in the measure as finally passed. It provides for three battleships of 16,000 tons each, as desired by the Senate. The conference report on the general deficiency bill was agreed to. The Senate at 1:52 a. m. took a recess until 10 a. m. Mr. Quay at the last moment withdrew his vetoed amendment, offering a Senate rider to the Philippine tariff bill which had been under consideration for the greater part of the evening. The House was declared adjourned sine die at 12:03 by the clock amid the singing of patriotic songs and a general ovation to Speaker Henderson.

The Fifty-seventh Congress appropriated more than \$1,500,000,000. Senator Allison made a brief statement in the Senate. He said that a total of \$1,554,105,519 had been spent by this Congress. Of this sum \$800,624,496 was expended or authorized to be expended during the first session, while \$753,484,018 is the total of the appropriation bills passed at the session which ended Wednesday. The Fifty-seventh Congress expended the appropriations of the Fifty-sixth by approximately \$115,000,000. Mr. Allison explained the reasons for the large increase. He said the river and harbor bills, the isthmian canal bill, the increased postoffice appropriations, the public building bills and other appropriations of such a character raised the aggregate to the immense total given above. In the House Mr. Cannon made a similar statement.

#### In the National Capital.

Senate passed the bill appropriating \$50,000 for a statue of Count Palisak.

Brig. Gen. John V. Furey, recently promoted from colonel in the quartermaster's department, was retired the other day.

The Navy Department has prepared a plan for uniform naval increase, calling for building of seventy-two first-class fighting vessels in next twelve years.
