Mr. and Mrs. C. G. Replogle entertained Bert Martin and lady of South Bend on Sunday.

Mart Jones joined the North Dakota party last Sunday and Jones will go next Sunday. Belle Mrs. Geo. Davis and Mand Miss Will visited Al Thompson Sunday.

Miss P. A. Swayhart of South Bend is spending the week here as the guest of Mrs. J. W. Riggins.

Rev. F. G. Howard and wife of Kewanna were in Culver Saturday renewing former acquaintanceships.

Mr. and Mrs. Garver of Fort Wayne were in town Sunday to visit their daughter, Mrs. Capt. Wiseman.

Mr. and Mrs. W. E. Hand spent the first part of the week visiting their daughter, Mrs. Will Cook, in Rockford, Ill.

A. D. Easterday has located in Michigan City and is having some of his goods which were stored here shipped there.

E. E. Landis, principal of the Culver high school for the past two years, has been visiting friends here this week.

Mrs. Thomas Slattery and daughter Ramona are away for a visit of several weeks in Benton Harbor, St. Joseph and Chicago.

Perry Brewer and family were guests of W. S. Easterday Saturday and Tuesday while going to and returning from Kentland.

Mrs. H. N. Blair and daughter of Bolivar, and Mrs. Dr. I. L. Babcock of Germany attended the funeral of their aunt, Mrs. Catharine Parker.

Rev. Forest Taylor, a former pastor of Culver M. E. church, has been visiting among his old parishioners this week. He was accompanied by his wife.

Harry Brubaker, who has been occupying rooms over the Citizen office, leaves with his family on Sunday for North Dakota to remain during the grain season.

O. H. Porter of Rutland left this week for North Dakota to remain during the harvesting and threshing of the wheat crop. His brother Arthur has gone to Logansport and Kentland for a few days' visit.

F. A. Forbes of the Plymouth Seed Store and Mr. W. H. Kirkpatrick of Kokomo made a business trip to Culver last Thursday.

Sam Osborn and Jacob Myers went to Minneapolis on Monday as representatives of Henry Speyer post, G. A. R., to the national encampment. They will return Saturday.

Mrs. Frank Smythe and son Gordon, accompanied by Mrs. Sue Hickman, have gone to Chicago for a visit. Mrs. Smythe and son expect to return to their home in London, Canada, soon.

Arthur Zechiel came into town last Sunday and took out to his home his father, mother, brothers and sisters and two or three special friends, fifteen in all, and served them with a fine dinner.

Mr. and Mrs. Geo. Davis were the guests of J. O. Finch of Indianapolis on a long ride Tuesday in the latter's new auto car. They made the circuit of Delong, Monterey and points in Starke county.

Louis McDonald, formerly of the Plymouth Democrat, now business manager of the Columbia School of Music, Chicago, and wife are spending their vacation with Mr. and Mrs. Daniel McDonald at the Wigwam, Pottawattomie reservation.

A number of old friends of Mr. and Mrs. O. T. Goss brought their dinners and spent a pleasant Sunday in Culver. The party included Mr. and Mrs. Charles Smith, Mr. and Mrs. George Griel, Mr. and Mrs. Rudolph Price of South Bend and Mr. and Mrs. D. C. Smith of Plymouth.

J. H. Barnes, who lay sick at his farm a few miles from Culver for a number of weeks, was taken to his home in Warsaw about ten days ago by his wife and daughter, Mrs. J. St. Clair Bottoroff. He stood the trip as well as could be expected, after his very sick for several days, proving slowly. He is now improving.

Church Notes.

Rev. F. G. Howard of Kewanna held a special service at the M. E. church on Saturday afternoon and administered the rite of immersion to James Hemminger and E. E. Landis. The latter was taken into full membership on Sunday morning. Mr. Hemminger was already a member.

Rev. Mr. McLean of St. Louis, who is spending a few days at the lake with D. B. Young, preached at the Christian church Sunday evening.

The Ladies' Aid society of the Christian church will meet this afternoon with Miss Irene Bogardus.

The Reformed Sunday school will meet next Sunday at 10 o'clock in the basement.

The Culver School.

Outside of West Point, the government training school from which it replenishes its army, one will not in the United States find a duplicate of the Culver academy. Through the winter it is a military and preparatory school for boys, and through the summer period of relaxation it is a naval school for development of growing, active boys. The naval course is attractive to hundreds of boys from cultured families, and it has so expanded that it has become international in character.

Adjourned Meeting.

Our citizens should not forget the adjourned mass meeting tomorrow (Friday) evening to take further action in the matter of organizing an independent telephone company and to hear the report of the committee appointed to confer with the Central Union officials.

The Howard ice cream factory manufactured nearly 300 gallons of ice cream last week.

Did you notice the remarkable low prices on furniture at the Department Store?

AROUND THE LAKE

Mrs. W. J. Carson has returned from Chicago.

R. Wilkinson of Indianapolis is visiting Henry Bliss.

Mr. and Mrs. Osgood, who have been guests of Mrs. Dresser of Willow Spring cottage, returned to Evanston Monday.

Mrs. Judge Winfield gave a dinner party Tuesday to quite a number of her friends. It was very much enjoyed by all.

Mrs. C. B. Southwell of Burlington and Mr. and Mrs. J. V. Uhl of Des Moines, Iowa, are visiting Mr. and Mrs. C. E. Holbruner.

Mr. and Mrs. J. T. Stahl of Kendallville and Mrs. L. A. Douglas of Indianapolis are guests of Mr. and Mrs. W. J. Wood.

Mr. and Mrs. Frank Temple, who have been visiting Mr. and Mrs. Lewis Duenweg, have returned to their home at Terre Haute.

Mr. and Mrs. Mahalan and family, who have been visiting Mrs. Mahalan's mother, Mrs. A. J. Murdock, returned home Monday.

The Microbe club of Indianapolis, who are camping at Bass lake, were guests of Clarence Carson Thursday at Edgewater cottage.

Mrs. Brownell gave a dance to about sixty of her friends at her cottage on Monday night. Carter Smith served the refreshments.

For Sale—A square piano in good condition, of the Steinway. Will sell right. Call on Patrolman of Maxinkuckee Association.

Miss Marine Waldorf will give a dance Friday evening on the White Swan to her many friends in honor of her guest, Miss Marie Cleis of South Bend.

Mr. and Mrs. Dolan of Indianapolis arrived at the lake Saturday in their auto and spent Sunday with Mr. Dolan's brother and family on the West side.

Mr. and Mrs. James Sankey of Terre Haute, Mr. and Mrs. McLean of St. Louis and Mr. and Mrs. Charles Liechtenberger of Chicago are guests at Hotel de Chadwick.

Rev. Francis Fox of the Third Presbyterian church of Ft. Wayne held services, by request, Sunday evening at the cottage of Mr. and Mrs. W. H. Fulton. Quite a number of people were present.

Mrs. Osler, aged 72 years, caught and landed a 3-pound bass on a small minnow hook. Mrs. Osler says it is the first bass she ever caught, but we hope she may still spend many more summers at the lake and catch more bass.

Grube Family Reunion.

The Grube family reunion was held at the home of Henry Grube 3 1/2 miles southwest of this city, Saturday, Aug. 11. There were about 300 present and those who attended report an excellent time. A sumptuous dinner was served at the noon hour and the afternoon was spent in social conversation and other forms of amusement. Plymouth Independent.

BOOKWALTER PARTY.

Indianapolis Mayor and Family Entertain Lake Guests at Dance.

Mayor and Mrs. Bookwalter gave a most enjoyable dance on the White Swan Saturday night for their daughters Hazel and Eleanor and Miss Gladys Bookwalter. A great many Indianapolis people came for the dance including a large house party at the host's cottage. Everyone was glad the mayor could spare time from his duties in the city to help his friends have a good time. The barge was beautifully and artistically decorated with greens and Japanese lanterns. Before the bright gas lights were turned on, the young people being anxious to dance, the float was dimly but picturesquely lighted with many white and colored lanterns. The young folks were suspected of being sorry when the bright lights came on. The music was fine and the musicians were very accommodating about playing encores. There was great fun when all drew favors and matched for the blank extra. During the evening punch was served which was very refreshing to those who had been dancing. About 10 o'clock cherry ice cream and cake were served. Several cadets came over and that made it even more attractive. One unusual fact was that there were as many men as girls to dance, so they all had a good time.

