

Culver Community Middle/ High School Renovations

G. Gilley

This photo is from outside Mrs. Havron's office. Her office is technically the bookstore. In the bookstore you can get Culver bracelets, and when the time is right, a yearbook. You may also buy school supplies like pens, markers and pencils.

This is the inside of Mrs. Havron's office. In the desks are school supplies, the money box is on the table. It seems two people work here. There are school books lined on the shelves, I'm figuring for teacher use. These are the before photos of her office.

The book store is now finished. It has a seating area and two chairs in the back. There are still two desks with two chairs. You can still buy school

supplies, and bracelets. This room is bigger than the last one. This has gray-ish blue walls. It's in the back of the office area.