FIRE AT THE LAKE.

Power House at the Bates Cottage Destroyed Sunday Night.

On Sunday evening about 8:30 o'clock the power house at Manana cottage, owned by Hervey Bates of Indianapolis, caught fire from some unknown cause and was completely consumed. The building was two stories. The lower story contained a gasoline engine, dynamo and a water pressure boiler. The upper story was used as a repair and carpenter shop by the proprietor. Fortunately the night was still and other property was not endangered. The loss is covered by insurance.

Plymouth Ball Team.

Plymouth's ball team closed the season on Sunday with a record of 24 games won and 13 lost. From a financial standpoint the enterprise has not been a profitable one for the stockholders, but as an advertisement for the town it has been worth something. There is a great deal of work, worry and thankless effort expended in managing a team in a small town, and few men are willing to undertake it. Those who do should be appreciated for their efforts to keep things moving and furnish entertainment for the public.

Academy Captain Bereaved.

Captain H. C. Bays was called home to Sullivan, Ind., on Monday by the death of his father, Hon. John S. Bays. Deceased was a prominent and wealthy lawyer, a member of the Southern Indiana Hospital board, at one time a member of the legislature, and the promoter of the merger which united the Indiana coal companies into an organization.

Notice.

As I will do my last baking on Saturday all persons holding bread tickets are requested to present them before that time.

THE COAST NOW CLEAR

No Financial Obstacle in Way of Town Having Waterworks.

THIS SHOULD SETTLE MATTER

Town Can Issue Bonds and Take Stock in Company.

The talk of waterworks still continues. And now the report of Attorney Parker on the feasibility of the plan proposed is received and is wholly favorable. Consequently the movement, in the course of the next week or two, will probably crystallize either into definite action or into complete abandonment of the idea.

It seems entirely within the truth to say that not one per cent of the people who are expressing their opinions on the street are opposed to getting a waterworks system here, and most who talk are not only for it but enthusiastically for it. There is a feeling, of course, that the village should proceed with caution. It would be bad to enter into something that the town could not carry through. But Attorney Parker's report largely dissipates this fear and places the consideration of the project on the basis altogether of popularity, and the ability to finance the scheme according to the plan.

Attorney Parker's report first gives an outline of a plan by which the village can secure the desired system, and then an illustrative set of figures to show how the plan works out. The important thing about the report is that there is no question in it as to the town's ability to buy, provided the additional amount necessary can be raised among the citizens and those having money to loan.

For the latter (that is those having money to put out at interest) the plan really offers an opportunity, for the security is gilt-edged, and the loan pays six per cent and is not taxable, in that respect being the same as government bonds.

To quote from the report: "The preferred stock presents the following advantages which, it would seem, ought to make it fairly desirable as an investment, or at least sufficiently desirable to induce a patriotic citizen to take and pay for a reasonable amount of it."

If those who feel then that it is to the interest of the town to have waterworks will loan a reasonable amount towards this end, piecing out the \$4000 which the town can raise, there seems to be no very great obstacle in the way to having fire protection and water in the house.

Since the foregoing was put in type the committee (Keen, Speyer and Slattery) appointed at a citizens' meeting to investigate the town's financial resources, have held a meeting and decided to recommend to a public meeting that the town proceed with the plan heretofore outlined and to contract with the National Construction company for putting in the compressed air system. The total cost to the town for the first year will be \$770, necessitating an additional tax of 33 cents on the \$100.

Prohibition Speeches.

I. G. Shaw of Francesville, Polaski county, prohibition candidate for congress in 13th district, will speak Aug. 21 in Green township at the Jordan church; Aug. 22, opera house, Argos; Aug. 23, West school building, Tippecanoe; Aug. 24, Albert's hall, Plymouth.

The Epworth league of the M. E. church will give an ice cream festival on the S. C. Shilling lawn Friday evening, Aug. 17, beginning at 6:30. Everybody cordially invited to attend.

NEWS FROM INDIANA

EVENTS OF GREATEST INTEREST THROUGHOUT THE STATE

DEED OF INSANE WOMAN

Pours Gasoline Over Sleeping Husband and Applies Match, Causing Death of Latter, Himself and Sister.

South Bend.—Two women were burned to death and one man was fatally injured in a frenzied effort of one woman to kill her husband, herself and all the other occupants of their home and burn the house. Gasoline was applied to the clothing of the three and was set fire with a match, the perpetrator of the deed herself being the first to die. The dead are Mrs. E. H. Denslow, 50 years old, No. 455 North Main street, her sister, Miss Jane Balfour, 45 years old and Dr. E. H. Denslow, husband of the deceased woman.

Dr. Denslow, the husband, received burns that caused his death.

Mrs. Denslow, who for two years had been considered unbalanced mentally, though not to an extent to cause her detention, entered the room of her husband in the afternoon with a pail of gasoline in one hand and a match in the other. Dr. Denslow was asleep and Miss Balfour was reading at a window. The demented woman threw the gasoline about and lighted the match, and in an instant the room was filled with flames. Firemen and policemen found Mrs. Denslow already expiring, her body having been burned to such an extent that it was almost unrecognizable. Her sister and Dr. Denslow were hurried to Epworth hospital, only two blocks away, but the woman died a few hours later and the death of the man occurred later.

An infant child of the Denslows was at the entrance of the room with its nurse when the flames burst out, but was carried to safety with only slight injuries. While the burns of Miss Balfour were being dressed she was informed of her sister's death. Though she was in almost unbearable agony she expressed forgiveness for her sister and compassion over the mental state that had led to the death.

WOULD HEAD INDIANA LINCOLN LEAGUE.

Evansville.—George D. Hellman, a young attorney of Evansville, has announced he will seek the presidency of the Lincoln League of Indiana, one of the strongest Republican organizations in the country. Hellman is the nephew of the late Congressman William Hellman, the first Republican to be elected to congress from the first Indiana district. He was chief reading clerk in the senate during the last session of the Indiana legislature.

Girl Can Not Be Aroused. Wabash.—Miss Maud, daughter of Mr. and Mrs. David Snow, near Converse, has been asleep since last Saturday night, with the exception of a few hours Tuesday, when she was kept awake with the greatest difficulty. She retired Saturday night in her usual health, failed to rise Sunday morning, and all attempts since then to rouse her, with the exception of the period on Tuesday, have been futile. She suffers no pain, and begs the attendants to let her sleep, saying she will be all right if they do not disturb her. The case is a curious one, and baffles the local physicians. Miss Snow is 23 years old.

To Investigate Loss of Records. Michigan City.—The council has named a committee to investigate the alleged disposal of certain city records which were said to have been taken from the basement of the city building and sold as junk. The allegation was brought out in the recent trial of City Treasurer Meyer, charged by Comptroller H. C. Vandusen with secreting city records, and who was afterward acquitted.

Baseball Player Acquitted. Indianapolis.—Charles Carr, manager and first baseman of the Indianapolis American association baseball club, has been discharged in the police court, where he answered to a charge of assault upon a spectator in the grand stand of the ball park here several days ago. He was acquitted upon a technicality as to the way the evidence was introduced. It was brought out at the trial by witnesses that the remark that Carr became angered at was in no way an offensive one.

In Trouble for Doing Duty. Fort Wayne.—Members of the local aerie of Eagles will try to expel Deputy Fish Commissioner Fleming from the order. He has had a number of his brother members fined for violating the game laws.

To Arrest All Using Profanity. Terre Haute.—Rev. E. W. Brickert, pastor of the Christian church at Sullivan, has served public notice that he will prosecute everyone he hears using profanity in public places.

MANEUVERS ARE BEGUN.

Soldiers at Fort Benjamin in Mimic Warfare.

Fort Benjamin Harrison, Indianapolis.—Brig. Gen. C. F. Humphrey, quartermaster general of the United States army, and Brig. Gen. Franklin Bell, chief of staff, are here to inspect the camp. Both officers have been inspecting western forts. They will leave for Washington as soon as their work here is done. The general maneuvers of troops in the camp of instruction began Friday. Four battalions of the Twenty-seventh and Twenty-eighth Infantry were opposed. Starting toward each other at a distance of two miles, each army established outposts and operated with knowledge of the vicinity of the enemy. Each man had 30 rounds of blanks. Gen. Carter witnessed the maneuvers. The Fourth regiment and the cavalry squadron maneuvered against each other in the afternoon.

Port Benjamin Harrison, Near Indianapolis.—Five thousand troops, including regulars and the Michigan National Guard, Monday engaged in infantry battalion drills, close and extended order, and outpost and rear guard exercises. The movements were not of the nature of maneuvers, but were ordered as preliminary to general maneuvers to introduce the Michigan troops to military life at camp and to harden them for the severe schedule arranged for the latter part of the week. The health in camp is unusually good. Brig. Gen. Carter and staff inspected the camp of the Michigan troops and congratulated Gen. Harrah. The Twenty-eighth regiment United States infantry held a dress parade in the afternoon.

Port Benjamin Harrison.—On account of heavy rains and the damage to the camp by wind and water, all maneuvers were abandoned Tuesday and the troops were kept busy putting up tents, drying clothing and rustling for food. The rains ruined nearly all the mess provisions and the regimental commissaries have been heavily drawn upon.

Says Drug Trust Exists.

Indianapolis.—The Eli Lilly Drug company of Indianapolis in the federal court answered the government suit against the alleged "drug trust." The drug company practically acknowledges existence of the trust in the National Association of Retail Druggists and the Wholesale Druggists' association and yet denies active connection with either.

The Lilly company acknowledges acquaintance with the publication of Charles C. Brombaugh, of Chicago, referred to as the "Blacklist," but claims that it has no evidence to warrant calling it by that name and further that the Lilly company makes no use of "said blacklist."

The Lilly company does not deny that the Wholesale Druggists' association regulates interstate commerce, but affirms that it is merely the possessor of an associate membership in the association and has no voting power.

A demurrer was also filed by the W. H. Hill Drug company of Detroit, making a general denial of the charges.

Alleged Murderer Confesses.

Hammond.—Tom Hannan, of Chicago, who was arrested here, charged with the murder of Jack Lannon, at Gary, it is said, confessed to the police that he murdered Lannon. He was bound over to the circuit court for the September term. Hannan's body was found at Gary with two bullet holes in the head. This is said to be the first murder in the new town of Gary.

Pastor Weds Unseen Chatter.

Wabash.—Following a courtship by mail, Rev. William Smith, pastor of the Christian church at Brownwood, Tex., and Miss Josephine Green, of Liberty township, were married here by Rev. G. B. Work. They had never seen each other until the day of the wedding. After the ceremony they started for Texas.

Dog Aids in Capture of Master.

Hammond.—After being tracked to his tent by his lost collie, which a sheriff's posse had found, Tom Hannan, charged with the murder of James Lannon, was arrested while endeavoring to shoot Officer Borchert, who had followed up the dog. With Hannan were arrested Lewis Shinnbarger and Lewis Custer, as accomplices.

Steals Ride; Head Fractured.

Lafayette.—James Jennings, 25 years old, whose home is at Clinton, Mass., while beating his way on top of a baggage car on a fast Monon passenger train, was struck by an overhead bridge here. At the hospital it was found that the entire top of his head was fractured. The physicians entertain some hope for his recovery.

South Bend Phone Sold.

Fort Wayne.—Joseph Harris, vice president of the Automatic Electric company, purchased of its Fort Wayne owners the Independent Telephone plant at South Bend. He agrees to spend \$100,000 in the extension of the plant, giving it toll connections with Chicago.

In Trouble for Doing Duty.

Fort Wayne.—Members of the local aerie of Eagles will try to expel Deputy Fish Commissioner Fleming from the order. He has had a number of his brother members fined for violating the game laws.

To Arrest All Using Profanity.

Terre Haute.—Rev. E. W. Brickert, pastor of the Christian church at Sullivan, has served public notice that he will prosecute everyone he hears using profanity in public places.

Our Washington Letter

Review of Biggest Fleet in American Warships Ever Assembled—Second Only to Channel Squadron of Great Britain—The Public Burden of Naval Expenditures—The Various Classes of Negroes.

WASHINGTON.—It is proposed in September to have a review of the biggest fleets of American warships ever assembled. It will take place either in the waters of Long Island Sound or off the coast of Massachusetts and will be witnessed by President Roosevelt. Before he left Washington Mr. Roosevelt informed Secretary of the Navy Bonaparte that he wished to inspect the Atlantic fleet before it left for the southern drill grounds in the early autumn. The secretary is now making the preparations to have the big fleet assembled some time in September, and it is probable that in addition to the president the reviewing party will include Secretary Bonaparte and Admiral Dewey and several members of the house and senate committees on naval affairs.

THE PROPAGANDA OF DISARMAMENT.

While preparations are being made for this grand naval display there are some earnest statesmen at work spreading a propaganda of disarmament. Mr. Burton, of Ohio, a forceful member of the house, who was largely instrumental in having postponed the construction of the big 20,000 ton battleship until congress could pass on the plans, is one of the leaders in the movement to put a stop to the building up of the navies of the world. At the coming session of the Inter-Parliamentary Union in London Mr. Burton expects to exploit a practical plan for disarmament.

Mr. Burton proposes if possible to obtain an agreement by the representatives of the various parliaments who will meet in London with the idea that their recommendation will receive consideration by The Hague conference which follows. It is already assured that the disarmament will be brought to the attention of the coming Hague conference. The American delegates will favor it and it is necessary will take the initiative in bringing it forward. The new Liberal government of Great Britain has declared favorably for the proposition and it is understood that England's delegates will be prepared to support it at The Hague.

Disarmament as a theory has been under general discussion for years. Advocates of peace and arbitrators have laid the blame of failure to accomplish something in this line to the absence of a feasible programme. Even should the proposition be rejected at The Hague it is felt that the discussion of the subject will bring before the world the desirability of putting a check on war. There are indications that France would welcome a proposition to stop building ships, as would also Germany, who will continue to emulate Great Britain as long as that country keeps adding to her navy. Naval expenditures by all these governments, including the United States, are getting to be a public burden, and if an international agreement could be reached to stop preparations for war great relief would be experienced.

THE WORK OF MR. BURTON, OF OHIO.

Mr. Theodore E. Burton, the American statesman, who will advocate disarmament in London and do all he can to further the proposition at The Hague, has attracted no little attention to himself by his independence and force. He is the chairman of the house committee on rivers and harbors and in that position is a most conspicuous figure before the public because he has had the courage to fight some of the old "pork barrel" schemes in river and harbor appropriations by which money was dumped into shallow creeks and useless bays merely because congressmen asked for it. He has evolved a new system of river and harbor improvement whereby the most important waterway and harbors shall receive the greatest amount of money. He believes in completing important national projects before taking up those of a more local character.

It has often been said that if Mr. Burton were a married man he would be the strongest character in the house. There is a sort of prejudice against bachelors in public life because they seem to be lacking in poise and balance and are apt to be testy and take narrow views of things. Mr. Burton is a man of great brain power and force, but he is a good deal of a crusty old bachelor and as such is not popular. What he accomplishes in congress is by the sheer force of his mentality and logic. It is not because of any personal magnetism or popularity.

There are many admirers of Mr. Burton who wish that he would get married because they believe the association with a good woman would so broaden him as to make him one of the most eligible candidates in the country for the presidency. The Ohio statesman, however, has been too busy as a student of great questions and as a worker in his profession to give any thought to marriage.

ESCAPADES OF A YOUNG CENTRAL AMERICAN.

There has been running around loose in this country, creating occasional sensations and giving an undesired advertisement to his own country, a young man who ought to be one of the most prominent men in his own home. Alphonso Zelaya, who is the son of the president of the Republic of Nicaragua and one of the heirs to a fortune of \$12,000,000, has been making a spectacle of himself for several months. He was sent by his father to receive a military education at the West Point Military Academy, but found the discipline and curriculum of that institution a little too severe for his southern nature. He made the acquaintance in this city of a Miss Baker, the adopted daughter of a Dr. Baker, and a few months ago married her.

The report of his attentions to the young lady had reached his president father in Nicaragua and the latter tried to have him arrested and sent back home, but before his agents could accomplish that purpose young Zelaya and Miss Baker had become man and wife. It was then that the rich Nicaraguan president cast the young man off and would not recognize him unless he gave up his American wife and came home.

The honeymoon of the young Zelayas did not last very long and they separated, the wife returning to her foster father in this city. Then the young man got a job playing a piano in a beer garden and earned ten dollars a week. On this slender income the pair reunited, but soon separated again and Zelaya lost his job as a musical "professor." Then rather than go hungry he stole \$20 from a roommate and rather than go naked he stole a 50-cent shirt from a policeman and his troubles seem only to have begun. The escapades of this young Central American have made the society girls in Washington a little shy of foreigners who represent themselves to be of great wealth and to belong to high families.

THE NEGRO PROBLEM AT THE CAPITAL.

The commercial and social circles of this city and surrounding country are terribly agitated over a proposition to establish a settlement of colored persons in a section that is being built up by white people who are in comfortable circumstances. One of the attractive suburbs lying to the northwest of Washington has for some years been patronized by a good class of white people who have spent money in the improvement of their property and felt comfortable in the fact that their surroundings were all satisfactory. Now comes a proposition to acquire a large section in this fashionable territory which will be sold in lots to negroes. Already a large number of lots have been bought and the white people living near by are in a state of frenzy.

The negro problem is as acute in Washington, and even more so, as in the southern states and among them is the most undesirable class of negroes. There is a class which, while law abiding in most respects, is very impudent and assertive and wherever possible will "bait in" among the whites. This class is purchasing lots in the suburb mentioned and the old residents who have already erected homes in that neighborhood are sure that their property will lose half its value if this negro settlement is continued. There does not seem to be any relief to those who object to colored neighbors, as the latter have a right to purchase property if they have the price.

STORY TICKLED W. J. BRYAN.

Best Told During Campaign of 1896, He Considers.

A Nebraska minister who enjoys the confidence of Hon. W. J. Bryan asked the presidential candidate of 1896, just before he was leaving the country on his present tour, what was the best story told about him when he was before the country as the opponent of Maj. McKinley.

"The one I most enjoyed," he replied, "was told by a commercial traveler who put up at a village tavern in Arkansas. The accommodations were very scant. The traveler slept on the floor. He had no water to wash his hands and face. When he went to breakfast he was out of sorts. He told the landlord that his house ought to be swept away by a hurricane. The landlord made no reply, but invited the traveler to eat. The food was on a par with the traveler's room. He said it wasn't fit for a hog. The landlord was silent and passed up another dish. The traveler threw it on the floor.

"The landlord picked up the remnants and pitched them into a bucket, and said nothing. Just then a woman whose appearance indicated poverty and poor health passed through the dining-room. The traveler made a remark about her that was decidedly uncomplimentary, saying that he didn't wonder the grub was not fit to eat if she prepared it. The landlord never uttered a word of protest. The traveler left the table and asked for his bill. As the landlord scraped up the bottom of his bill to make change the traveler asked him: 'How do you stand on this 16 to 1 caze, anyhow?' Then the landlord's wrath asserted itself and he hit his guest between the eyes."—American Spectator.

MOON LIGHTED DOCTOR'S HOME.

Medical Society Had Sound Reason for Their Date of Holding Meeting.

Up in a New England town there is a medical society which is of 60 years' standing, and has the custom of meeting on the Thursday before the full of the moon. Recently some of the younger members tried to change the time of meeting to the third Wednesday of every month.

Three of the older members rose up and protested. They gave the reason for the peculiar arrangement. "When this association was formed," said one of them, "there were no electric lights and good roads the way there are now. The society took in the whole county, and it was often a difficult matter for the doctors who lived in the country to drive home after nightfall.

"So we called the moon to our aid and set the date for the Thursday before the full of the moon. It is bright moonlight at a seasonable hour then and the doctors could see their way home.

"I know there is no necessity for such an arrangement now, but this will seem like a new society, if we do not meet the Thursday before the full of the moon."

Old Spanish Money in China.

The farmers of Wuhu, China, insist on cash payments, and, further, especially in that part of the province lying north of the river where most of the rice is grown, will only accept in payment Spanish dollars dating back to the last decade of the eighteenth and the opening years of the nineteenth centuries. These, although in purity no better than, and in weight not equal to the modern Mexican dollar, are at a considerable premium, which fluctuates almost daily.

It is computed that there are all told about 1,000,000 of these coins in the province, of which not more than 1,700,000 are in circulation, the balance being hoarded by the peasantry.

An Editorial.

The landlord of the Surt house having withdrawn his advertisement from the local dailies noticed a forbidding change in their treatment of himself and his hotel.

Tearing down Ocean street, he burst like a westerly gale the other morning into the office of the Morning Spray.

"Did this paper say my place was on the bum?" he roared.

"No," said the editor.

"Did it call me a thief?"

"Of course not."

He frowned in perplexity.

"Well, some paper did," he growled.

"Perhaps," hazarded the editor, "it was our contemporary, the Wave. We never print stale news ourselves."

Setting Him Right.

Borrowings.—Oh, I guess not!

Kandor.—Yes, you are. I didn't say "when," but "if."

The Only Known Way.

A person of little tact once remarked to the octogenarian Auber: "What a sad thing it is, this old age business!" "Yes," agreed the old musician, "It is sad. But," he added, with witty philosophy, "up to the present time no surer way has been discovered to live a long time."

DAZED WITH PAIN.

The Sufferings of a Citizen of Olympia, Wash.

L. S. Gorham, of 516 East 4th St., Olympia, Wash., says: "Six years ago I got wet and took cold, and was soon flat in bed, suffering tortures with my back. Every movement caused an agonizing pain, and the persistence of it exhausted me, so that for a time I was dazed and stupid. On the advice of a friend I began using Doan's Kidney Pills, and soon noticed a change for the better. The kidney secretions had been disordered and irregular, and contained a heavy sediment, but in a week's time the urine was clear and natural again and the passages regular. Gradually the aching and soreness left my back and then the lameness. I used six boxes to make sure of a cure, and the trouble has never returned."

India's Cotton Crop.

The cotton crop of India was larger last year, 1905, than the general average. About 20,000,000 acres were planted in cotton and the yield was about 3,500,000 bales. During the year there were exported from India to other countries over 2,125,000 bales of raw cotton at a value of over \$81,000,000, the four countries, Japan, Germany, Belgium and Italy. In the order named, being the largest purchasers, they together buying nearly 1,500,000 bales of Indian cotton, while Japan alone took nearly 500,000 bales.

PHYSICIAN SAYS

Children Thrive on Grape Nuts and Cream.

A Mass. physician has found a cure for constipation in children—citing fifteen cases—by feeding them Grape-Nuts.

"Some time ago," he writes, "I became interested in your food, Grape-Nuts, as a cure for constipation in children. Having tried it in my own family, I have advised it in fifteen cases in which all suffered with constipation more or less severe. The result has been absolute relief in all.

"I write this that other children may be benefited."

How much better it is thus to bring about a healthy action in the bowels of growing children by natural means, than to feed them with improper food, requiring some kind of cathartic at intervals to overcome constipation.

Grape-Nuts gives energy to the entire nervous system including the nerves that cause the natural contraction and relaxation of the bowel muscles, that propel the food mass along.

It is predigested also, and the blood easily absorbs the food as it goes through the body, storing up vitality and force for the functions of all the organs.

Children, especially, should get the right start as to habits of living. They should grow into bright, strong, cheerful men and women. Grape-Nuts solve the question of the start; a wholesome appetite will do the rest.

Children's teeth are benefited by chewing Grape-Nuts, also. Your dentist will tell you that a certain amount of exercise in chewing firm food, is necessary to grow strong, beautiful teeth.

Teeth need exercise just the same as muscles, if they are to grow strong and firm as nature intended. Grape-Nuts gives the exercise and also gives material from which good teeth are made.

NEW BRICK BLOCK.

Main Street to have Another Fine Addition to its Improvements.

S. E. Medbourn has secured plans and is getting figures for the construction of a two-story and basement brick block on the vacant lot adjoining Hessel's store. The building will be 99 feet deep and will have a frontage of 35 feet. The first floor and basement will be occupied by the Hessel store whose growing trade demands larger quarters than it occupies at present. The second floor may be constructed for a town hall, though this has not been fully decided.

The vacated double store will have the opening closed to convert it into two rooms. One of these Mr. Hessel will undertake to fill with some business enterprise which will not be a competitor in his lines.

Obituary.

Catharine Spangler, daughter of Samuel and Rachael Spangler, was born Jan. 21, 1840, near Fremont, Sandusky county, O., and died at Culver, Ind., Aug. 7, 1906, at the age of 66 years, 6 months and 17 days.

In 1855, with her parents she moved to Miami county, Ind. November 11, 1860, she was married to Eli Parker, to which union there were born six children—three sons and three daughters. March 16, 1869, she united with the Christian church at Maxinkuckee, Ind. She leaves to mourn her loss six children, four brothers and two sisters. Her husband and two little grandchildren preceded her to the spirit world.

Sister Parker lived her life in the simplicity of her christian faith. She has gone to her rest.

A Neat Cottage.

Will Osborn has rented the four-room cottage just completed by Oliver Morris and will occupy it until the end of the year when he will move into a new cottage to be erected by his father. The Morris house is one of the cozy homes of Culver. The interior finish is oiled Southern pine, and every room has three windows. With a front porch of concrete and a back porch enclosed, the cottage is well adapted to the comfort and convenience of a small family.

Farm Telephones.

Every farmer who desires telephone connection with Culver is requested to call Thursday or Friday of this week at the Culver telephone office and leave his name. This is for the purpose of enabling the committee of citizens appointed last Friday night and the telephone company to ascertain more definitely the needs of the farmers and also in what directions the company will be justified in extending its lines.

Elected Fire Chief.

At a meeting of the Culver Fire company on Thursday evening the resignation of Harry Saine, presented at a previous meeting, was accepted. Four candidates for a successor were put in nomination—O. A. Gandy, Chas. Asper, Monton Foss and Henry Listenberger. The election resulted in the choice of Gandy, and Asper was elected assistant chief to fill the vacancy caused by the promotion of Gandy.

The Hendricks-Garn Case.

Judge Bernetha came up from Rochester Friday and rendered his decision in the Hendricks-Garn case. The judge held that he had no jurisdiction, yet he did not throw the case out of court, but granted a change of venue to Cass county where an amended complaint may be filed if desired. The judge held that the office of county chairman was not a public office.—Plymouth Independent.

A TRUE FISH STORY.

One of Maxinkuckee's Expert Anglers Lands the Boss Catch.

(The truth of the following fish story is properly authenticated by having attached to it one of Jim McSheehy's fish affidavits.)

Mr. A. Herz of Terre Haute, who is one of the pioneer resorters at the lake, is an expert fisherman. He can tell the size of a fish by the way it bites, and to prove it he took a friend with him the other day trolling for walleyed pike off Long Point. It was not long until Mr. Herz's line indicated a "strike." He was all excitement and said to his friend: "Now observe me how I do it. Don't be in a hurry about reeling him in. Let him have plenty of line, like this, say fifty or a hundred feet. There! Now begin to pull him in! He's a whopper! I'll bet he'll weigh 5 pounds—4½ pounds, sure. I know he'll weigh at least 4, and I'll wager the 'mead' he will pull down the scales at not less than 3." By this time the line was nearly reeled in and preparations were made to land the biggest catch of the season. The landing net was brought out and put down in the water at the side of the boat. As the line was drawn up a little farther Mr. Herz said, "Now watch me land this beauty!" And suiting the action to the word he placed the net underneath the "beauty" and lifted him in out of the wet. It was a 3-pound bunch of lake grass! The last seen of Mr. Herz he was searching the dictionary for a suitable word to express his feelings on the occasion. If anyone doubts the truth of this story let him ask Simon Yandes.

EIGHT POUND BASS.

The Champion Catch Goes to the Credit of a Traveling Man.

One of the largest black bass ever taken from the waters in this section of the state was landed at Lake Manitou, north of Logansport, Monday, by Lou Baer, a traveling salesman, whose home is in Peru. The fish weighed 7 pounds and 10 ounces, measured 21 inches in length, 18 inches around at the largest point and 3 inches thick. The fish was caught with an artificial minnow and it took Mr. Baer five minutes to land it. He also caught a bass weighing 4½ pounds, and took it home alive. The fish which weighed nearly 8 pounds, won for Mr. Baer a medal offered by the Rochester Rod and Gun club.—Logansport Reporter.

A Unique Industry.

The demand of the large number of fishermen who frequent the lake for fish bait has given rise to a juvenile industry which is financially profitable to the half-dozen boys who engage in it as well as useful in giving them occupation during the long summer vacation. These boys catch grasshoppers in large numbers—sometimes as high as thirty or forty dozen in a day—and retail them along the lake shore and at the piers to fishing parties at 5 cents a dozen. As high as \$38 or \$40 is thus cleaned up by the more enterprising and industrious of the boys.

CADETS AT LAKE WINONA

Culver Boys Experience a Wet Week for Their Outing.

RAIN IS A DAILY DISCOMFORT

Clear Weather on Friday Permitted Battle and Parade.

[From The Log]

Wednesday, Aug. 8—At 4:30 p. m. today the gates of the Winona grounds were thrown open and the cadets of C. S. N. S. entered in triumph. The rain that had just fallen and left the streets muddy and the sidewalks pools of water did not prevent several hundred people from crowding along the line of march to the camp. "Don't those big fellows look fine?" "Aren't those little ones cunning?" (this of the gallant fourth). "Just see how they keep step"—were the characteristic comments picked up in the crowd as the boys marched past.

They found tent floors in place and canvas laid on each ready to be fitted to poles and raised. But Jupiter Pluvius has an alliance with Culver tents; no sooner are they to be seen than this tearful god makes his presence known. Accordingly canvases were spread, poles fitted and tents raised with the rain adding to the general wetness created by the downpour of the earlier afternoon. A slight diversion was created at this point by the third division encountering some opposition from a nest of bumble bees, but the brave boys stood fast and the bees were dispersed with heavy loss.

By the time the tents were in position and ropes made fast the shower passed and a scramble for baggage and cots began. Soon all were provided and an orderly pile of folded cots surmounted by bedding and flanked by suit cases and basin and bucket was presented to the curious visitor. The last feature had to satisfy his curiosity from a distance, however, as Allen, first C. G., had posted his guard and the tented street had become "off limits" for the visitor.

Thursday—Rain opened the second day at Winona and the opening took place very early in the morning. The day succeeded in bringing sunshine and dryness, but first call for parade brought out the ramble of thunder and a heavy cloud looked ominous for the evening ceremony. The boys had barely time to march out to the grounds when the torrent came again. Surely fate has been against us on this trip.

The morning, however, was clear and the boys had the freedom of the grounds, and with the exception of a few who had to pump water from the cutters they were scattered far and wide. The results of missionary work—that is what it is called at Winona—were seen in the number that came to the evening reception.

On Friday the weather permitted the sham battle to be held without interruption. It was followed by a beautiful dress parade. Camp was broken on Saturday morning and between 12 and 1 o'clock the cadets again feasted their eyes on lovely Maxinkuckee, glad to get back to their more attractive environments and eager to resume the routine of the school.

When a woman suffers from depressing weakness, she then realizes how helpless—how thoroughly worthless she is. Dr. Shoop has brought relief to thousands of such women. He teaches diseases peculiar to women in two direct specific ways—a local treatment known by druggists everywhere as Dr. Shoop's Night Cure, and a constitutional or internal prescription, called Dr. Shoop's Restorative. Dr. Shoop's Night Cure is applied locally, and at night. It works while you sleep. It reduces inflammation, it stops discharges, it heals, it soothes, it comforts, it cures. Dr. Shoop's Restorative (tablet or liquid form) is a constitutional, nerve tissue tonic. It brings renewed strength, lasting ambition, and vigor to weak, lifeless women. These two remedies, singly or used together have an irresistible, positive helpful power. Try them a month and see. Sold by T. E. Slattery, druggist.

SILVER PURCHASES WILL BE RESUMED

UNITED STATES TO BUY BULLION
FOR COINAGE AT ITS VAR-
IOUS MINTS.

Bids for Weekly Delivery Invited by
Director of Mint, to Be Sent in
Each Wednesday Until Further
Notice.

Washington, Aug. 10.—For the first time in 13 years the government announced Thursday its purpose to purchase silver for coinage purposes. Tenders are invited at the office of the director of the mint in this city on Wednesday, the 15th instant, up to one o'clock p. m. and every Wednesday thereafter until further notice. These tenders are to be for delivery at the Philadelphia, New Orleans or Denver mints, settlement to be on the New York basis of bullion guaranteed 999 fine. The treasury reserves the right to reject all tenders or accept such part of any tender as may suit its convenience.

It is understood that, anticipating that its reappearance as a purchaser might temporarily disturb the market unduly, the treasury has obtained control of considerable amounts for future delivery, so that it is in position to drop out of the market for several months if desirable.

The average requirements of the treasury throughout the year will probably not exceed 100,000 ounces per week, and it will be the policy of the department, while keeping a reasonable amount in hand, to so distribute its purchases throughout the year that its demands will be uniform and not an element of uncertainty in the market.

Stock of Bullion Exhausted.

For the resumption of specie payments in 1879 down to the year 1900 the constant increase in the stock of subsidiary coin required by the growing population and trade of the country was supplied by the recoinage of old and uncurrent subsidiary coins which accumulated in the treasury under the resumption act. In 1900, as this stock was running low, authority was granted in the monetary act of March 14 to the secretary of the treasury to divert bullion, purchased under the act of July 14, 1890, for the recoinage of silver dollars to the recoinage of subsidiary pieces. Under this authority about \$33,000,000 has been coined since 1900.

The stock of bullion in the treasury was exhausted more than a year ago and since then no bullion has been available for the subsidiary use.

Demand for Coinage.

The stock in the treasury had become so low that it was apparent, according to the department, that the demands of a constantly enlarging trade could not be met without additional coinage. The secretary of the treasury was in doubt whether existing statutes authorized him to buy bullion for this purpose and, moreover, was of the opinion that it would be a better policy to meet future demands for subsidiary coin by the recoinage of silver dollars in the treasury, and so recommended to congress. Congress, however, having failed to act upon his recommendations, Secretary Shaw requested an opinion from the attorney general as to his authority to purchase bullion for this purpose under existing law and he received a favorable reply, based on section 3, 626 of the revised statutes. The policy now announced was accordingly determined upon.

LARGE YIELD OF WINTER WHEAT

Illinois Board Reports Increase of
Nearly Five Million Bushels.

Springfield, Ill., Aug. 10.—The state board of agriculture issued a bulletin Thursday, stating that reports from its correspondents in Illinois show that the yield of winter wheat in Illinois this year is 27,365,562 bushels, an average of 20 bushels an acre, an increase of 4,966,232 bushels over 1905. Quality of wheat this year is reported as excellent and free from cheat and dirt. Yield of spring wheat in state is 1,692,123 bushels. Area of oats harvested is 3,018,295 acres, giving a total yield of 99,971,381 bushels, or 33,593,943 fewer bushels than last year.

The condition of corn on August 1 is but 81 per cent of the seasonal average, which is a decrease of eight points since June 20, and 15 points below August 1, 1905, and four points below the ten years' average. There was great damage done by a drought of 60 days' duration.

Jury Sustains Allegation That He
Was Member of Horse Thief Band.

Williston, N. D., Aug. 10.—W. M. Denny, mayor of Williston, and a prominent banker, was found guilty on a charge of receiving stolen property. It was charged by the authorities of Valley county, Montana, that Denny was the head of a band of horse and cattle "rustlers" and that he disposed of the booty. An attempt was made to extradite Denny and take him to Montana for trial, but failed. He was brought to trial here on a charge of having received and disposed of six horses stolen in Montana.

DOES NOT AFFECT SHIPS BUILT IN PRIVATE YARDS.

Supreme Court Case Cited to Show
Title Does Not Vest in Govern-
ment Till Vessel Is Completed.

Washington, Aug. 7.—The attorney general in an opinion addressed to the secretary of the navy and made public Monday holds that the so-called eight-hour law which provides "that the service and employment of all laborers and mechanics who are now or may hereafter be employed by the government of the United States, or the District of Columbia, or by any contractor or subcontractor, upon any of the public works of the United States, or of the said District of Columbia, is hereby limited and restricted to eight hours of any one calendar day" does not apply to vessels under construction for the navy by contract with builders at private establishments. The attorney general calls attention to the case of *Clarkson versus Stevens* (16 U. S. 505), where in the supreme court held that the title of a naval vessel under construction does not vest in the government until after the conditions and covenants of the contract have been fulfilled.

The opinion was prepared and signed by Solicitor General Hoyt and was approved by Attorney General Moody. A similar opinion has been given the secretary of war to the effect that the eight-hour law does not apply to contractors furnishing the quartermaster's department with supplies.

MAKE LONG TRIP IN AIRSHIP

Aeronauts Test New Devices in Jour-
ney Covering 225 Miles.

Brant Rock, Mass., Aug. 7.—Sailing above the clouds and over 225 miles of panoramic land and water from New York city, and landing at the little sea shore resort of Brant Rock, near the historic town of Plymouth, Dr. Julian P. Thomas, of New York, and Roy Knabenshue, a professional aeronaut, made one of the most successful balloon trips yet undertaken in his country, and learned much, it is believed, that will assist in the development of aerial navigation.

Dr. Thomas in an interview, said that the trip from every point of view was the most successful he has yet accomplished.

The voyage was made with one stop and that a voluntary one at Noank, Conn., early Monday morning, where by the aid of a new guide rope, Dr. Thomas quickly brought his balloon to the earth to procure breakfast and water. The aeronauts landed at Brant Rock at 11:30 Monday afternoon, and as they left New York at midnight Sunday night they were nearly 12 hours on their trip.

The trip was made for the purpose of testing two new appliances—a guide rope and a water anchor. The former device worked with great success.

One hundred soldiers and constabulary are in pursuit of the raiders.

Will Try to Save Cargo.

Cartagena, Spain, Aug. 8.—An expedition organized by the vice consul of Italy and the captain general of the port has started on a tug for Hormigas island to examine the situation of the *Sirio* and make an attempt to save part of her cargo. The tug also had on board several divers, wrecking apparatus, a portion of the crew of the *Sirio* and one of the officers of that vessel.

CHARGE REBATING BY UNIQUE PLAN

CHICAGO FEDERAL GRAND JURY
RETURNS BILL AGAINST
BIG COMPANY.

Standard Concern Is Alleged to Have
Received Refunds from Railroads
in the Form of Remission of Stor-
age Charges.

Chicago, Aug. 9.—Standard Oil received its first serious blow from the federal government Wednesday when the special grand jury returned a true bill embracing 19 counts against the Standard Oil company as an incorporation. The indictment, which was presented in Judge Bethea's court, sets forth that the Standard Oil company receives rebates in the form of storage charges on oil from the Lake Shore & Michigan Southern railway amounting to \$5,501,72. The time covered by the indictment extends from August, 1903, to March 1, 1905.

Bond for the defendant company was fixed by Judge Bethea at \$25,000. After returning the indictment charging the acceptance of rebates, the jury retired and made preparations for taking up the investigation of alleged rebates on transportation charges.

Surprise by Grand Jury.

It was a surprise party which the special jury sprung upon the Standard Oil people as well as upon the court officials when word was sent to Judge Bethea that a true bill had been voted against the Standard Oil corporation.

The investigation proper did not begin until 9:30 o'clock Wednesday morning. There were a half-dozen Lake Shore officials waiting in the witness room for examination, as the jurors emerged from the juryroom and headed for Judge Bethea's court.

Standard Attorneys Get Busy. Only the legal representatives of the government were present when the report was read. Judge Bethea immediately fixed the amount of the bond in accordance with the suggestion of District Attorney Morrison. John S. Miller, special counsel for the Standard Oil company during the government attack, has been on his vacation in the Adirondacks. Merritt Starr of the same legal firm declined to make any statement, but intimated that Mr. Miller was hurrying back to Chicago. It was learned at Mr. Miller's office that he had expected to remain away some time, but the change in the situation warranted his hasty return.

PICNIC PARTY OVER PRECIPICE

Twenty Daughters of Liberty Injured
When Wagon Goes Over Bluff.

Pittsburg, Pa., Aug. 9.—While driving over a country road at Evergreen, nine miles from this city Wednesday night, a wagon containing 20 persons of a picnic party plunged over 30 foot precipice and all sustained more or less serious injuries. None were fatally hurt.

A lodge of the Daughters of Liberty from Allegheny were enjoying an annual straw ride, and the last of the three wagons became fast in a rut on a muddy mountain road.

On attempting to turn out the horses stepped too far from the road which ran along the bluff, and plunging over dragged the wagon with its occupants with it.

The screams of the women as they went over the cliff attracted the attention of the occupants of the other wagons and the other picnickers returned to the relief of their unfortunate sisters.

Had Counterfeit Money.

Corry, Pa., Aug. 10.—County Detective Watson, of Erie, assisted by Capt. W. P. Walsh, of Pittsburg, arrested John Hannon, a former engineer. Counterfeit money was found in his possession.

COMMISSION CUTS TARIFF

BADGER RAILWAY BOARD LOW-
ERS GRAIN RATES.

Great Saving to Shippers of Wiscon-
sin by Decision Reducing Charges
About One Cent a Bushel.

Madison, Wis., Aug. 10.—Grain rates for the state of Wisconsin will be reduced practically one cent per bushel by an opinion of the railway commission, handed down Thursday. This is the most important decision that has ever been rendered by the Wisconsin commission. The order will affect all of the railroads operating in the state of Wisconsin. The matter was started by a complaint made by O. G. Kingy against the Wisconsin Central and later by a complaint of W. L. Houser against the Chicago, Milwaukee & St. Paul, the Minneapolis & Omaha and the Chicago & Northwestern. The matter was conducted as an investigation of grain rates between stations in Wisconsin and Milwaukee by the railroad commission acting on its own motion. The two complaints involved grain rates from Colfax and Mondovi to Milwaukee only.

The commission notified the railroad companies that a complete investigation would be made on their own initiative of the whole question, and the railroad companies appeared at a formal hearing July 10, when sworn testimony was received at that time on the matter.

The independent investigation of the commission with reference to these grain rates dates almost back to the time of organization, and an elaborate statistical compilation had been made before the first hearing. The hearings in the matter of passenger rates have contributed much to an exact solution of the question. The opinion states that the final adjustment of figures has not yet been made in passenger rates.

In view of the fact that Wisconsin will ship 175,000,000 bushels of grain this year the reduced rate will cause a large saving to the shippers throughout the state.

FAST TRAIN STRIKES ENGINE

Two Firemen Killed in Attempt to
Jump to Place of Safety.

Pittsburg, Pa., Aug. 7.—Two persons were killed in a wreck on the Pennsylvania division of the Pennsylvania railroad about three miles outside this city about 11 o'clock Monday night when the Cincinnati and New York limited east-bound struck switch engine as it tried to cross in front of the fast train.

Where the wreck occurred there is a high bluff on one side and a retaining wall on the other. As the passenger train struck the switch engine, the latter toppled toward the retaining wall and narrowly missed rolling over into the river, while the express engine plunged into the high bluff. The baggage car fell toward the switch engine, and falling over, caught fire. The two firemen who jumped in the same direction, were caught beneath the car and killed.

MURDERED DAUGHTER WITH JUG

Enraged Man Chased Wife with Ax
in Attempt to Complete Tragedy.

Menominee, Wis., Aug. 9.—William Esler, of Downsville, killed his seven-year-old daughter Tuesday night by striking her over the head with a gallon jug.

He says he killed the child because the mother did not want it.

Before killing the child Esler chased his wife with an ax. The couple had not lived together for six months, and Esler had sought to have his wife return home to live with him again.

The quarrel started on the wife's return.

LAND TO PEASANTS PLAN OF PREMIER

STOLYPIN PROPOSES TO FULFILL
PROMISES MADE BY
GOVERNMENT.

Actual Bestowal of Property Rights
on Masses Expected to Inculcate
Respect for Holdings of Others,
Which is Lacking Now.

St. Petersburg, Aug. 8.—The real intention of the government when it dissolved the lower house of parliament, as revealed by a member of the cabinet, shows that Premier Stolypin at least intends to pursue and hold an affirmative policy amounting virtually to a determination on the part of the administration to settle the agrarian question according to its own lights, and irrespective of parliament and then go to the country upon this issue.

Expects to Give Land.

The government expects to rally not only all the landed interests but the mass of the peasantry to its side by actually giving the latter some immediate relief instead of merely holding out hopes of a more advantageous settlement in the indefinite future, which has been the stock in trade of many reformers.

Politically this move may prove very strong. The actual bestowal of land, even if in smaller quantities than expected, and the division of communal holdings will, it is believed, make the peasantry disinclined to vote for candidates to the lower house who might propose a totally different solution to the question.

But above all, individual possession, the government calculates, will inculcate that very respect for property the lack of which, under the system of communal holdings has made many peasants such easy converts to the theory of the nationalization of land.

Funds Are Lacking.

The crux of the question is its financial aspect. It will be a herculean operation to find the funds required to purchase the private holdings which the project of Minister of Agriculture Stokolsky contemplated acquiring through the land banks, even though the owners, under the spell of the agrarian disorders, are ready to sell at moderate prices. The character of these disorders has been shown again in a dispatch from Poltava describing the destruction of an estate owned by Prince Ketchubsky, whose breeding stud of 250 horses and more than 500 sheep were locked in burning buildings and wantonly left to perish.

CASHIER SURRENDERS HIMSELF

Official of Closed Chicago Institution
Found by Reporters.

Chicago, Aug. 10.—Henry W. Hering, the missing cashier of the bankrupt Milwaukee Avenue State bank, gave himself up to the police Thursday afternoon. He declared that he had been in Chicago since Monday morning.

Hering was found, not by the police, but by a newspaper reporter to whom he made a statement Wednesday night and promised to surrender to the police Thursday.

Although a number of persons knew the whereabouts of Hering, the police made no demand on them to produce him.

An amazing story of loose and criminal banking methods was revealed by Hering to the police and Bank Examiner C. C. Jones. More specific information about Stensland's operations make him out a man whose greatest asset was the ability he had to win the friendship and confidence of the people who gave him their money. Each business deal made his straits more desperate.

JANESVILLE, WIS., IS FLOODED

Terrific Rainstorm Washes Away
Streets, Doing Great Damage.

Janesville, Wis., Aug. 10.—This city was visited by a terrific rainstorm Wednesday night, causing several thousand dollars damage by the washing out of streets. In one place 200 feet on Washington street was washed away for a depth of 30 feet and a width of 78 feet. The business streets were flooded.

The river has risen so much that factories depending on water power have been compelled to close. Reports from the country say that damage was done to the standing grain and that tobacco plants were washed out of the fields. Trains are late from all directions.

Madison, Wis., Aug. 10.—Wednesday night's rainfall was the greatest ever recorded at Madison in a single day. In two hours 4.96 inches fell, raising Lake Monona five inches. The storm did great damage.

Miners Meet Horrible Death.

LIQUOR FORCES STEAL A MARCH

Superior (Wis.) Ordinance Puts Sa-
loons Under State Control.

Superior, Wis., Aug. 9.—Tuesday night the common council passed an ordinance, the reading of which discloses the omission of the Sunday closing law, leaving the closing of saloons in the hands of the state officials. The new ordinance also takes from the hands of the new mayor all power to close saloons.

For two weeks Sunday has been "dry" in Superior, the east end and south Superior, as a result of a crusade at a ministerial association and the Civil league. Mayor Linley gave the move his whole support. Mayor Linley announced that he would veto the ordinance.

"NO TROUBLE"

To Change from Coffee to Postum.

"Postum has done a world of good for me," writes an ill man.

"I've had indigestion nearly all my life but never dreamed coffee was the cause of my trouble until last Spring I got so bad I was in misery all the time."

"A coffee drinker for 30 years, it irritated my stomach and nerves, yet I was just crazy for it. After drinking it with my meals, I would leave the table, go out and lose my meal and the coffee too. Then I'd be as hungry as ever."

"A friend advised me to quit coffee and use Postum—said it cured him. Since taking his advice I retain my food and get all the good out of it, and don't have those awful hungry spells."

"I changed from coffee to Postum without any trouble whatever, felt better from the first day I drank it. I am well now and give the credit to Postum." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

MAIL ORDER EVILS.

SOME COGENT ARGUMENTS IN FAVOR OF HOME TRADING.

Money Spent with Local Dealer Goes to Swell Prosperity and Promote Progress of Local Community, with Benefit to All.

The Retailers' Journal, of Chicago, prints the following, pointing out the advisability of citizens of a community doing all in their power for the encouragement and support of home business enterprises:

"From your side, Mr. Consumer, who think it to your advantage to patronize mail order concerns, may come reasons which would seem to justify your course. You may say of your local merchant: 'He doesn't keep the goods, or 'He sticks it on in price.' Replying to these objections, let us ask: Do not you expect too much of your local dealer? Do you give him a fair chance to put himself right with you? When you go to him for a small amount of any commodity, and expect him to give you the advantage of whole-package prices, are you giving him fair treatment? Try him on this proposition, and see how it works: Buy of him in quantity as you do of your mail order house, and see if you don't get the benefit of lot prices. Try him on standard articles, on which the mail order house can have no unfair advantage in the test. Do this and you will find that your despised home merchant can hold his own against the seductive allurements of catalogue houses."

"And, again, Mr. Consumer, we would ask: What guaranty have you that your mail order purchases are inspection proof, or what assurance have you that errors and shortages will be easily and speedily rectified? These are incidents of the mail purchasing scheme which must be taken into consideration."

"Another deplorable phase of the mail order system which occurs to us at this time is the awkward position in which you, Mr. Consumer, may find yourself when once you have allied yourself with the catalogue concerns. You fall into the habit of soliciting trade for them among your neighbors and friends, thereby constituting yourself an unpaid emissary of a power that is undermining the stability of your local institutions and sapping the life current of your home community. That a resident should thus operate against the best interests of his own neighborhood is a sad commentary of the loyalty and foresight of our people."

"It is of great convenience to have at hand a list from which to select names and prices of commodities you desire to purchase, and then simply write them down and mail your order, but you pay for the convenience. You also pay for a great many articles you do not really need. That is where the catalogue gets its work."

ever on local alert to please you and anxious to hold your trade. He may not at all times be prepared to supply your every need. But if you will be reasonable with him and stand as ready to help him as he is to help you, it is safe to say that he will make amends for any seeming oversight or remissness."

"The profits of your home dealer go to swell the prosperity and promote the progress of your section. Tote fair with him; give him the encouragement of your patronage; strengthen him with your cash instead of sending it away to mail order houses, and the results will be sure to repay you and redound to your everlasting credit."

To Cool Off His Temper.

A certain farmer, having got himself disliked on account of his quarrelsome habits, the other farmers decided one night to cool him down a bit.

At midnight the farmer was disturbed by a voice shouting: "Your horse is stolen."

The irate farmer hurried on his clothes, and hastening to the door asked: "Which way has he gone?"

"Toward H—," replied one of the farmers.

Another offered the loan of a horse he bestrode, which offer the sleepy farmer accepted. After riding all night he found himself at daylight next morning riding his own horse.

Professional Begging Letter Writers.

BOY'S TERRIBLE ECZEMA.

Mouth and Eyes Covered with Crusts—Hands Pinned Down—Miraculous Cure by Cuticura.

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest and back, in short the whole body was covered over and over. We had no rest by day or night. Whenever he was laid in his bed, we had to pin his hands down; otherwise he would scratch his face and make an open sore. I think his face must have itched most fearfully."

"We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within two weeks the child was absolutely well, and his skin was smooth and white as never before. F. Hohrath, President of the C. L. Hohrath Company, Manufacturers of Silk Ribbons, 4 to 20 Rink Alley, South Bethlehem, Pa., June 5, 1905."

Will Widen Kiel Canal.

The ever-increasing dimensions of war vessels has led the German government to conclude to widen the Kiel canal from 60 to 130 feet, and the width at the surface from 130 feet to 250 feet. The proposed improvements, it is estimated, will cost nearly \$50,000,000.

TO HOLDERS of U.S. 4s of 1907

Your bonds will be paid off by the Government at par on July 1, 1907, or less than one year from now.

Owing to the demand for Government bonds, due to the appointment at the present time of a large number of temporary public depositaries, we are in position to pay you for your bonds almost as much as you will receive from the Government in principal and interest, even though you should hold them to maturity.

We can pay 103 1/4, or at the rate of \$1,032.50 for a \$1,000 bond. To retain your bonds when you can sell them at this price is equivalent to your investing your funds at a rate of less than 1/4 of 1% per annum.

Conditions are unusually favorable to the reinvestment of your funds. Railroad bonds of the highest type are much lower than they have ruled for several years.

If you are interested in taking advantage of the peculiarly favorable opportunity to sell your maturing Government bonds, we shall be pleased to have you write us. In case you have \$5,000 or more of bonds, we shall be glad to have you wire us at our expense.

What Joy They Bring To Every Home

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature, and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.

—Upon their return home after a day's absence the Fishburn family found a bunch of keys in the front door. Someone had tried to enter the house and had not only failed to turn the lock but had been unable to withdraw the key.

Resolutions

By the Ladies' Aid society of the Christian church:

Whereas, It has pleased the all-wise Father to remove by death our beloved sister, Catharine Parker; therefore be it

Resolved, That while our circle has been broken and our hearts are filled with mourning we realize that her earthly labors are over and she has gone to her just reward.

Resolved, That the society has lost a loving helpful member, the church a true christian, and the community a faithful friend and neighbor.

Resolved, That this society express its most heartfelt sympathy to all members of the family in their bereavement. Be it

Resolved, That our love and esteem for Sister Parker be shown by setting apart as a memorial a page on our records for these resolutions and that a copy be sent to the Culver Citizen.

A MIGHTY PURCHASE

THE Chicago Salvage Co., of Chicago, have purchased the balance of the stock of R. C. Kloefer, Plymouth, consisting of \$25,450 worth of finest Dry Goods, Notions, Carpets, Curtains, etc., and will be sold by them in seven days, beginning August 18, at Kloefer's stand, Michigan and LaPorte Sts., Plymouth. This sale will be the greatest price reduction ever attempted. The Chicago Salvage Co., is known throughout the U. S. as the world's greatest bargain givers, who buy and sell more stocks than any organization following this line of business. This entire stock was bought at 30 cents on the dollar wholesale and will be sold at 30 cents on the dollar retail, making this the most wonderful sacrifice sale ever attempted. Mr. Kloefer has purchased a half-interest in the Golden Rule store at Logansport, and taken immediate possession, and was forced to dispose of this stock at a price which meant a great loss to him, but of great benefit to the community, as everyone in the country will have an opportunity to supply themselves with fall and winter merchandise at a considerable less than one-half of its value.

Sale Begins Saturday, Aug. 18

To invoice and mark down this enormous stock our building will be closed and no one allowed in the store until Saturday, Aug. 18, when everything will be in readiness for the most wonderful sale in Indiana history. There will be a crowd, and the goods will go quickly, so everyone should come early, for this is not one of those sales where goods sold can be replaced, for the bargains to be had at this sale will never be found again in a lifetime. We have a circular price list which we are distributing throughout the country which will give you an idea of the great values to be had, and they don't begin to give all the bargains, for every article, every garment, every yard of goods in the store must be sold. Our tailor-made ready-to-wear department is a wonder. Ladies' Suits, Cloaks, Jackets and Skirts at your own price. \$10 and \$12 Coats go at \$1.98, and hundreds of bargains like that. Don't put it off, but get in early. Railroad fares paid on all purchases of \$10 from point in a radius of twenty miles.

The Chicago Salvage Company
R. K. TAYLOR, Manager.
